

Colorado State Committee Meeting – February 10, 2026

Executive Session Minutes

Meeting Place: Colorado State Office
Denver Federal Center
Lakewood, CO 80225
and
Via TEAMS

Members Present: Don Brown, Chairperson
Darrell Mackey, Member
Kyle McConnell, Member
Steve Raftopoulos, Member
Joe Petrocco, Member (Via Teams)

Staff Present: Jerry Sonnenberg, State Executive Director
Jon Weishaar, Deputy State Executive Director
Cindy Vukasin, Farm Program Chief
Corey Pelton, Farm Program Chief
Janae Rader, Farm Program Specialist
Doug Andresen, Farm Program Specialist
Hunter Cleveland, Farm Program Specialist
Julie Sporhase, Farm Program Specialist
Woody Woods, District Director
Scott Brase, District Director
Sam Montoya, District Director

Guests: None

1. Call to Order

The Colorado State Committee (STC) met on February 10, 2026, in person at the Colorado State office in Denver. Don Brown, State Committee Chairperson opened the Executive Session at 12:00 p.m.

2. Emergency Conservation Reserve Program (ECP)

A 321 Equitable Relief – Misaction/Misinformation – Montezuma – Valley View Ranch LLC

Hunter Cleveland, Farm Program Specialist, presented the STC with the case file (Exhibit 1) to review and make a determination on the Montezuma COC request to approve Equitable Relief under Misaction/Misinformation for Valley View Ranch LLC's 2021 ECP Cost Share Request in the amount of \$3,850.

Discussion/Facts:

- Valley View Ranch LLC submitted an ECP application on May 19, 2025, requesting 1400 feet of Permanent Fencing, Restoration
- Incorrect Expiration Date. The original approval established a practice expiration date of 12 months from the FSA-848A approval date, rather than the required 6 months as required by 1-ECP (Rev. 6) Paragraph 136A.
- Improper Extension Approvals. Two extensions were approved by the County Committee (COC) without review, approval, or concurrence from the District Director (DD), State Committee (STC), or ECP Program Manager (ECP-PM), as required by 1-ECP (Rev. 6) Paragraph 136B.
- Exceeded Completion Window. The total timeframe for completing the practice exceeded the 18- month limit outlined in 1-ECP (Rev. 6) Paragraph 136B.

After reviewing the applicable policies and supporting documentation (Exhibit 1), the STC determined that the case meets the criteria for Equitable Relief under Misaction/misinformation and is within the STC authority. Steve Raftopoulos moved to approve equitable relief under Misaction/misinformation on Valley View Ranch LLC's 2021 ECP Cost Share Request in the amount of \$3,850. Darrell Mackey seconded the motion. Motion passed.

B Cost Share Review

Hunter Cleveland, Farm Program Specialist, presented the STC with the case file (Exhibit 2) to review and make a determination on proposed alternative cost share rate for EC3-Multi Strand Barbed or Smooth Wire – Difficult Terrain, Multi-Strand Replace and determine if this price is reflective of the actual cost of fence replacement in the area.

In accordance with policy listed in 1-ECP (Rev.8) paragraph 179B, the state committee will conduct a review of cost share rate EC3-Multi Strand Barbed or Smooth Wire—Difficult Terrain and determine reasonability of this rate. If the state committee feels that this rate is not reasonable, the state committee shall determine an alternative rate to propose to ECP-PM for consideration.

After reviewing the applicable policies and supporting documentation (Exhibit 2), the Colorado STC determined that the Cost Share Rate of \$4.04 set for ECP Cost Share Practice EC3-Barbed or Smooth Wire for Difficult Terrain, Multi-Strand Replace was not an accurate reflection of actual cost for the State of Colorado.

Steve Raftopoulos moved to request a Cost Share Review from the ECP-Program Manager as outlined in ECP-1 (Rev. 8) paragraph 179B and allow the STC to suggest a increased \$/foot cost share rate to DAFP for ECP practice EC3-Barbed or Smooth Wire for Difficult Terrain, Multi-Strand Replace. Kyle McConnell seconded the motion. Motion passed.

3. Noninsured Crop Disaster Assistance Program (NAP)

A 2026 – Crop Table Review

1) Millet

Janae Rader, Farm Program Specialist, presented the STC with the following information in Exhibit 3 to review and make a determination on County Expected Yield (CEY) and Average Market Price (AMP) on Millet as recommended in the table below.

Intended Use Key: CB=cannabidiol, DE= dry edible, FB=fiber, FG=forage, FH=fresh, GR=grain, NT=non-table, OL=oil, PR=processed, SD=seed, SG=silage, SO=sod, TB=table

After reviewing the applicable policies and supporting documentation (Exhibit 7), the STC requested additional information pertaining to the data provided for watermelons with the intended use of seed (SD).

Steve Raftopoulos moved to table the County Expected Yield (CEY) and Average Market Price (AMP) on watermelons until the next meeting when the requested additional information is presented. Kyle McConnell seconded the motion. Motion passed.

4. Supplemental Disaster Relief Program (SDRP)

A 2024 Ad Hoc NCT Pueblo Honey Tb

Janae Rader, Farm Program Specialist, presented the STC with the following information in Exhibit 8 to review and make a determination on historical yields, historical prices, County Expected Yield (CEY), Average Market Price (AMP) on Honey Tb for program year 2024 as recommended in the record summary page below and to be used for SDRP purposes only.

1-SDRP Draft Par 104 NCT Crop Data states that AdHoc Approval flags may be set and the following NCT data established for any NAP crop not previously approved in the NCT:

- unharvested payment factor
- prevented planted factors
- county expected yields (including historical yields) as applicable
- average market price (including historical yields)
- county disaster yield.

The requirement to establish a new crop record on the NCT 120 days before the NAP application closing date is waived for SDRP purposes.

The CEY should reflect the average production potential for a crop by county, by practice and intended use. STC should ensure that the yield information is comparable with previously approved yields and justify any deviations.

The AMP must reflect the in-field harvest price, and cannot include the costs associated with transportation, packaging, etc. STC should ensure that established average market prices are comparable with established FCIC prices in the State or surrounding States and that the established average market prices are using consistent data sources and/or are comparable

with previously approved average market prices in the State or in surrounding States. The process used for establishing the AMP is also applicable when establishing direct and organic market prices.

2024 STO recommended yield for Pueblo Honey Tb – for SDRP

After reviewing the applicable policies and supporting documentation (Exhibit 8), Kyle McConnell moved to approve the proposed historical yields, historical prices, County Expected Yield (CEY) and Average Market Price (AMP) on Honey TB as presented in record summary page image above for 2024 and for SDRP purposes only. Steve Raftopoulos seconded the motion. Motion passed.

5. Emergency Commodity Assistance Program (ECAP)

A 321 Equitable Relief – Misaction/Misinformation or Programmatic Relief – Bent – Loyal and Ilene Stephens Revocable Trust

Julie Sporhase, Farm Program Specialist, presented the STC with the case file (Exhibit 9) to review and make a determination on the Bent COC request to approve Equitable Relief under Misaction/Misinformation for Loyal and Ilene Stephens Revocable Trust's 2024 ECAP application in the amount of \$3,803.74.

Discussion/Facts:

- Producer submitted a 2024 ECAP application according to 1-ECAP policy and believed all required documentation was filed timely prior to the August 15, 2025, deadline.
- Corrections required by Notice ECAP-2 were not completed timely by the county office and a new producer signature was not obtained by the COF by the August 15, 2025, deadline.
- Equitable Relief – Misaction/Misinformation standards have been met
 1. Participant demonstrated a good faith effort and complied with program deadlines for both the application and payment eligibility provisions
 2. Participant relied on information provided by the COF that a valid ECAP application was timely filed, participant did not have reason to question the validity of that information
 3. CED discovered the COF failed to update and obtain signature on the ECAP application as instructed after the program deadline
 4. After reviewing the updated application, it was noted the producer would be eligible for additional payment due to the updates made according to Notice ECAP-2
 5. participant meets all applicant eligibility including foreign person regulations, maintaining risk and control of an eligible commodity and acreage reporting provisions

\$3,803.74 is within the STC authority of \$5000.00, STC can make a decision on the Equitable Relief under Misaction/Misinformation request.

After reviewing the applicable policies and supporting documentation (Exhibit 9), the STC determined that the case meets the criteria for Equitable Relief under Misaction/misinformation and is within the STC authority. Steve Raftopoulos moved to approve equitable relief under Misaction/misinformation on Loyal and Ilene Stephens 2024 ECAP application in the amount of \$3,803.74. Kyle McConnell seconded the motion. Motion passed.

6. Adjournment

There being no further business, the Executive Session was adjourned at 2:45 p.m. The next meeting is scheduled for March 24, 2026 in person at the Colorado State office in Denver.

Executive Session

Emergency Conservation Reserve Program (ECP)

Equitable Relief – Misaction/Misinformation

Montezuma – Valley View Ranch LLC

State Committee Discussion Record**Program:** Emergency Conservation Program (ECP)**Date:** 02/10/2026**Staff Member Presenting:** Hunter A. Cleveland**Matter for Consideration:**

Review the request for relief submitted by the Montezuma County Committee for the Misaction/Misinformation on the ECP application for Valley View Ranch LLC.

Action Requested:

State Committee will review documentation submitted by the Montezuma County Committee, along with the applicable policies, and determine whether or not to grant equitable relief to Valley View Ranch LLC and issue payment on their ECP application.

STC Recommended Action:

In review of this matter, it was determined that the County Office acted in error when processing the ECP application for Valley View Ranch LLC. Due to this, it is recommended that the Colorado STC grant Equitable Relief to Valley View Ranch LLC and allow payment to be issued to Valley View Ranch LLC.

Background:

In 2020, the ECP was implemented in response to the 2020 East Canyon Fire in Montezuma County.

Valley View Ranch LLC submitted an ECP application on May 19, 2025, requesting 1400 feet of Permanent Fencing, Restoration.

The Montezuma CED issued an approval of this ECP application on August 22, 2023, assigning a practice completion date of August 22, 2024.

On August 6, 2024, Valley View Ranch LLC submitted a request to extend the practice completion date for the Permanent Fencing, Restoration.

The Montezuma County Committee reviewed and approved this request on September 17, 2024, extending the practice completion date to February 22, 2025.

Valley View Ranch LLC requested a request to extend the practice completion date for the Permanent Fencing, Restoration using the same written request submitted on August 22, 2024.

The Montezuma County Committee reviewed and approved this request on February 17, 2025, extending the practice completion date to August 22, 2025.

Valley View Ranch LLC submitted invoices and certified completion of the Permanent Fencing, Restoration on August 22, 2025.

The Montezuma CED conducted a performance certification of the Permanent Fencing, Restoration on September 16, 2025, certifying that the practice met the required standards and specifications.

The Montezuma CED prepared the documentation for the district director review that is required prior to payment.

Upon review of this documentation, the Montezuma CED notated the following misactions that occurred in part by the Montezuma FSA Office:

- **Incorrect Expiration Date**

The original approval established a practice expiration date of 12 months from the FSA-848A approval date, rather than the required 6 months as required by 1-ECP (Rev. 6) Paragraph 136A.

- **Improper Extension Approvals**

Two extensions were approved by the County Committee (COC) without review, approval, or concurrence from the District Director (DD), State Committee (STC), or ECP Program Manager (ECP-PM), as required by 1-ECP (Rev. 6) Paragraph 136B.

- **Exceeded Completion Window**

The total timeframe for completing the practice exceeded the 18- month limit outlined in 1-ECP (Rev. 6) Paragraph 136B.

On December 9, 2025, the Montezuma County Committee reviewed this matter, as well as all applicable policy, and acted to recommend relief be granted to Valley View Ranch LLC due to Misaction/Misinformation by the Montezuma County FSA Office. Additionally, the Montezuma County Committee is recommending that payment be issued on the application in the sum of \$3,850.00.

This form is available electronically.

SUBJECT: 2020 ECP Mis-action Misinformation Request for Relief

DATE: December 31, 2025

TO: STO-Committee, Hunter Cleveland Specialist
Colorado State FSA Committee
Jerry Sonnenberg, SED

FROM: Kacey Riedel County Executive Director *Kacey Riedel*
on behalf of the Montezuma County Committee

Background

Valley View Ranch LLC submitted an Emergency Conservation Program (ECP) application following the 2020 East Canyon Fire. The application was funded in 2023. During documentation review for District Director (DD) oversight, several compliance issues were identified:

1. Incorrect Expiration Date

The original approval established a practice expiration date of 12 months from the FSA-848A approval date, rather than the required 6 months per program policy.

2. Improper Extension Approvals

Two extensions were approved by the County Committee (COC) without review, approval, or concurrence from the District Director (DD), State Committee (STC), or ECP Program Manager (ECP-PM), as required.

3. Exceeded Completion Window

The total timeframe for completing the practice exceeded the 18-month limit outlined in policy.

Policy References

- **1-ECP (Rev. 6) Amend. 1, Paragraph 136A:**
“COC must establish realistic expiration dates of no more than 6

USDA is an equal opportunity provider, employer, and lender.

months from the FSA-848A approval date for completing approved practices.”

- **1-ECP (Rev. 6) Amend. 1, Paragraph 136B:**

“Extensions may be granted if requested by the producer in writing before the expiration date, evaluated by COC, and forwarded to the STC-delegated representative. Requests must be documented and approved by the STC or DD when delegated by STC. The STC representative may approve one 6-month extension; a second 6-month extension may be approved by the STC. Any request beyond 18 months must be submitted to ECP-PM.”

Producer Compliance

The producer adhered to all program requirements by:

- Submitting a cost-share request.
- Requesting extensions in writing prior to expiration dates.
- Completing the practice and providing receipts and documentation as required.

Relief Request

Due to mis-action and misinformation at the county level, the Montezuma COC determined that the producer should remain eligible for payment on the ECP application. The committee requests relief be granted for a total payment of **\$3,850** to the producer.

1. ADMINISTRATIVE

a. **Call to Order-** The Executive Session was called to order.

2. EMERGENCY CONSERVATION PROGRAM

a. 2020 East Canyon Fire

1. Valley View Ranch LLC

a. Summary of Findings:

Valley View Ranch LLC submitted an Emergency Conservation Program (ECP) application following the 2020 East Canyon Fire. The application was funded in 2023. Upon review, several compliance issues were identified:

1. Incorrect Expiration Date:

The original approval established a practice expiration date of 12 months from the FSA-848A approval date, rather than the required 6 months as outlined in ECP policy.

2. Improper Extension Approvals:

Two extensions were approved by the County Committee (COC) without review, approval, or concurrence from the District Director (DD), State Committee (STC), or ECP Program Manager (ECP-PM), as required by program guidelines.

3. Exceeded Completion Window:

The total timeframe for completing the practice exceeded the 18-month limit established by policy.

b. Policy References:

1. *1-ECP (Rev. 6) Amend. 1, Paragraph 136A:*

“COC must establish realistic expiration dates of no more than 6 months from the FSA-848A approval date for completing approved practices.”

Montezuma County Committee Action Between Meetings – December 9, 2025

2. Paragraph 136B:

“Extensions may be granted if requested by the producer in writing before the expiration date, evaluated by COC, and forwarded to the STC-delegated representative. Requests must be documented and approved by the STC or DD when delegated by STC. The STC representative may approve one 6-month extension; a second 6-month extension may be approved by the STC. Any request beyond 18 months must be submitted to ECP-PM.”

a. Producer Compliance:

The producer adhered to program requirements by:

1. Submitting a cost-share request.
2. Requesting extensions in writing prior to expiration dates.
3. Completing the practice and providing receipts and documentation as required.

b. Conclusion:

Errors occurred in setting the initial expiration date, processing extensions without proper authority, and exceeding the allowable completion window. These issues were identified during documentation review for DD oversight. Due to mis-action and misinformation at the county level, the Montezuma COC determined that the producer should remain eligible for payment on the ECP application. The committee requests relief be granted for a total payment of **\$3,850** to the producer.

Subject: 2020 ECP Montezuma COC Action between meetings
Attachments: FSA0321_180220V03.pdf

Hey Montezuma COC,

Since we are not meeting until February 3rd, I have an action between meeting item for you to review. **I have attached the action for relief request a COC member will need to come by next week to sign the attached form.**

Valley View Ranch 2020 ECP cost share request.

Valley View Ranch LLC submitted an ECP application following the 2020 East Canyon fire. The ECP was funded in 2023. Based on the original approval date the expiration date was improperly set 12 months out instead of 6 months. In addition, there were two extensions approved by the COC without DD/STC/ECP-PM review, approval, or concurrence. The producer properly requested cost-share, requested extensions in writing when the practice expiration date neared, and provided receipts and documentation once the practice was complete. The Montezuma COC reviewed each request for extension and approved them each time. Upon gathering and reviewing documentation for DD review these errors were discovered.

1-ECP(Rev. 6) Amend.1 Paragraph 136 A states "COC must establish realistic expiration dates of no more than 6 months from the FSA-848A approval date for completing approved practices." Paragraph 136B states "extensions may be granted if requested by producer in writing before the expiration date, will be evaluated by COC and request recommendation forwarded to the STC-delegated representative, must be documented and approved by the STC or DD when delegated by STC." The STC representative can approve one 6-month extension, and a second 6-month extension can be approved by the STC. Anything beyond 18 months must be submitted to ECP-PM.

The date from approval was set out 12 months instead of 6 months, the extensions were not properly affirmed by the proper channels, and the 18-month window to complete the practice was exceeded. The producer properly requested the cost share, completed the practice, timely requested extensions, and provided the requested documentation.

If I do not receive any decent by end of the day Friday, I will take it as the Montezuma COC determines the producer should be eligible for the payment on the ECP application and requests relief be granted through means of mis-action misinformation for a total \$3,850 in payment to the producer.

Best,

Kacey Riedel
 County Executive Director
 Montezuma County FSA Office
 Dolores/San Miguel County FSA Office

This form is available electronically.

Form Approved - OMB No. 0560-0082

FSA-848 (09-10-2015)	U.S. DEPARTMENT OF AGRICULTURE Farm Service Agency COST-SHARE REQUEST
THIS REQUEST is submitted by the undersigned owners, operators, tenants, and/or producers (who individually may be referred to as "the Applicant"). By signing this form, the Applicant agrees to the following: 1) the Applicant is requesting cost-share assistance to perform a practice(s) designed to meet the objectives of the program referenced in Box 4; 2) the Applicant agrees that this practice(s) would not be performed without Federal cost-sharing; and, 3) if cost-sharing is approved for the practice(s) requested, the Applicant agrees to refund all or part of the funds paid to him/her, as determined by the Approving Official, if, before expiration of the lifespan of the specified practice(s), the Applicant (a) destroys the approved practice(s), or (b) voluntarily relinquishes control of or title to, the land on which the approved practice(s) has been established, and the new owner and/or operator of the land does not agree in writing to properly maintain the practice(s) for the remainder of its lifespan. The Applicant further agrees that if he or she begins the practice(s) before receiving written approval, he or she may be denied cost-share funding. Further, the Applicant hereby authorizes a representative of USDA to have access to the practice site area(s). Further, the applicant understands that form FSA-848-1 is by reference incorporated herein. BY SIGNING THIS APPLICATION, THE APPLICANT ACKNOWLEDGES RECEIPT OF THE FOLLOWING FORMS: FSA-848 AND ANY ADDENDUM THERETO.	
1. ST. & CO. Code : 08 083

FSA-848 (09-10-2015)	U.S. DEPARTMENT OF AGRICULTURE Farm Service Agency COST-SHARE REQUEST	RECEIVED MAY 19 2021 MONTEZUMA FSA	1. ST. & CO. Code : 08 083 2. County Office Name, Address and Telephone Number MONTEZUMA COUNTY FARM SERVICE AGENCY 628 WEST 5TH ST CORTEZ, CO 81321-3458 (970) 565-9045 x2
THIS REQUEST is submitted by the undersigned owners, operators, tenants, and/or producers (who individually may be referred to as "the Applicant"). By signing this form, the Applicant agrees to the following: 1) the Applicant is requesting cost-share assistance to perform a practice(s) designed to meet the objectives of the program referenced in Box 4; 2) the Applicant agrees that this practice(s) would not be performed without Federal cost-sharing; and, 3) if cost-sharing is approved for the practice(s) requested, the Applicant agrees to refund all or part of the funds paid to him/her, as determined by the Approving Official, if, before expiration of the lifespan of the specified practice(s), the Applicant (a) destroys the approved practice(s), or (b) voluntarily relinquishes control of or title to, the land on which the approved practice(s) has been established, and the new owner and/or operator of the land does not agree in writing to properly maintain the practice(s) for the remainder of its lifespan. The Applicant further agrees that if he or she begins the practice(s) before receiving written approval, he or she may be denied cost-share funding. Further, the Applicant hereby authorizes a representative of USDA to have access to the practice site area(s). Further, the applicant understands that form FSA-848-1 is by reference incorporated herein. BY SIGNING THIS APPLICATION, THE APPLICANT ACKNOWLEDGES RECEIPT OF THE FOLLOWING FORMS: FSA-848 AND ANY ADDENDUM THERETO.			3. Application Number 08_083_2021_0008 4. Program Code ECP 5. NOTE: The following statement is made in accordance with the Privacy Act of 1974 (5 USC 552a - as amended). The authority for requesting the information identified on this form is 7 CFR Part 701, 7 CFR Part 1410, and the Food, Conservation, and Energy Act of 2008 (Pub. L. 110-246). The information will be used to determine eligibility for program benefits. The information collected on this form may be disclosed to other Federal, State, Local government agencies, Tribal agencies, and nongovernmental entities that have been authorized access to the information by statute or regulation and/or as described in applicable Routine Uses identified in the System of Records Notice for USDA/FSA-2, Farm Records File (Automated). Providing the requested information is voluntary. However, failure to furnish the requested information will result in a determination of ineligibility for program benefits. According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0560-0082. The time required to complete this information collection is estimated to average 4 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. RETURN THIS COMPLETED FORM TO YOUR COUNTY FSA OFFICE. By signing this form, the Applicant acknowledges and understands that any false representation or claims are subject to civil and criminal penalties including, but not limited to those under 18 U.S.C. 1001.							

The U.S. Department of Agriculture (USDA) prohibits discrimination in all of its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, political beliefs, genetic information, reprisal, or because all or part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD). To file a complaint of discrimination, write to USDA, Assistant Secretary for Civil Rights, 1400 Independence Avenue, S.W., Stop 9410, Washington, DC 20250-9410, or call toll-free at (866) 632-9992 (English) or (800) 877-8339 (TDD) or (866) 377-8642 (English Federal-relay) or (800) 845-6136 (Spanish Federal-relay). USDA is an equal opportunity provider, employer, and lender.

COST-SHARE PERFORMANCE CERTIFICATION AND PAYMENT

(See Page 3 for Privacy Act and Burden Statements.)

THIS CERTIFICATION AND REQUEST FOR PAYMENT is submitted by the undersigned owners, operators, tenants, and/or producers (who individually will herein be referred to as "the Participant"). By signing this form, the Participant agrees to the following: 1) the Participant requested cost-share assistance to perform practice(s) designed to meet the objectives of the program referenced on FSA-848; 2) the Participant agrees that this practice(s) would not be performed without Federal cost-sharing; and, 3) for the practice(s) approved, the Participant agrees to refund all or part of the funds paid to him/her, as determined appropriate by the Approving Official, if, before expiration of the lifespan of the specified practice(s), the Participant (a) destroys the approved practice(s), or (b) voluntarily relinquishes control of or title to, the land on which the approved practice(s) has been established, and the new owner and/or operator of the land does not agree in writing to properly maintain the practice(s) for the remainder of its life span. The Participant further agrees that if he or she began the practice(s) before receiving written approval, he or she may be denied cost-share funding. Further, the Participant hereby authorizes a representative of USDA to have access to the practice site area(s). Further, the participant understands that form FSA-848B-1 is by reference incorporated herein. BY SIGNING THIS CERTIFICATION, THE PARTICIPANT ACKNOWLEDGES RECEIPT OF THE FOLLOWING FORMS: FSA-848B AND ANY ADDENDUM THERETO.

NOTE: To receive payment or credit for any cost-shares earned on these practice(s), report performance below, by completing Items 9 and 10, and file with the issuing FSA county office by the practice expiration date(s) listed on the FSA-848A.

INSTRUCTIONS TO PARTICIPANT To receive payment or credit for any cost-shares earned on this agreement, report performance on page 1, and file with the issuing FSA county office by the practice expiration date.

10. CERTIFICATION BY PARTICIPANT I certify that the above information is true and correct. I further certify that the entry(ies) in Item 9G show that the practice(s) was performed in accordance with the practice specifications and other requirements. If Item 9G indicates that the practice is not complete, I request cost-share for the completed components shown in Item 9K. I agree to complete the remaining components approved on the FSA-848A, for this practice(s), by the practice expiration date, regardless of whether or not cost-share assistance is approved. I agree to refund any cost-share assistance paid to me under this practice(s), if I fail to complete it. I hereby apply for payment to the extent that the Approving Official has determined that the practice has been performed and further certify that this payment is not a duplicate of any other earned by me. I agree to maintain and use the practice(s) for the minimum maintenance period established for the practice(s). I agree to refund all or part of the cost-share assistance paid to me, as determined by the Approving Official, if before expiration of the practice lifespan specified above, (a) I destroy the practice installed, or (b) voluntarily relinquish control or title to the land on which the installed practice(s) have been established and the new owner and/or operator of the land does not agree in writing to properly maintain the practice(s) for the remainder of these lifespan. I understand that FSA-848 and FSA-848A and any addendum thereto are by reference incorporated herein and with this form constitutes the entire agreement between the parties.

A(1) Did you and the other participants on this agreement bear all the expense (except for program cost sharing) for performing this practice?

☒ YES☐ NO

A(2) If "NO", report name(s) and addresses of other person(s) or agency who bore any part of the expenses. Also, show kind, extent and value of their contribution.

B(1) During the current fiscal year Oct. 1 - Sep. 30, have you received or will you or any participant on this agreement receive a cost-share payment under the same program on this or any other farm other than through this FSA-848B?

☐ YES☒ NO

B(2) If "YES", report State, County, and amount by farm.

In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, disability, age, marital status, family status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident. Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotape, American Sign Language, etc.) should contact the State or local Agency that administers the program or contact USDA through the Telecommunications Relay Service (711) (voice and TTY). Additionally, program information may be made available in languages other than English.

To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD-3027, found online at <https://www.usda.gov/bascr/how-to-file-a-program-discrimination-complaint> and at any USDA office or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by: (1) mail, U.S. Department of Agriculture, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue, SW, Mail Stop 9410, Washington, D.C. 20250-9410; (2) fax: (202) 690-7442; or (3) email: program.intake@usda.gov. USDA is an equal opportunity provider, employer, and lender.

COST-SHARE AGREEMENT

(See Page 2 for Privacy Act and Burden Statements)

THIS AGREEMENT is entered into between the Farm Service Agency (referred to as "FSA") and the undersigned owners, operators, tenants, and/or producers (who individually will herein be referred to as "the Participant"). By signing this form, the Participant agrees to the following:
(1) the Participant requested cost-share assistance to perform a practice(s) designed to meet the objectives of the program referenced on FSA-848; (2) the Participant agrees that this practice(s) would not be performed without Federal cost-sharing; and, (3) for the practice(s) approved, the Participant agrees to refund all or part the funds paid to him/her, as determined by the Approving Official, if, before expiration of the lifespan of the specified practice(s), the Participant (a) destroys the approved practice(s), or (b) voluntarily relinquishes control of or title to, the land on which the approved practice(s) has been established, and the new owner and/or operator of the land does not agree in writing to properly maintain the practice(s) for the remainder of its life span. The Participant further agrees that if he or she began the practice(s) before receiving written approval, he or she may be denied cost-share funding. Further, the Participant hereby authorizes a representative of USDA to have access to the practice site area(s). Further, the participant understands that form FSA-848A-1 is by reference incorporated herein. BY SIGNING THIS AGREEMENT, THE PARTICIPANT ACKNOWLEDGES RECEIPT OF THE FOLLOWING FORMS: FSA-848A AND ANY ADDENDUM

1. ST, & CO. Code : 08 083

2. County Office Name, Address and Telephone Number

12. PARTICIPANT APPROVAL ACKNOWLEDGEMENT

Your request for program cost-sharing to perform the practice(s) shown above is approved for the farm(s) identified above. By signing below, you agree to complete the specified practice(s) and components on or before the practice expiration date(s). To receive payment or credit for any cost-shares earned on these practice(s), report performance on the FSA-848B and file with the issuing office by the practice expiration date(s) listed above. If you decide not to perform this practice, or if you cannot complete it by the practice expiration date, please notify the Approving Official's office in writing at once.

MONTEZUMA, FSA

NOTE: The following statement is made in accordance with the Privacy Act of 1974 (5 USC 552a - as amended). The authority for requesting the information identified on this form is 7 CFR Part 701, 7 CFR Part 1410, and the Food, Conservation, and Energy Act of 2008 (Pub. L. 110-246). The information will be used to determine eligibility for program benefits. The information collected on this form may be disclosed to other Federal, State, Local government agencies, Tribal agencies, and nongovernmental entities that have been authorized access to the information by statute or regulation and/or as described in applicable Routine Uses identified in the System of Records Notice for USDA/FSA-2, Farm Records File (Automated). Providing the requested information is voluntary. However, failure to furnish the requested information will result in a determination of ineligibility for program benefits.

According to the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0560-0082. The time required to complete this information collection is estimated to average 3 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. RETURN THIS COMPLETED FORM TO YOUR COUNTY FSA OFFICE.

By signing this form, the Participant acknowledges and understands that any false representation or claims are subject to civil and criminal penalties including, but not limited to those under 18 U.S.C. 1001.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all of its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, political beliefs, genetic information, reprisal, or because all or part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotype, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD). To file a complaint or discrimination, write to USDA, Assistant Secretary for Civil Rights, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue, S.W., Stop 9410, Washington, DC 20250-9410, or call toll-free at (866) 632-9992 (English) or (800) 877-8339 (TDD) or (866) 377-8642 (English Federal-relay) or (800) 845-6136 (Spanish Federal-relay). USDA is an equal opportunity provider, employer, and lender.

Aug 6, 2024

Montezuma County Committee

We are requesting an extension of time to complete fencing project on the "East Canyon" fire area. Fencing material has been purchased, clearing of burned debris is still in process, however because of difficult terrain this has put us behind in completing the fence project.

Your consideration for an extension period will be greatly appreciated

Valley View Ranch, LLC

by E. Karen Patchek, operating manager

Extension Request Approved COC Brian Wilson

Component: Fencing (Difficult Terrain)

THIS PRACTICE APPROVAL EXPIRES ON THE EXPIRATION DATE LISTED ABOVE.

If you have completed this practice and desire cost-sharing, you must file your performance report and application for payment with this office. Follow the instructions on Form FSA-848A furnished to you earlier for this practice. A copy of the FSA-848A is available from this office.

If you have not completed this practice and need more time to do so, you should contact this office at once.

If we do not hear from you by the expiration date of this practice, the cost-share approval will be canceled.

FSA-850A U.S. DEPARTMENT OF AGRICULTURE (09-14-20) Farm Service Agency ENVIRONMENTAL SCREENING WORKSHEET	1. GENERAL INFORMATION 1A. Producer or Applicant Name Programmatic FSA-850 (P-850) to assist producers impacted by wildfires for the following programs: D-FO, D-OL, EM, ECP, EFRP, FSFL, and TAP 1B. State & County Code All counties in Arizona, California, Colorado, Idaho, Montana, Nevada, Oregon, Utah, Washington and Wyoming
1C. Location of Proposed Action This P-850 covers those western states with either more than 50% of their counties with wildfires or that are contiguous to such a state and have active fires as of 9/16/2020: Arizona, California, Colorado, Idaho, Montana, Nevada, Oregon, Utah, Washington, and Wyoming. This P-850 covers the following programs: D-FO, D-OL, EM, ECP, EFRP, FSFL, and TAP.	
2A. BACKGROUND (1) FSA's proposed action is: To implement the programs listed below and in Item 13/Comments for producers who suffered losses as a result of wildfires in the above-named states from July 2020 through December 2020. This programmatic response is to streamline the environmental compliance reviews for FSA actions that have low potential to impact protected resources for the following programs, and contingent upon the conditions defined in Item 13/Comments being met. <u>Direct Farm Ownership Loans (D-FO)</u> accommodate repairs and enhancements, in addition to farm purchases. <u>Direct Operating Loans (D-OL)</u> are generally used for normal operating expenses, repairs, and purchases. <u>Emergency Loan Program (EM)</u> provides emergency loans to help producers recover from production and physical losses due to drought, flooding, other natural disasters, or quarantine. <u>Emergency Conservation Program (ECP)</u> provides emergency funding and technical assistance to farmers and ranchers to rehabilitate farmland and conservation structures damaged by natural disasters and implement emergency water conservation measures in periods of severe drought. <u>Emergency Forest Restoration Program (EFRP)</u> provides payments to eligible owners of nonindustrial private forest (NIPF) land in order to carry out emergency measures to restore land damaged by a natural disaster. Note: For ECP/EFRP, this P-850 is specifically for surface debris removal, permanent fence restoration, and replanting actions, and can only be approved if the conditions listed in item 13/Comments are met. <u>Farm Storage Facility Loan Program (FSFL)</u> provides low-interest financing for producers to store, handle, and/or transport eligible commodities they produce. <u>Tree Assistance Program (TAP)</u> provides financial assistance to eligible orchardists and nursery tree growers to replant or rehabilitate eligible trees, bushes, and vines lost by natural disasters.	
(2) Describe the site and its present use: All the above programs generally occur on existing farms. By virtue of this location and the requirements for use of this P-850, the soil is previously disturbed and trees will not be removed (unless hazards). Because of these features, impacts to protected resources are not expected. As this review is being done programmatically, use of this P-850 is subject to the conditions presented below under Item 13/Comments. If those conditions are met, no site-specific FSA-850 reviews will be needed.	
(3) Describe the surrounding land uses; indicate the directions and approximate distances involved. The extent of the surrounding land to be considered depends on the extent of the potential impacts of the project and its related activities: As this review is being done programmatically, use of this P-850 is subject to the conditions presented below in Item 13/Comments. If those conditions are met, no separate, site-specific FSA-850s will be needed for actions in these programs associated with these wildfires.	
(4) Will the action involve ground disturbance below the previous level of disturbance or change in land use? This P-850 only covers actions that either have no ground disturbance or ground disturbance that is not below the previous level of disturbance. Thus, in some situations, the removal of tree roots will not be covered by this P-850 and a separate, site-specific FSA-850 would need to be completed for those actions. For all actions covered by this P-850, the land will remain in agricultural use; assembly and replacement of farm structures, and the removal of storm damage and debris are not considered changes in land use.	

(5) Has another Federal Agency already completed an environmental evaluation for this specific action? N/A		
2B. LISTED CATEX's (1) Do any of the "L" CATEX's fully cover the proposed action? If "YES", record the assigned code for the applicable "L" Categorical Exclusion: (2) Are there extraordinary circumstances, as listed in 1-EQ Paragraph 25, triggered?	YES	NO
	☒	☐
	L-2 "Repair, improvement, or minor modifications not exceeding depth of previous tillage..." L-4 "Planting actions not exceeding depth of previous tillage..." L-5 "Management actions not exceeding depth of previous tillage..." L-6D "Individual farm participation in FSA programs where no ground disturbance or change in land use occurs as a result of the action..."	
	☐	☒
IF ITEM 2B1 IS ANSWERED 'YES', AND ITEM 2B2 IS ANSWERED "NO", PROCEED TO ITEM 16.		
2C. SUPPORTED CATEX's Do any of the "S" CATEX's fully cover the proposed action? <i>(If operation is a medium or large CAFOs see Instructions)</i> If "YES", record the assigned code for the applicable "S" Categorical Exclusion:	YES	NO
	☐	☐
3. REQUIRED REVIEW 3A. Date of Site Visit:		
For the below listed land uses or environmental resources, check the box as appropriate in Column (1) to the right to indicate the resources that are present on the site(s) of the proposed action or within the action's area of environmental impact, such as the areas adjacent to the proposed site(s). Check the box as appropriate in Column (2) to the right to indicate land uses and environmental resources which may potentially be adversely impacted.	(1) Check if the resource is located within the area of potential effect	(2) Is there potential to adversely impact the resource?
3B. Listed Endangered and Threatened Species or critical habitat. Attach IPaC map to this form. If any box is checked, then consult with the U.S. Fish and Wildlife and/or National Marine Fisheries Service, as applicable, to ensure that the proposed action is not likely to adversely affect a listed species or destroy or modify its "critical habitat" in accordance with the Endangered Species Act.	☐	☐

	(1) Check if the resource is located within the area of potential effect	(2) Is there potential to adversely impact the resource?
3C. Cultural Resources (Section 106 Compliance) Is the action one that may impact a Cultural Resource per 1-EQ Subparagraph 43 A? YES ☐ NO ☐ If "YES", complete the check boxes in Column (1) & (2) to the right and attach the following: (1) Consultation with known cultural resources (check National Register, State archaeological site files, and owner discussions) (2) Consultation with SHPO, THPO and/or Indian Tribes, as appropriate, to determine if further consultation required (needed identification surveys)	☐	☐
3D. Coastal Barrier in Coastal Barrier Resources System	☐	☐
3E. Approved Coastal Zone Management Area	☐	☐
3F. Wilderness	☐	☐
3G. Wild and Scenic River, or listed on the National Rivers Inventory	☐	☐
3H. National Natural Landmark	☐	☐
3I. Sole Source Aquifer Recharge Area (Designated by Environmental Protection Agency)	☐	☐
3J. Floodplains – Flood Map Panel # _____ For actions with disturbances or activities to occur within a floodplain, attach applicable floodplain development permit, elevation surveys, and maps, if available.	☐	☐
3K. Wetlands (1) Does the proposed action involve ground disturbance, livestock or nutrient waste, or have other potential to adversely impact a wetland? If "YES", proceed to Item 3K(2) below. If "NO" proceed to Item 3L. (2) Is there a NRCS CPA-026e, United States Army Corps of Engineers, and/or State wetland determination on file or available based on the current AD-1026? If "YES", attach determination (including any USACE or State permits). If "NO", and a determination is not available, attach completed FSA-858.	YES	NO
	☐	☐
3. REQUIRED REVIEW CONT. 3L. SOILS (& HEL) (1) Is there Highly Erodible Land present on the farm property? If "YES", attach Producer Farm Data Report, Producer Subsidiary Screen print and/or NRCS CPA-026e. (2) Is there potential to adversely impact previously undisturbed soil? [Ground disturbance below the "plow zone" or previously disturbed area(s)] If "YES", see Items required under Item 4A and 4B.	☐	☐

11. CUMULATIVE IMPACTS Are there any cumulative impacts resulting from the proposed action? If "YES", attach a discussion of the cumulative impacts of this action and the related activities. Give particular attention to land use changes and air and water quality impacts.	YES ☐	NO ☐
12. ALTERNATIVE AND MITIGATION A. Did the plan, as submitted, include alternatives and/or mitigation? B. Will alternative or other mitigation measures have to be considered? If "YES", to either question, attach a discussion of the feasibility of alternatives and or any measures which will be required to avoid or mitigate the action and their environmental impacts.	☐ ☐	☐ ☐
13. COMMENTS – Attached additional pages as needed. <u>Conditions Required for Use of This P-850</u> This Programmatic FSA-850 (P-850) is limited to the impacts and damage resulting from wildfires from July 2020 to December 2020, in the 10 western states defined above (1C), and is only available for use by these programs: D-FO, D-OL, EM, ECP, EFRP, FSFL, and TAP. <u>This P-850 cannot be utilized if the action proposed in an application would:</u> 1. Disturb ground to a level that has not been previously disturbed, remove trees or tree roots, or use mechanical means to remove damaged fencing that will impact below level of previous disturbance. 2. Place a farm storage or other facility on a farm eligible for or listed on the National Register of Historic places and that would have a visual impact to the historic character of the farm. 3. Involve an activity including new land clearing, impacts to any water body, wetland, floodplain, riparian buffer, or threatened/endangered species or habitat. 4. Result in any extraordinary circumstances in accordance with Handbook 1-EQ (rev. 3), Par. 25. 5. Involve FSA actions or programs that are not specified in this P-850 and/or for which an individual site-specific FSA-850 or Environmental Assessment (e.g., loan for new large CAFO) is required. If "yes" is answered to any of the above questions this P-850 cannot be utilized and a separate site-specific FSA-850 or environmental assessment must be completed for that FSFL application. If 1, 2, or 3 are answered "yes", a separate, site-specific FSA-850 is required; associated requests for consultations from regulators on that action should request expedited service due to the immediate need faced by producers. If 3 is answered "yes", a separate, site-specific FSA-850 is required; contact the FPAC NEPA Coordinator for guidance. If 4 is answered "yes", then a separate and more detailed analysis will be required. If 5 is answered "yes", a separate, site-specific FSA-850 or Environmental Assessment is required; the action or program with the higher level of environmental compliance dictates the documentation required. Implementation of this P-850 ESW for these FSA programs expedites the environmental compliance review for projects that have historically demonstrated no impacts. <i>Note 1: This P-850 does not supersede any existing agreements between FSA and State or local regulators, including those covering consultations. Those agreements should continue to be followed and this P-850 should not interfere.</i> <i>Note 2: This P-850 does not negate the need for any state/local permits, permissions, or other documentation required by a specific state/locality. Those requirements are not impacted by this P-850 and continue to apply.</i>		

14. CHECKLIST

15. FINDING

I have reviewed and considered the types and degrees of adverse environmental impacts identified by this evaluation. I have also analyzed the proposal for its consistency with FSA environmental policies implementing the requirements of the National Environmental Policy Act and have considered the potential benefits of the proposal. Based upon this consideration and balancing of these factors, I recommend one of the following:

☐ A. This proposed action triggers no extraordinary circumstances. There will be no adverse impacts to the human environment as a result of this proposed action or any adverse effects, either individually or cumulatively. The action can be considered as categorically excluded per 7 CFR Part 799.30. Neither an Environmental Assessment or Environmental Impact Statement will be required. The project is recommended for approval.

☐ B. An Environmental Assessment should be completed to provide further and more complete analysis of any adverse impacts and approval of the action must be delayed pending the outcome of the assessment.

☐ C. An Environmental Impact Statement should be completed to provide further and more complete analysis of any adverse impacts and approval of the action must be delayed pending the outcome of the assessment.

16. REQUIRED SIGNATURES:

A. NAME OF PREPARER William Beam	B. TITLE OF PREPARER Deputy Administrator for Farm Programs
C. SIGNATURE OF PREPARER	D. DATE DOCUMENT WAS PREPARED (MM-DD-YYYY)
E. NAME OF PREPARER William Cobb	F. TITLE OF PREPARER Deputy Administrator for Farm Loan Programs
G. SIGNATURE OF PREPARER	H. DATE DOCUMENT WAS PREPARED (MM-DD-YYYY)
I. NAME OF APPROVAL OFFICIAL Cristin "Nell" Fuller	J. TITLE OF APPROVAL OFFICIAL Director, FBC Environmental Activities Division
K. SIGNATURE OF APPROVAL OFFICIAL	L. DATE OF APPROVAL SIGNATURE (MM-DD-YYYY)

In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, gender identity (including gender expression), sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotope, American Sign Language, etc.) should contact the responsible Agency or USDA's TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339. Additionally, program information may be made available in languages other than English.

To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD-3027, found online at http://www.ascr.usda.gov/complaint_filing_cust.html and at any USDA office or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by: (1) mail: U.S. Department of Agriculture Office of the Assistant Secretary for Civil Rights 1400 Independence Avenue, SW Washington, D.C. 20250-9410; (2) fax: (202) 690-7442; or (3) email: program.intake@usda.gov. USDA is an equal opportunity provider, employer, and lender.

The Percentage of Counties with Wildfires in Western States as of September 16,2020

State	Number of counties With Wildfires	Number of Agricultural Counties in the state	Percentage	Primary Contiguous N/A	Additional notes
Arizona	5	15	33%	Contiguous	There have been 7,606 fires this year and 2,277,922 acres burned 22 fatalities in California.
California	46	58	79%	Primary	Fires expected to spread to additional counties during Santa Ana winds.
Colorado	8	61	8%	Contiguous	On 9/15/2020 Colorado reported that 15 counties had wildfire activity, which have burned in excess of 200,000 acres. The entire state is designated D2 or greater. Although they have recently received some rain in places, drought conditions were not alleviated. CO has 15 Secretarial drought designations since June 23, 2020.
Idaho	8	44	18%	Contiguous	
Montana	53	56	95%	Primary	
Nevada	3	16	19%	Contiguous	Nevada reports that they would like their entire state to be included in the P850 due to the nature of current wildfires and the continuing drought.
Oregon	21	36	58%	Primary	
Utah	6	29	21%	Contiguous	
Washington	16	39	41%	Contiguous	SEC reported there are many large and small wildfires throughout the state with over 541,000 acres burned in Okanogan, Douglas, and Lincoln counties alone. This does not include a large fire on the Okanogan reservation. Because of the continuing dryness and the size of some of the fires, they are requesting that the entire state be included in a P850.

Executive Session

Emergency Conservation Reserve Program (ECP)

2025 Additional Cost Share Rate –

EC3-Multi Strand Barbed or Smooth Wire – Difficult Terrain

State Committee Discussion Record**Program:** Emergency Conservation Program**Date:** 02/10/2026**Staff Member Presenting:** Hunter A. Cleveland**Matter for Consideration:**

Review the alternative cost share rate proposal for EC3-Multi Strand Barbed or Smooth Wire—Difficult Terrain and determine if this price is reflective of the actual cost of fence replacement in the area.

Action Requested:

In accordance with policy listed in 1-ECP (Rev.8) paragraph 179B, the state committee will conduct a review of cost share rate EC3-Multi Strand Barbed or Smooth Wire—Difficult Terrain and determine reasonability of this rate. If the state committee feels that this rate is not reasonable, the state committee shall determine an alternative rate to propose to ECP-PM for consideration.

Background:

During calendar year 2025, Colorado experienced the following wildfires that had detrimental effects on producers and ranchers in the Northwest Region of the state:

<u>Name:</u>	<u>Date Started:</u>	<u>Cause:</u>	<u>Estimated Acres Affected:</u>	<u>Effected Counties:</u>
Elk Fire	08/02/2025	Lightening	14,518	Rio Blanco
Lee Fire	08/02/2025	Lightening	137,755	Rio Blanco
Crosho Fire	08/11/2025	Lightening	2,073	Routt
Turner Gulch	07/10/2025	Lightening	31,699	Mesa
Wright Draw	07/10/2025	Lightening	466	Mesa

In an effort to assist affected producers and ranchers with damages that have resulted from the fires, the Emergency Conservation Reserve Program (ECP) was implemented for each county listed above. With the magnitude of affected acres, each county office has seen an influx of interest in the program, and as signups continue, there is an increase in ECP applications.

Noninsured Crop Disaster Assistance Program (NAP)

2026 NCT Review of Factors, Dates and Yields

Millet

State Committee Discussion Record**Program:** Noninsured Crop Disaster Assistance Program (NAP)**Date:** 02.10.26**Staff Member Presenting:** Janae Rader, Farm Program Specialist**Matter for Consideration:** 2026 NCT record review and approval on Millet (Crop Code 0080).**STC Recommended Action:** Accept the 2026 NCT data for Millet as presented by STO.

Background: State Committee (STC) is to review the data used to determine the County Expected Yield (CEY) and Average Market Price (AMP). The CEY and AMP is determined using an Olympic Average of 5 most recent, consecutive crop year for which data is available.

Millet is DOP covered by (FCIC/RMA) insurance at a 50/55 level in Colorado for select Counties with the intended use of Grain (Gr) in Colorado and are ineligible for NAP in the following counties: Adams, Arapahoe, Cheyenne, Denver, Elbert, Kiowa, Kit Carson, Lincoln, Logan, Morgan, Phillips, Prowers, Sedgwick, Washington, Weld and Yuma. All other counties are eligible for DOP type with the intended use of Gr. All Counties with all types: COM, DOP, FXT and JPN with the intended use of forage (Fg) are eligible for NAP.

There are 4 types of Millet in Colorado.

COM - Common

DOP – Dove Proso

FXT – Foxtail

JPN - Japanese

Millet have an established NCT record in the following contiguous states: Kansas, Nebraska, New Mexico, Oklahoma, Utah and Wyoming. No other contiguous state has an approved NCT record.

The Acreage reporting date is set at the State level. The acreage reporting deadline is July 15th the year of harvest according to 2-CP (Rev. 16) Exhibit 6. This is the same as the RMA acreage reporting date.

The application closing date is set at the State level and is previously set for Millet as March 15th the year of harvest. This is the same as RMA sales closing date.

County	Application Closing Date (all types)
Colorado	03/15
Kansas	03/15
Nebraska	03/15
New Mexico	03/15

County	Application Closing Date (all types)
Oklahoma	03/15
Utah	03/15
Wyoming	04/01
RMA	03/15

Payment factors are set at the state level for a crop, type and intended use. The prevent plant (PP) and un-harvest (UH) factor was previously set. The PP and UH factor should be used to reflect the percentage of total production cost not incurred because planting and/or harvesting did not take place. 1-NAP (Rev. 2) subparagraph 279A STC will determine what percentage of total production cost would be expended if harvesting costs are excluded.

Factors by type:

State (PP/UH Factor)	PP All types Fg	UH All types Fg	PP All types Gr	UH All types Gr
Colorado	0.50	0.75	0.50	0.88
Kansas	0.30	0.70	0.57	0.86
Nebraska	0.60	0.75	0.60	0.75
New Mexico	0.30	0.85	-	-
Oklahoma	0.40	0.70	0.40	0.70
Utah	0.36	0.74	-	-
Wyoming	0.66	0.83	0.66	0.83

Organic price and yield is being requested for all COM and DOP with the intended use of Gr. FSA may establish an organic average market price for a crop within a State to reflect the different price an organic crop receives. Organic average market prices may be based on RMA price if available, up to 145 percent of AMP without DAFP approval using other acceptable sources of organic price data. When establishing an organic price, a yield adjustment organic factor must also be established for the crop. (1-NAP (Rev. 2) subparagraph 278F and 276G)

Organic Factors by type:

State (Org/Tran Factor)	Org COM Gr	Tran COM Gr	Org DOP Gr	Tran DOP Gr	% of AMP
Colorado	0.65	0.65	0.65	0.65	144
Kansas	-	-	-	-	-
Nebraska	-	-	0.65	-	200
New Mexico	-	-	-	-	-

Org=Organic, Tran=Transitional, AMP=Average Market Price

Direct market price is not being requested.

The final plant date is set at the county level. Final plant date will affect coverage as planting after that date decreases coverage. Final plant date should reflect the latest date the crop, type and intended use can be planted to reasonably expect normal production.

Final plant date by type and intended use:

A normal harvest date is set at the county level. All counties with an approved NCT record for Millet in Colorado have an established harvest date of October 15. NAP coverage ends the earlier of date harvest was complete, abandonment of crop, destruction of the crop or normal harvest date. This will also determine the last day to timely file production and an application for

payment. The normal harvest date should reflect the date that harvest is normally completed in the administrative county.

Normal harvest date by type and intended use:

The CEY should reflect the average production potential for a crop by county, by practice and intended use. STC should ensure that the yield information is comparable with previously approved yields and justify any deviations.

The AMP must reflect the in-field harvest price, and cannot include the costs associated with transportation, packaging, etc. STC should ensure that established average market prices are comparable with established FCIC prices in the State or surrounding States and that the established average market prices are using consistent data sources and/or are comparable with

previously approved average market prices in the State or in surrounding States. The process used for establishing the AMP is also applicable when establishing direct and organic market prices.

2026 STO recommended yield and price.

AMS Price															
Millet 3x4															
Good/Premium										-	190.00				

NAP Notice 215 - Price on Outlier Report - STC updated 2021 to 125 vs 140 (89% of price) reduced all historical prices 89% to come into line with STC recommendation - without having to override price every year -

23 Price - 178.00. Used AMS price for Good/Premium quality Millet hay 190.00 minus \$12.00/ton for transportation based off of CSU extension rates (190-12=178) although this is less than CO historical prices 19-22 ranging from 198-219, it is more in line with Contiguous state pricing. In addition - Millet Fg price was on a National Outlier report as being to high in the past.

23 Yield All types - Used actual production if available. Dolores 2.13, Washington 1.56 Yuma 4.06. All other counties used a decrease of 13% from the prior years NCT yield. Even though the state average was a 62% increase, this was not reflective of the entire state as Yuma reported a yield of 4.06 higher than any other County with the Exception of Washington. The 13% loss is based on Washington the only county that production in both 22 and 23 and it was a decrease of 13.8% (22-1.81, 23-1.56) Yuma County also has a higher state average 15-23 of 4.06 than any other County in the state and would not be representative of other areas. NASS all other hay also had a decrease of 13% (22-1.85, 23-1.60), however it is recognized that Millet Fg production would only represent a small percent of number. 13% decrease from prior Year NCT was also used for DOP and JPN as no yield for those types were available.

AMS Price															
Millet 3x4															
Good/Premium										-	190.00				

NAP Notice 215 - Price on Outlier Report - STC updated 2021 to 125 vs 140 (89% of price) reduced all historical prices 89% to come into line with STC recommendation - without having to override price every year -

23 Price - 178.00. Used AMS price for Good/Premium quality Millet hay 190.00 minus \$12.00/ton for transportation based off of CSU extension rates (190-12=178) although this is less than CO historical prices 19-22 ranging from 198-219, it is more in line with Contiguous state pricing. In addition - Millet Fg price was on a National Outlier report as being too high in the past.

23 Yield - used actual production if available (Elbert 0.17, Morgan-0.90, Washington 0.48, Weld-0.57, Yuma 1.11). All other counties used a decrease of 34% based on the State Average change from prior year (22-0.99, 23-0.65). Even though NASS only had a 13% decrease it is an all yield and includes irrigated ground as well.

Comments:

23 price will be overridden FCIC/RMA price for all types

23 Yield 20 all types- state average from actual yield data in Kiowa. This yield is right in the middle of the RMA approved yields and 62% of the irrigated yield. This yield may be slightly high based on limited historical data from Kit Carson avg of 11, Logan historical avg of 10 and Weld historical average of 2, however none of those counties reported a yield in 2023 for a comparasin.

Executive Session

Noninsured Crop Disaster Assistance Program (NAP)

2026 NCT Review of Factors, Dates and Yields

Oats

State Committee Discussion Record

Program: Noninsured Crop Disaster Assistance Program (NAP)

Date: 02.10.26

Staff Member Presenting: Janae Rader, Farm Program Specialist

Matter for Consideration: 2026 NCT record review and approval on Oats (Crop Code 0016).

STC Recommended Action: Accept the 2026 NCT data for Oats as presented by STO.

Background: State Committee (STC) is to review the data used to determine the County Expected Yield (CEY) and Average Market Price (AMP). The CEY and AMP is determined using an Olympic Average of 5 most recent, consecutive crop year for which data is available.

Oats are covered by (FCIC/RMA) insurance at a 50/55 level in Colorado for select Counties. with the intended use of Grain (Gr) in Colorado and are ineligible for NAP in the following counties: Alamosa, Conejos, Elbert, Kit Carson, Logan, Mesa, Montrose, Morgan, Phillips, Rio Grande, Routt Saguache, Sedgwick, Washington and Weld. All other counties are eligible for Oats with the intended use of Gr. All Counties with the intended use of forage (Fg) are eligible for NAP.

There is 1 type of Oats covered under NAP in Colorado.

SPR - Spring

Oats have an established NCT record in the following contiguous states: Kansas, Nebraska, New Mexico, Oklahoma, Utah and Wyoming. No other contiguous state has an approved NCT record.

The Acreage reporting date is set at the State level. The acreage reporting deadline is July 15th the year of harvest according to 2-CP (Rev. 16) Exhibit 6. This is the same as the RMA acreage reporting date.

The application closing date is set at the State level and is previously set for Oats in Colorado as March 15th the year of harvest. This is the same as RMA sales closing date.

County	Application Closing Date
Colorado	03/15
Kansas	12/01
Nebraska	03/15
New Mexico	09/30
Oklahoma	08/31, 09/30
Utah	03/15
Wyoming	04/01
RMA	03/15

Payment factors are set at the state level for a crop, type and intended use. The prevent plant (PP) and un-harvest (UH) factor was previously set. The PP and UH factor should be used to reflect the percentage of total production cost not incurred because planting and/or harvesting did not take place. 1-NAP (Rev. 2) subparagraph 279A STC will determine what percentage of total production cost would be expended if harvesting costs are excluded.

Factors by type:

State (PP/UH Factor)	PP All types Fg	UH All types Fg	PP All types Gr	UH All types Gr
Colorado	0.50	0.75	0.50	0.93
Kansas	0.30	0.70	-	-
Nebraska	0.60	0.90	-	-
New Mexico	0.30	0.85	-	-
Oklahoma	0.40	0.70	0.61	0.85
Utah	0.36	0.74	-	-
Wyoming	0.60	0.83	0.60	0.83

Organic price and yield is being requested for both intended uses Fg and Gr. FSA may establish an organic average market price for a crop within a State to reflect the different price an organic crop receives. Organic average market prices may be based on RMA price if available, up to 145 percent of AMP without DAFP approval using other acceptable sources of organic price data. When establishing an organic price, a yield adjustment organic factor must also be established for the crop. (1-NAP (Rev. 2) subparagraph 278F and 276G)

Organic Factors by type:

State (Org/Tran Factor)	Org Fg	Tran Fg	Org Gr	Tran Gr	% of AMP
Colorado	0.95	0.95	0.95	0.95	144
Kansas	-	-	-	-	-
Nebraska	-	-	-	-	-
New Mexico	-	-	-	-	-
Oklahoma	-	-	-	-	-
Utah	-	-	-	-	-
Wyoming	-	-	-	-	-
RMA	-	-			190%

Org=Organic, Tran=Transitional, AMP=Average Market Price

Direct market price is not being requested.

The final plant date is set at the county level. Final plant date will affect coverage as planting after that date decreases coverage. Final plant date should reflect the latest date the crop, type and intended use can be planted to reasonably expect normal production.

Final plant date by intended use:

State (Final Plant Date)	County	Fg	Gr

RMA	Multiple	-	04/25- 05/15

A normal harvest date is set at the county level. All counties with an approved NCT record for Oats in Colorado have an established harvest date of October 31, this matches RMA end of coverage. NAP coverage ends the earlier of date harvest was complete, abandonment of crop, destruction of the crop or normal harvest date. This will also determine the last day to timely file production and an application for payment. The normal harvest date should reflect the date that harvest is normally completed in the administrative county.

Normal harvest date by intended use:

The CEY should reflect the average production potential for a crop by county, by practice and intended use. STC should ensure that the yield information is comparable with previously approved yields and justify any deviations.

The AMP must reflect the in-field harvest price, and cannot include the costs associated with transportation, packaging, etc. STC should ensure that established average market prices are comparable with established FCIC prices in the State or surrounding States and that the established average market prices are using consistent data sources and/or are comparable with previously approved average market prices in the State or in surrounding States. The process used for establishing the AMP is also applicable when establishing direct and organic market prices.

2026 STO recommended yield and price.

23 Yield. Used actual yield if available. Counties with zero yield were rounded up to 0.10 (Adams, Morgan). Counties without any historical yield data used the change in the State Average from prior year. Decrease of 89% (22-0.935, 23-0.10). 89% is a considerable decrease compared to NASS (-0.01) and CO (-0.13) all other hay change from prior year, however the result in some counties is similar to the historical county average 15-24. Baca Avg 0.25, Baca NCT 0.17, Dolores Avg 0.25 NCT 0.22. For Counties with a historical yield an average of the 89% decrease from prior NCT and their actual historical avg from 15-24 was used. ¹ United States average prices per unit computed by weighting State prices by estimated sales for all crops, except corn, canola, sorghum, oats, barley, wheat, rice, soybeans, flaxseed, sunflower, Upland cotton, dry edible beans, chickpeas, dry edible peas, and lentils which are computed by weighting United States monthly prices by estimated monthly marketings.

² Preliminary.

³ Based on marketings and monthly prices received from August 1, 2023 - December 31, 2023.

⁴ The preliminary 2023 price will be published in *Agricultural Prices* released July 2024. Sugarcane price is for sugar only.

⁵ The 2023 price will be published in *Crop Production* released June 2024.

Spearmint oil pounds	15.80	20.40	18.40

¹ United States average prices per unit computed by weighting State prices by estimated sales for all crops, except corn, canola, sorghum, oats, barley, wheat, rice, soybeans, flaxseed, sunflower, Upland cotton, dry edible beans, chickpeas, dry edible peas, and lentils which are computed by weighting United States monthly prices by estimated monthly marketings.

² Preliminary.

³ Based on marketings and monthly prices received from August 1, 2023 - December 31, 2023.

⁴ The preliminary 2023 price will be published in *Agricultural Prices* released July 2024. Sugarcane price is for sugar only.

⁵ The 2023 price will be published in *Crop Production* released June 2024.

2023 Land Rental & Custom Rates for Colorado Farms & Ranches

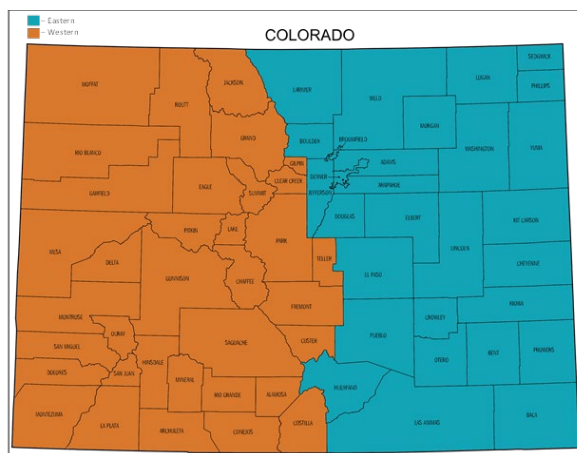

Jenny Beiermann, Jeffrey E. Tranel, and R. Brent Young^A

May 2024

Colorado State University Extension annually conducts a survey of custom rates charged for various crop and livestock operations and lease arrangements in Colorado. Electronic data were collected from agricultural producers, landowners and managers, lenders, agricultural consultants, machine operators, and Extension agents. The results from more than 290 respondents were combined with anecdotal data collected throughout the year.

The survey results are reported by region:

- **Eastern** – generally, those counties east of the Rocky Mountains and I-25 and
- **Western** – generally, those counties west of the Rocky Mountains and I-25.

Reported rates represent a variety of working conditions, machine and equipment sizes, and farm and ranch operations. Field conditions, field size, terrain, and

location also account for some variations in rates charged.

A possible additional charge (not reflected in this report) associated with a custom operation is a mileage fee. A custom operator, veterinarian, or other provider may have a per mileage rate for traveling to/from a work site.

The rates reported herein are not recommended rates. They simply reflect the range of rates as reported by those individuals surveyed. Some reported rates may seem unusually low or high which is due to very few respondents and/or the operation is not widely performed. The information in this report should be used only as a guide.

In cases where data were not available, or the sample size was too small to report, results from the 2022 custom rates survey are reported. These numbers are denoted by **bold text** throughout the report. Data also **highlighted in grey** were rates previously reported in the 2022 report.

Survey respondents were invited to advertise custom services they provide and their contact information. The information given herein is supplied by CSU Extension with the understanding that no endorsement of named products is intended, nor is discrimination or criticism implied of products mentioned or not mentioned.

^AAuthors:

Beiermann, Tranel, and Young are Agricultural and Business Management Economists with Colorado State University Extension and the Department of Agricultural and Resource Economics. This report, decision tools, and other information pertaining to farm and ranch management issues are available at: www.abm.extension.colostate.edu

2023 Land Rental & Custom Rates for Colorado Farms & Ranches

Activity	Basis For Charge	Eastern Region		Western Region	
		Range	Median	Range	Median

Executive Session

Noninsured Crop Disaster Assistance Program (NAP)

2026 NCT Review of Factors, Dates and Yields

Peppers

State Committee Discussion Record**Program:** Noninsured Crop Disaster Assistance Program (NAP)**Date:** 02.10.26**Staff Member Presenting:** Janae Rader, Farm Program Specialist**Matter for Consideration:** 2026 NCT record review and approval on Peppers (Crop Code 0083).**STC Recommended Action:** Accept the 2026 NCT data for Peppers as presented by STO.**Background:** State Committee (STC) is to review the data used to determine the County Expected Yield (CEY) and Average Market Price (AMP). The CEY and AMP is determined using an Olympic Average of 5 most recent, consecutive crop year for which data is available.

Peppers are not covered by (FCIC/RMA) insurance at a 50/55 level in Colorado and is an eligible NAP crop.

There are 18 types of Peppers in Colorado. They are grouped into 6 different categories.

Group A

BAN - Banana

CAY - Cayenne

HAB - Habanero

JAL - Jalapeno

SER - Serrano

Group B

ANA - Anaheim

CUB - Cubanells

GRC – Green Chili

POB - Poblano

Group C

FRS - Fresno

HTC – Hot Cherry

ITA - Italian

PIM - Pimento

RED – Red Chili

Group D

SWC – Sweet Cherry

Group E

GRN – Green Bell

Group F
 GOU – Gourmet Mini
 ORD – Oriental Red

Peppers have an established NCT record in the following contiguous states: Kansas, Nebraska, New Mexico, Oklahoma, Utah and Arizona. Wyoming does not have an approved NCT record.

The Acreage reporting date is set at the State level. The acreage reporting deadline is July 15th the year of harvest according to 2-CP (Rev. 16) Exhibit 6.

The application closing date is set at the State level and is previously set for Peppers as March 15 the year of harvest.

State (All Types)	Application Closing Date
Colorado	03/15
Arizona	01/31
Kansas	03/15
Nebraska	03/15
New Mexico	01/31
Oklahoma	03/15
Utah	03/15

Payment factors are set at the state level for a crop, type and intended use. The prevent plant (PP) and un-harvest (UH) factor was previously set. The PP and UH factor should be used to reflect the percentage of total production cost not incurred because planting and/or harvesting did not take place. 1-NAP (Rev. 2) subparagraph 279A STC will determine what percentage of total production cost would be expended if harvesting costs are excluded.

All Types

State (All Types)	PP Factor Fh	UH Factor Fh
Colorado	0.30	0.50
Arizona	0.26	0.59
Kansas	0.24	0.46
Nebraska	0.30	0.59
New Mexico	0.13-0.34	0.48-0.53
Oklahoma	0.30	0.48
Utah	0.24-0.30	0.45-0.50

Organic price and yield is being requested for the following types: ANA, BAN, CUB, GRC, GRN and JAL. FSA may establish an organic average market price for a crop within a State to reflect the different price an organic crop receives. Organic average market prices may be based on RMA price if available, up to 145 percent of AMP without DAFP approval using other acceptable sources of organic price data. When establishing an organic price, a yield adjustment

organic factor must also be established for the crop. (1-NAP (Rev. 2) subparagraph 278F and 276G)

State (All Types)	Organic Factor - Fh	Transitional Factor - Fh	Organic Price (% of AMP)
Colorado	0.65	0.65	144
Kansas	-	-	-
Nebraska	.75	-	144
New Mexico	-	-	
Oklahoma	-	-	
Utah	-	-	
Arizona	-	-	-

Direct market price is not being requested.

The final plant date is set at the county level. Final plant date will affect coverage as planting after that date decreases coverage. The final plant date should reflect the latest date the crop, type and intended use can be planted to reasonably expect normal production.

State	County	Final Plant Date – All Types-Fh
Colorado	Crowley	06/01
Colorado	Fremont	06/01
Colorado	La Plata	06/01
Colorado	Las Animas	06/01
Colorado	Morgan	06/01
Colorado	Otero	06/01
Colorado	Pueblo	06/01
Colorado	Weld	06/01
Arizona	Pinal	05/15
Kansas	Multiple	05/25
Nebraska	Multiple	07/24
New Mexico	Multiple	04/15-06/15
Oklahoma	Multiple	05/15-07/15
Utah	Multiple	06/15

A normal harvest date is set at the county level. NAP coverage ends the earlier of date harvest was complete, abandonment of crop, destruction of the crop or normal harvest date. This will also determine the last day to timely file production and an application for payment. The normal harvest date should reflect the date that harvest is normally completed in the administrative county.

State	County	Normal Harvest Date - All Types-Fh
Colorado	Crowley	10/30-10/31

State	County	Normal Harvest Date - All Types-Fh
Colorado	Fremont	10/30-10/31
Colorado	La Plata	10/31
Colorado	Las Animas	10/31
Colorado	Morgan	10/31
Colorado	Otero	10/30-10/31
Colorado	Pueblo	10/30-10/31
Colorado	Weld	10/31
Arizona	Multiple	10/15
Kansas	Multiple	10/15
Nebraska	Multiple	09/30
New Mexico	Multiple	08/01-12/15
Oklahoma	Multiple	11/15
Utah	Multiple	10/31

The CEY should reflect the average production potential for a crop by county, by practice and intended use. STC should ensure that the yield information is comparable with previously approved yields and justify any deviations.

The AMP must reflect the in-field harvest price, and cannot include the costs associated with transportation, packaging, etc. STC should ensure that established average market prices are comparable with established FCIC prices in the State or surrounding States and that the established average market prices are using consistent data sources and/or are comparable with previously approved average market prices in the State or in surrounding States. The process used for establishing the AMP is also applicable when establishing direct and organic market prices.

2026 STO recommended yield and price.

23 Price all Pepper Types 50.60 NASS Other State Fh price. No Colorado Data available. - Similar to contiguous states pricing.

BAN 23 Yield - Used actual yield if available (Pueblo). Weld 136.17- used simple historical avg 15-23 (21-152.34, 22-120), Otero used 10% increase from prior year NCT (based on other pepper type change in actual yield from 22 to 23 - HAB increase 13% (2213.2, 23-17.6) and JAL decrease of 12% (22-68.41, 23-60.06). Fremont used prior year NCT 71.22 no actual yield for any type for Fremont. Pueblo increased yield in BAN couldn't use a comparison as Pueblo didn't have yields in 22 and 23 for any type.

CAY 23 Yield - Pueblo no actual 23 yield available - used simple historical avg 15-23 (19-154.29, 21-1.4=77.85)

HAB 23 Yield - Used actual production if available (Otero) Pueblo and Weld used simple historical avg 15-23 (Pueblo 97.45- 19-51.43, 21-0, 22-240.97, Weld 4.44 19-0.3, 20-8.57) Fremont no historical yield available for any type. Used State Avg 17.60 (Otero-17.6)

JAL 23 Yield - If actual yield was available used actual yield (Crowley, Otero, Pueblo, Weld) Fremont no historical yield available used simple avg of Otero 60.06 and Pueblo 184.33 = 122.2. Similar but slightly below 22 NCT yield same trend with all other counties except weld which had a higher yield than 23.

SER 23 Yield - No actual yield available in the State - Weld used historical avg 15-23 (15-1.68, 16-5, 18-0.88) Pueblo and Fremont used prior years NCT yield. Pueblo had a yield in 22 and 23 for JAL - slight 1.3% decrease no other type in Pueblo had both 22 and 23 yield to compare to. Fremont does not have any history of yields for any types.

23 Price all Pepper Types 50.60 NASS Other State Fh price. No Colorado Data available. - Similar to contiguous states pricing.

ANA 23 Yield - Used actual yield if available (Crowley, Morgan, Otero, Pueblo, Weld), Fremont and Las Animas do not have any historical yields, used same Yield as in the NCT from prior year-22. Otero and Pueblo used as a comparison both had production in 22 and 23 for ANA Otero had a decrease of 31% (22-97.13, 23-67.11 and Pueblo had an increase in 38% (22-91.88, 23-127.51) for an average change of 3%

CUB 23 Yield - Used actual yield (Otero, Pueblo)

GRC 23 Yield - Used actual yield if available (Crowley, Otero, Pueblo) Neither La Plata or Weld have a historical GRC yield. Weld increased yield 123% from 22 NCT yield based off of ANA increase 111% (22-85, 23-179.64) and POB increase 135% (22-70.25, 23-165.15). La Plata used same yield as prior year as there is no similar counties with production to compare.

------	------	------	------	------	------	------	------	------	------	------	------	------	-----

FRS 23 Yield - No county had an actual yield reported in 23. Weld 28.17 used simple avg 15-23 (20-21, 22-53.01, 22-10.5) Pueblo 44.31 used the Pueblo actual ITA yield, Crowley/Otero 2.55 no Yield reported for any similar type Pueblo ITA yield had a 46% decrease from 22 but it was still 55% above the 15-23 average for ITA. Used prior year NCT yield of 2.55
 HTC 23 Yield - No county had actual yield reported in 23. Pueblo used 44.31 ITA yield only other type with production, Otero use 44.31 same as Pueblo ITA actual yield, 22 NCT yield was also the same as Pueblo and using the same yield as Pueblo is similar to the prior year. Using the prior years NCT for Otero would be an increase higher than any historical NCT yield.

ITA 23 Yield - Used actual production (Pueblo)

PIM 23 Yield - No county had actual yield reported in 23. Pueblo used 44.31 ITA yield only other type with production, Otero use 44.31 same as Pueblo ITA actual yield, 22 NCT yield was also the same as Pueblo and using the same yield as Pueblo is similar to the prior year. Using the prior years NCT for Otero would be an increase higher than any historical NCT yield.
 RED 23 Yield - No county had actual yield reported in 23. Pueblo used 44.31 ITA yield only other type with production, Otero use 44.31 same as Pueblo ITA actual yield, 22 NCT yield was also the same as Pueblo and using the same yield as Pueblo is similar to the prior year. Using the prior years NCT for Otero would be an increase higher than any historical NCT yield.

Executive Session

Noninsured Crop Disaster Assistance Program (NAP)

2026 NCT Review of Factors, Dates and Yields

Pumpkin

State Committee Discussion Record**Program:** Noninsured Crop Disaster Assistance Program (NAP)**Date:** 02.10.26**Staff Member Presenting:** Janae Rader, Farm Program Specialist**Matter for Consideration:** 2026 NCT record review and approval on Pumpkins (Crop Code 0147).**STC Recommended Action:** Accept the 2026 NCT data for Pumpkins as presented by STO.**Background:** State Committee (STC) is to review the data used to determine the County Expected Yield (CEY) and Average Market Price (AMP). The CEY and AMP is determined using an Olympic Average of 5 most recent, consecutive crop year for which data is available.

Pumpkins are not covered by (FCIC/RMA) insurance at a 50/55 level in Colorado and is an eligible NAP crop.

There are 8 types of Pumpkins in Colorado.

CIN - Cinderella

CUS - Cushaw

GHO - Ghost

HOD - Howden

JAC – Jack-O-Lantern

MAM - Mammoth

MIN - Mini

SUG - Sugar

Pumpkins have an established NCT record in the following contiguous states: Kansas, Nebraska, New Mexico, Oklahoma and Utah. No other contiguous state has an approved NCT record.

The Acreage reporting date is set at the State level. The acreage reporting deadline is July 15th the year of harvest according to 2-CP (Rev. 16) Exhibit 6.

The application closing date is set at the State level and is previously set for Pumpkins as March 15 the year of harvest.

State	ACD All Types
Colorado	03/15
Kansas	03/15
Nebraska	03/15
New Mexico	04/01-04/15
Oklahoma	03/15
Utah	03/15

Payment factors are set at the state level for a crop, type and intended use. The prevent plant (PP) and un-harvest (UH) factor was previously set. The PP and UH factor should be used to reflect the percentage of total production cost not incurred because planting and/or harvesting did not take place. 1-NAP (Rev. 2) subparagraph 279A STC will determine what percentage of total production cost would be expended if harvesting costs are excluded.

All Types

State	PP Factor Fh	UH Factor Fh	PP Factor Sd	UH Factor Sd
Colorado	0.45	0.66	0.45	0.66
Kansas	0.31	0.70	-	-
Nebraska	0.30	0.60	-	-
New Mexico	0.15	0.75	-	-
Oklahoma	0.31	0.60	-	-
Utah	0.35-0.45	0.65	-	-

Organic price and yield is being requested for the following types: GHO, JAC, MIN and SUG. FSA may establish an organic average market price for a crop within a State to reflect the different price an organic crop receives. Organic average market prices may be based on RMA price if available, up to 145 percent of AMP without DAFP approval using other acceptable sources of organic price data. When establishing an organic price, a yield adjustment organic factor must also be established for the crop. (1-NAP (Rev. 2) subparagraph 278F and 276G)

State (All Types)	Organic Factor - Fh	Transitional Factor - Fh	Organic Price (% of AMP)
Colorado	0.75	0.75	144
Kansas	-	-	-
Nebraska	.75	-	145
New Mexico	-	-	
Oklahoma	-	-	
Utah	-	-	

Direct market price is not being requested.

The final plant date is set at the county level. Final plant date will affect coverage as planting after that date decreases coverage. Final plant date should reflect the latest date the crop, type and intended use can be planted to reasonably expect normal production.

A normal harvest date is set at the county level. All counties with an approved NCT record for Pumpkins in Colorado have an established harvest date of November 15, 2025. NAP coverage ends the earlier of date harvest was complete, abandonment of crop, destruction of the crop or

normal harvest date. This will also determine the last day to timely file production and an application for payment. The normal harvest date should reflect the date that harvest is normally completed in the administrative county.

The CEY should reflect the average production potential for a crop by county, by practice and intended use. STC should ensure that the yield information is comparable with previously approved yields and justify any deviations.

The AMP must reflect the in-field harvest price, and cannot include the costs associated with transportation, packaging, etc. STC should ensure that established average market prices are comparable with established FCIC prices in the State or surrounding States and that the established average market prices are using consistent data sources and/or are comparable with previously approved average market prices in the State or in surrounding States. The process used for establishing the AMP is also applicable when establishing direct and organic market prices.

2026 yield and price.

23 Price - 14.9 NASS NTL

23 Yield - Used the County yield for the type if available, if no prd for that county used historical simple average of type 15-24 APH rounded to the nearest cwt, (Exception Crowley SUG had 0 UH prd used next yield up at 11.08 GHO) if no production for the type determined most representative. Las Animas HOD used Fremont Yield 50 - no information for Otero HOD, Pueblo MAM used Pueblo MIN yield 97.00, Pueblo CIN used actual prd 18.75 rounded up to nearest whole cwt 19. Actual production provided in new crop request, not entered in APH software, Pueblo KHD used production provided in new crop request from avg of multiple farms 364.07 rounded to nearest whole cwt

Used Historical Avg rounded to nearest cwt.

Determined most representative on individual basis

Description

115 Days | Like the name indicates — no Halloween is complete without this famous pumpkin. Average fruit about size and shape of a man's head or larger. Not highly uniform and often produces from round to quite oblong types for unusual Jack O'Lanterns. Bright yellow and smooth.

3-7 Days to sprout

Pumpkin seeds per Oz: About 300

Pumpkin seeds per Lb: About 5,000

Plant 1/2"-1" deep, in rows 24"-36" apart, with hills of 2-3 seeds spaced 24"-36" apart once the seeds sprout.

Noninsured Crop Disaster Assistance Program (NAP)

2026 NCT Review of Factors, Dates and Yields

Watermelon

State Committee Discussion Record**Program:** Noninsured Crop Disaster Assistance Program (NAP)**Date:** 02.10.26**Staff Member Presenting:** Janae Rader, Farm Program Specialist**Matter for Consideration:** 2026 NCT record review and approval on Watermelon (Crop Code 0757).**STC Recommended Action:** Accept the 2026 NCT data for Watermelon as presented by STO.**Background:** State Committee (STC) is to review the data used to determine the County Expected Yield (CEY) and Average Market Price (AMP). The CEY and AMP is determined using an Olympic Average of 5 most recent, consecutive crop year for which data is available.

Watermelons are not covered by (FCIC/RMA) insurance at a 50/55 level in Colorado and is an eligible NAP crop.

There are 5 types of Watermelon in Colorado.

COM - Common

PER – Personal

SED – Seedless

STR – Striped

SUG – Sugar Babies/Ice Box

Watermelon have an established NCT record in the following contiguous states: Kansas, Nebraska, New Mexico, Oklahoma and Utah. No other contiguous state has an approved NCT record.

The Acreage reporting date is set at the State level. The acreage reporting deadline is July 15th the year of harvest according to 2-CP (Rev. 16) Exhibit 6.The application closing date is set at the State level and is previously set for Watermelon as March 15th the year of harvest.

County	Application Closing Date (all types)
Colorado	03/15
Kansas	03/15
Nebraska	03/15
New Mexico	04/15
Oklahoma	03/15
Utah	03/15

Payment factors are set at the state level for a crop, type and intended use. The prevent plant (PP) and un-harvest (UH) factor was previously set. The PP and UH factor should be used to reflect the percentage of total production cost not incurred because planting and/or harvesting did not take place. 1-NAP (Rev. 2) subparagraph 279A STC will determine what percentage of total production cost would be expended if harvesting costs are excluded.

Factors by type:

State (PP/UH Factor)	PP All types Fh	UH All types Fh	PP All types Sd	UH All types Sd
Colorado	0.45	0.66	0.45	0.66
Kansas	0.30	0.66	-	-
Nebraska	0.30	0.60	-	-
New Mexico	0.15-0.25	0.75-0.90	0.45	0.66
Oklahoma	0.30	0.60	-	-
Utah	0.30-0.45	0.60-0.66	-	-

Organic price and yield is being requested for types PER and SED with the intended use of Fh. FSA may establish an organic average market price for a crop within a State to reflect the different price an organic crop receives. Organic average market prices may be based on RMA price if available, up to 145 percent of AMP without DAFP approval using other acceptable sources of organic price data. When establishing an organic price, a yield adjustment organic factor must also be established for the crop. (1-NAP (Rev. 2) subparagraph 278F and 276G)

Organic Factors by type:

State (Org/Tran Factor)	Org PER Fh	Tran PER Fh	Org SED Fh	Tran SED Fh	% of AMP
Colorado	0.75	0.75	0.75	0.75	144
Kansas	-	-	-	-	-
Nebraska	0.75	-	0.75	-	200
New Mexico	-	-	-	-	-
Oklahoma	-	-	-	-	-
Utah	-	-	-	-	-

Org=Organic, Tran=Transitional, AMP=Average Market Price

Direct market price is not being requested.

The final plant date is set at the county level. Final plant date will affect coverage as planting after that date decreases coverage. Final plant date should reflect the latest date the crop, type and intended use can be planted to reasonably expect normal production.

Final plant date by type and intended use:

State (Final Plant Date)	County	COM Fh	PER Fh	SED Fh	STR Fh	SUG Fh	COM Sd	SED Sd
Colorado	Crowley	06/05	-	06/05	-	-	06/05	06/05
Colorado	Las Animas	06/10	-	-	-	-	-	-

State (Final Plant Date)	County	COM Fh	PER Fh	SED Fh	STR Fh	SUG Fh	COM Sd	SED Sd
Colorado	Otero	06/05	06/05	06/05	-	-	06/05	06/05
Colorado	Pueblo	06/10	-	06/10	06/10	06/10	06/10	-
Colorado	Weld	06/10	-	06/10	-	06/10	-	-
Kansas	Multiple	05/25	05/25	05/25	05/25	05/25	-	-
Nebraska	Multiple	07/17	07/17	07/17	07/17	07/17	-	-
New Mexico	Multiple	04/30-08/15	-	04/30-07/15	04/30-07/01	-	08/15	-
Oklahoma	Multiple	06/20	-	06/20	06/20	06/20	-	-
Utah	Multiple	06/15	06/15	06/15	-	-	-	-

A normal harvest date is set at the county level. All counties with an approved NCT record for Watermelon in Colorado have an established harvest date of November 15. NAP coverage ends the earlier of date harvest was complete, abandonment of crop, destruction of the crop or normal harvest date. This will also determine the last day to timely file production and an application for payment. The normal harvest date should reflect the date that harvest is normally completed in the administrative county.

Normal harvest date by type and intended use:

State (Final Plant Date)	County	COM Fh	PER Fh	SED Fh	STR Fh	SUG Fh	COM Sd	SED Sd
Colorado	Crowley	11/15	-	11/15	-	-	11/15	11/15

New Mexico	Multiple	07/15-10/31	-	07/15-10/20	07/15-10/20	-	10/31	-
Oklahoma	Multiple	10/01	-	10/01	10/01	10/01	-	-
Utah	Multiple	10/15-10/31	10/15	10/31	-	-	-	-

The CEY should reflect the average production potential for a crop by county, by practice and intended use. STC should ensure that the yield information is comparable with previously approved yields and justify any deviations.

The AMP must reflect the in-field harvest price, and cannot include the costs associated with transportation, packaging, etc. STC should ensure that established average market prices are comparable with established FCIC prices in the State or surrounding States and that the established average market prices are using consistent data sources and/or are comparable with previously approved average market prices in the State or in surrounding States. The process used for establishing the AMP is also applicable when establishing direct and organic market prices.

2026 STO recommended yield and price.

Intended Use Key: CB=cannabidiol, DE= dry edible, FB=fiber, FG=forage, FH=fresh, GR=grain, NT=non-table, OL=oil, PR=processed, SD=seed, SG=silage, SO=sod, TB=table

See Exhibit for detailed information.

Discussion:

Should price for SED (seedless) Seed be higher than the COM. No data available, used same as prior years.

Executive Session

Supplemental Disaster Relief Program (SDRP)

2023 Ad Hoc NCT

Pueblo

Honey Tb

State Committee Discussion Record

Program: Supplemental Disaster Relief Program (SDRP)
Noninsured Crop Disaster Assistance Program (NAP)

Date: 02.10.26

Staff Member Presenting: Janae Rader, Farm Program Specialist

Matter for Consideration: 2024 NCT Ad Hoc record for Pueblo County on Honey (1190 Crop Code).

STC Recommended Action: Approve the 2024 NCT data for Honey as presented by STO.

Background: SDRP Stage 2 allows producers to apply for uninsured crops and units. Table Honey in Pueblo for 2024 was not an approved crop.

In 2023 the STO completed a major NCT cleanup for 2024 and future years. Based on STC guidance and DD concurrence the criteria used was no policies for that crop, type, intended use and/or no acreage certified on the FSA-578 in a county for the previous 5 years (19-23). In August of 2023 the Pueblo County Office was notified that honey was removed. In 2025 the COF requested that Honey be added back to the NCT as an eligible crop and was approved.

FSA has production history in Delta, Logan and Washington Counties, and honey is currently covered under Bent, Delta, Fremont, Garfield, Logan, Mesa, Otero, Ouray, Pueblo, Washington, Weld.

1-SDRP Draft Par 104 NCT Crop Data states that AdHoc Approval flags may be set and the following NCT data established for any NAP crop not previously approved in the NCT:

- unharvested payment factor
- prevented planted factors
- county expected yields (including historical yields) as applicable
- average market price (including historical yields)
- county disaster yield.

The requirement to establish a new crop record on the NCT 120 days before the NAP application closing date is waived for SDRP purposes.

Honey is not covered by (FCIC/RMA) insurance at a 50/55 level in any county in the Nation and is an insurable NAP crop.

The data used to determine the County Expected Yield (CEY) and Average Market Price (AMP) is determined using an Olympic Average of 5 most recent, consecutive crop years for which data is available. For 2024 the historical years used will be 2017-2021. Previously approved counties in Colorado have the same historical data used for 17-21. 17, 18 and 19 NCT data was based on NASS National, 20 and 21 data used a combination of NASS National and Colorado actual yields reported. The recommendation is to use the same yields approved for all other counties in 2024.

2017	2018	2019	2020	2021
43	48	46	28	28

The price has been previously set at 2.096 and will not be changed. As the price is set the same for the entire State and not County specific.

Honey has an established NCT record in all contiguous states: Arizona, Kansas, Nebraska, New Mexico, Oklahoma, Utah and Wyoming.

The Acreage reporting date is set at the State level. The acreage reporting deadline is January 2nd of the year of harvest according to 2-CP (Rev. 16) Exhibit 6.

The application closing date is set at the State level and was previously set for Honey as December 31st of the year prior to harvest.

County	Application Closing Date
Colorado	12/31
Arizona	12/31
Kansas	12/31
Nebraska	12/31
New Mexico	12/31
Oklahoma	12/31
Utah	12/31
Wyoming	12/31
RMA	-

Payment factors are set at the state level for a crop, type and intended use. The prevent plant (PP) and un-harvest (UH) factor was previously set. A prevented planting payment factor of zero will be set if the crop does not have a defined planting period and final planting date. The UH factor should be used to reflect the percentage of total production cost not incurred because harvesting did not take place. 1-NAP (Rev. 2) subparagraph 279 A STC will determine what percentage of total production cost would be expended if harvesting costs are excluded.

State	PP Factor	UH Factor
Colorado	0.00	0.85
Kansas	0.00	0.85
Nebraska	0.00	0.85
New Mexico	0.00	0.85
Oklahoma	0.00	0.85
Utah	0.00	0.85
Wyoming	0.00	0.85

Organic price is not being requested, since organic is not applicable no factors will be set.

Direct market price is not being requested.

A final plant date is not set as this is considered a perennial crop. Perennial crops are not covered under NAP until they are established.

A normal harvest date is set at the county level. All counties with an approved NCT record for Honey in Colorado have an established harvest date of December 31st. NAP coverage ends the earlier of: date harvest was complete, abandonment of crop, destruction of the crop or normal harvest date. This will also determine the last day to timely file production and an application for payment. The normal harvest date should reflect the date that harvest is normally completed in the administrative county.

State	County	Normal Harvest Date
Colorado	Bent	12/31
Colorado	Delta	12/31
Colorado	Fremont	12/31
Colorado	Garfield	12/31
Colorado	Logan	12/31

Oklahoma	Multiple	12/31
Utah	Multiple	12/01
Wyoming	Multiple	12/31

The CEY should reflect the average production potential for a crop by county, by practice and intended use. STC should ensure that the yield information is comparable with previously approved yields and justify any deviations.

The AMP must reflect the in-field harvest price, and cannot include the costs associated with transportation, packaging, etc. STC should ensure that established average market prices are comparable with established FCIC prices in the State or surrounding States and that the established average market prices are using consistent data sources and/or are comparable with previously approved average market prices in the State or in surrounding States. The process

used for establishing the AMP is also applicable when establishing direct and organic market prices.

2024 STO recommended yield for Pueblo Honey Tb.

MEMORANDUM

DATE: August 11, 2023

TO: Megan Colletti, CED
Pueblo County Office

FROM: Janae Rader, Program Specialist
Colorado State Office

Digitally signed by JANA E
RADER
Date: 2023.08.11
11:36:19 -06'00'

SUBJECT: Removal of crops from 2024 NCT and future years.

The crops, crop type, intended use and practices listed below will be removed from the 2024 NCT in Pueblo County. Following a NCT review, it was determined that there was an active policy in Pueblo County within the last 5 years (2019 through 2023), however, this crop has not been grown or had acreage certified in the county since 2018.

Pueblo	TURNIPS	HYB	FH	I	1

If the county office feels there is a need and reason for this crop to remain in the NCT, please respond by September 11, 2023. If the state office does not receive a response, the crop will be removed on September 11, 2023. After removal, a new crop request will need to be submitted according to 1-NAP (Rev. 2) CO Exhibit 2 if a producer files an application for coverage.

Please inform the producers that have NAP coverage in 2023 that it will not be available for 2024 in writing, document the communication in RFS and file a copy in the producers NAP folder. The 2023 summary of producers with coverage report can be used to easily identify the producers affected in your county.

If you have any questions, please contact Janae Rader, Farm Program Specialist, at (720) 544-2899 or Cindy Vukasin, Farm Program Chief, at (720) 544-2887.

[View History](#)

- immature fruit crops
- tobacco, grown in a county where Federal crop insurance is not available
- banana and plantain plants
- livestock
- timber.

I Eligible Trees, Bushes, and Vines for Stage 2

Perennial trees, bushes and vines grown for the commercial production of an annual crop intended for human consumption that were damaged or destroyed as a result of a qualified disaster event, or related conditions are eligible for benefits.

The corresponding crop that the tree, bush or vine produces must be listed in 2-CP and be a NAP eligible crop. For commercial crops that are not listed in 2-CP, STC's will ensure that additions are handled according to 2-CP. Follow procedure in 1-NAP (Rev. 2) to request NAP eligibility

J Ineligible Trees, Bushes and Vines for Stage 2

The following trees, bushes and vines are not eligible:

- perennial plants that are harvested for edible roots, such as ginseng or ginger are not eligible under the tree, bush and vine provisions but may be considered under production losses
- abandoned groves
- nursery plants, ornamental plants or plants grown for non-commercial purposes
- bananas and plantains
- trees grown for pulp or timber
- other trees, bushes, or vines not grown for commercial production of annual crops
- cucurbits (such as cucumbers, pumpkins, watermelons), and pineapple.
- nursery crops
- trees, bushes, and vines physically located in block grant states that are conducting their own state crop disaster program, which includes Connecticut, Hawaii, Maine, and Massachusetts.

Note: Nursery crops are included as eligible crops; however, nursery is not eligible under the tree, bush and vine provisions.

104

NCT Crop Data

A Establishing Crop Records

STO's are required to establish and approve crop data for use in 2023, 2024, and 2025 (2025 is only for crops that could have been impacted by a 2024 qualifying disaster event) NCT before program application and payment calculations can occur for eligible producers. All required crop data must be established for software to calculate payments for applicable application sections, including some FCIC crops.

Crop data must first be loaded and approved in the applicable year's NCT. A separate ADHOC approval flag is available and required in the 2023, 2024, and 2025 NCT for the crop data to be used for Stage 2.

The ADHOC approval flag is **required** for 2023, 2024, and/or 2025 crop year for:

- any NAP crop not previously approved in the NCT
- any RMA insured crops request to be included in the application.

The following data elements are required in the NCT for an ADHOC approval:

- unharvested payment factor,
- prevented planted factors,
- county expected yields (including historical yields) as applicable, and
- average market price (including historical prices)

Note: If there is an insurable price available for 2023 or 2024 for the record, it should populate as the price from the applicable year's insurability file.

- county disaster yield

Note: See 1-NAP for crop data policy and 3-NAP for NCT software

The requirement to establish a new crop record on the NCT 120 days before the NAP application closing date is waived for SDRP. The waiver does not allow modification of an existing NAP record by adding, deleting, or changing existing NAP data elements such as dates, prices, yields, payment factors, or planting periods. Additional planting periods for crops with an existing NAP crop record cannot be established.

Follow 3-NAP, paragraph 18 for the State Office NCT process for loading crop data for both production-based and value loss crops. However, the ADHOC approval should be used, rather than the NAP approval process.

B Pay Groups

Crop information will be entered into NCT by pay group, as required by the software, for the applicable crop year for eligible crops.

An RMA pay group will be established according to RMA pay crop and pay type codes and is identified by crop, crop type/practice, and intended use for insured crops that are not eligible for NAP coverage in the applicable state and county.

A NAP pay group will be established using FSA pay crop and pay type codes and is identified by crop, crop type, intended use, and planting period for eligible crops in the applicable state and county.

Note: Some pay crop and pay type codes differ by state and county, such as processing grapes.

105

D Ineligible Acreage

Ineligible acreage for SDRP Stage 2 includes, but is not limited to:

- acreage for which crop insurance or NAP coverage is not able to be purchased
- uninsured or uninsurable acres of a crop when the crop is insured
- grazed acreage covered by an annual forage policy of insurance
- prevented planted acreage of a federal insured crop
- prevented planted acreage of a NAP covered crop
- prevented planted acreage in tropical regions
- acreage that has documented evidence of lack of prevented planting
- acreage with intended use of grazing
- first year seeding of a perennial forage crop
- subsequently planted or subsequently prevented planted acreage that does not meet double-cropping rules
- acreage on which a qualifying cause of loss did not occur on any part of the unit.

Uninsurable - An example would be RMA covered the crop and not eligible for NAP or the crop is not determined

Example: Initial Planted - but double cropping not approved (and acreage with no qualifying cause of loss)

The producer in Knox County TX planted 150 acres of an initial crop of wheat, followed by 150 acres of cotton. A wildfire occurred in October 2024 and destroyed all 150 acres of the subsequent crop, cotton.

Cotton following wheat is not an approved double cropping combination for Knox County, TX. Therefore, cotton is not eligible for Stage 2 because the wildfire only affected the subsequent cotton crop.

E Prevented Planted Acreage

Prevented planting acres are eligible on qualifying losses for **uninsured crops only**.

Any prevented planting claims must be reviewed and acted on by COC for program benefits.

Prevented planting is **not** applicable to:

- tropical regions.
- NAP covered crops.
- insured crops
- value loss crops
- trees, bushes, and vines

COC must determine the prevented planting acreage credit according to 2-CP paragraph 37.

Acreage ineligible for prevented planted includes, but is not limited to, acreage:

- not planted because of a management decision

Note: Failure to plant when others in the area were planting will result in the denial of the prevented planting claim.

109-124 (Reserved)

Section 2 Stage 2 General Application Process

110 General Application Overview

A Overview

Producers eligible to receive Stage 2 assistance must:

- Contact the FSA county office to obtain and submit a completed FSA-504, Supplemental Disaster Relief Program (SDRP) Stage 2 application

Producers must apply for the crop and unit on the applicable section of FSA-504 that applies to the type of insurance or NAP coverage obtained for the crop and unit.

Note: a producer with an insured or NAP covered crop and unit cannot apply for that crop and unit as an uninsured loss.

Producers that apply for a crop and unit under the wrong section of FSA-504, will be disapproved by COC.

When RMA or FSA have determined a crop and unit ineligible for coverage (uninsurable) producers cannot apply for an uninsured loss for the uninsurable acres.

- Provide FSA-578, report of acreage according to paragraph 105.
- indicate the qualifying disaster event that caused, in whole or in part, the crop tree, or vine loss for the crop(s) and unit(s).

Note: Producers are responsible for reviewing the list of qualifying disaster events and related conditions. If a loss was due to drought, producers must also ensure that the county where the crop and unit was located meets the definition of “qualifying drought” as outlined in subparagraph 27 B.

- certify on FSA-504 they will meet the requirement to purchase crop insurance or NAP coverage, as applicable for the crop, at the 60/100 level of coverage or higher for the next 2 available crop years
- Review any pre-filled information, and if inaccurate, enter the correct information on FSA-504 in SDRP Producer Certification block(s).
- Provide required documentation to support information entered on FSA-504
- Payments will be issued to the primary policyholder and to any SBI producer(s) with a share in the crop identified on the FSA-504 provided all signature and eligibility requirements are met.

- $\text{SDRP Stage 2 payment} = (\text{Calculated loss} - \text{potential NAP payment (if greater than zero)} + \text{premium} + \text{service fee}) \times 35 \text{ percent payment factor.}$

SDRP liability is determined by FSA which calculates the expected revenue using acres x yield x price and multiplying the applicable SDRP factor. If the producer has a disagreement with this number, he/she will need to work with the FSA.

E Value Loss Crops – Without an Approved Application for Payment

The following illustrates the Stage 2 payment calculation for a loss of a value loss NAP covered crop without a previously approved application for payment:

- $\text{Calculated Loss} = (\text{Dollar Value Before Disaster} \times \text{SDRP Factor}) - \text{Dollar Value After Disaster} \times \text{stage factor} - \text{salvage value} \times \text{FSA share}$
- $\text{Potential NAP Payment} = (\text{Dollar Value Before Disaster} \times \text{NAP Coverage Level}) - \text{Dollar Value After Disaster} \times \text{stage factor} - \text{salvage value} \times \text{NAP price election} \times \text{FSA share}$
- $\text{SDRP Stage 2 payment} = (\text{Calculated loss} - \text{potential NAP payment (if greater than zero)} + \text{premium} + \text{service fee}) \times 35 \text{ percent payment factor.}$

SDRP liability is determined by FSA which calculates the expected revenue using inventory before disaster x the applicable SDRP factor. If the producer has a disagreement with this number, he/she will need to work with the FSA.

248 Uninsured Producers

A Overview

There are three payment calculations for uninsured crops. These will include crops covered under:

- APH/Yield based crops
- Value loss crops
- Trees, bushes, and vines.

B APH/Yield Based Crops

The following illustrates the Stage 2 payment calculation for a loss of an uninsured yield-based crop:

- $\text{SDRP liability} = \text{Eligible acres} \times \text{county expected yield} \times \text{average market price} \times \text{SDRP factor of 70 percent}$
- $\text{Calculated loss} = (\text{SDRP liability} - (\text{production} \times (1 - \text{quality loss percentage}) \times \text{average market price} \times \text{unharvested or prevented payment factor if applicable}) - \text{salvage value}) \times \text{the producer's share}$

$\text{SDRP Stage 2 payment} = \text{Calculated loss} \times 35 \text{ percent payment factor}$

Unharvested payment factor - a percentage established by FSA for a crop and applied in a payment formula to reduce the payment for reduced expenses incurred because commercial harvest was not performed.

Uninsurable - When RMA or FSA have determined a crop and unit ineligible for coverage.

Uninsured - a crop that was not covered by crop insurance or NAP for the crop year for which a payment is being requested under this subpart.

Exhibit 2

Definitions of Terms Used in This Handbook

Administrative Fee

Administrative fee means the amount an insured producer paid for catastrophic risk protection and additional coverage for each crop year as specified in the applicable crop insurance policy.

Aquaculture

Aquaculture means any species of aquatic organisms grown as food for human or livestock consumptions or for industrial or biomass uses, fish raised as feed for fish that are consumed by humans, and ornamental fish propagated and reared in an aquatic medium. Eligible aquaculture species must be raised by a commercial operator and in water in a controlled environment.

Average Adjusted Gross Income (AGI)

Average AGI means the average of the adjusted gross income as defined under 26 U.S.C. 62 or comparable measure of the person or legal entity for the base period.

Bush

Bush means a low, branching, woody plant, from which, at maturity of the bush, an annual fruit or vegetable crop is produced for commercial market for human consumption, such as a blueberry bush. The definition does not cover nursery stock or plants that produce a bush after the normal crop is harvested.

Catastrophic Coverage

Catastrophic coverage has the same meaning as in 7 CFR 1437.3.

Coverage Level

Coverage level means the percentage determined by multiplying the elected yield percentage under a crop insurance policy or NAP coverage by the elected price percentage.

Crop Insurance Indemnity

Crop insurance indemnity means the payment to a participant for crop losses covered under crop insurance administered by RMA in accordance with the Federal Crop Insurance Act (7 USC 1501-1524).

52 Eligible Crops (Continued)**A Eligible Crops for NAP Assistance (Continued)**

- crop planted and grown for livestock consumption, including but **not** limited to, grain and seeded and native forage crops

Note: Eligible forage on Federal- and State-owned land includes both seeded and unseeded forage acreage.

- floriculture crop
- ginseng crop
- industrial crop, including industrial crops grown expressly for the purpose of producing a feedstock for renewable biofuel, renewable electricity, or biobased products
- honey
- maple sap
- mushrooms
- ornamental nursery
- sea oats and sea grass
- seed crops and/or commodities * * *
- turfgrass sod.

53 Ineligible Crops**A Ineligible Crops for NAP Assistance**

*--Crops ineligible for NAP assistance include, but are **not** limited to:--*

- crop acreage for which * * * crop insurance coverage, **excluding** pilot crop insurance, is available in the county

Notes: * * *

--See Exhibit 5 to determine crops covered by FCIC using RMA web sites.--

* * *

- by-products resulting from processing or harvesting an eligible crop, such as peanut hay, oat straw, corn stover, wheat straw, etc.
- nonornamental nursery plants, such as strawberry plants, orange trees, etc., unless the plants can be considered a propagation seed crop under paragraph 907

53 Ineligible Crops (Continued)

A Ineligible Crops for NAP Assistance (Continued)

- home gardens or crops **not** being produced for commercial sale
- experimental crops
- volunteer stands, **except** native forage
- livestock and their by-products
- trees grown for lumber or paper products
- first year seeded biennial and perennial forage
- immature orchards
- crops that STC has determined cannot practicably or viably be grown commercially in the area
- replacement crop acreage planted after approved prevented planted or failed crop acreage, in the same crop year
- *--crops where RMA has determined a practice is not insurable.

Example: Irrigated soybeans **not** following another crop (initial crop) are insurable in Garvin County. However, nonirrigated soybeans and soybeans following another crop are **not** insurable in Garvin County. Therefore, NAP **cannot** be offered for nonirrigated soybeans or soybeans following another crop (double-crop) in Garvin County, because RMA has determined that nonirrigated soybeans and soybeans following another crop are **not** insurable practices.--*

If crop insurance is available for a particular crop, type, and intended use in the county, then in **all** cases NAP **cannot** be offered within that county for any practice of that crop (irrigated, nonirrigated, summer fallow, and continuous crop), unless an exception in subparagraph B applies.

* * *

Note: See * * * paragraph 380 for maintaining ineligible crop acreage, honeybee colonies, and tree taps in SNAPP.

Executive Session

Emergency Commodity Assistance Program (ECAP)

Equitable Relief – Misaction/Misinformation

Bent – Loyal and Ilene Stephens Revocable Trust

State Committee Discussion Record**Program: Emergency Commodity Assistance Program (ECAP)****Date: 2/10/2026****Staff Member Presenting:** Julie Sporhase

Matter for Consideration: The Bent County Committee (COC) is requesting Equitable Relief on a 2024 ECAP application in the amount of \$3803.74 for the Loyal and Ilene Stephens Revocable Trust.

Recommendation:

Misaction/Misinformation standards have been met; the error was clearly made by the COF; the producer filed their application timely, but the corrections required by Notice ECAP-2 were not completed and a new producer signature was not obtained by the COF by the August 15, 2025, deadline. It is recommended STC approve the equitable relief request for the Loyal and Ilene Stephens Revocable Trust.

Background:

ECAP provided a 1-time economic assistance payment to eligible applicants of an eligible commodity for the 2024 crop year when an economic loss is determined. These payments helped farmers of eligible commodities cope with increased costs and falling commodity prices, allowing them to pay down debt relative to the 2024 crop and obtain financing for the 2025 crop year. The deadline for ECAP was August 15, 2025, for subsequent commodities. Payment eligibility documents must be submitted by August 17, 2026. On April 9, 2025, per Notice ECAP-2 corrections were completed by the Bent County Office to status codes in the acreage reporting software, the crop was triticale followed by corn and was initially entered with a “J” code which indicates it was a covered commodity followed by another covered commodity. The correct crop code should have been “M”, a noncovered commodity followed by a covered commodity. “M” coded crops were eligible for ECAP while “J” codes were not. On June 24, 2025, the trust timely submitted a signed ECAP application, this application was run and provided to the producer prior to April 9, 2025, therefore not covering the changes made by the county office. County Executive Director (CED) Hallie Barlow reviewed the application and discovered the missing acres and reverted the application back to the Program Analyst with instructions to update the application and obtain a new producer signature. In December 2025 the CED noticed the application was in an initiated status and recalled the needed changes. She tracked down the ECAP folder in the office and discovered the application had not been updated nor sent to the producer to obtain a new signature before the ECAP deadline of August 15, 2025.

Discussion:

- Producer submitted an ECAP application according to 1-ECAP policy and believed all other required documentation was filed timely prior to the August 15, 2025, deadline
- Under Misaction/Misinformation provisions

- participant demonstrated a good faith effort and complied with program deadlines for both the application and payment eligibility provisions
- participant relied on information provided by the COF that a valid ECAP application was timely filed, participant did not have reason to question the validity of that information
- CED discovered the COF failed to update and obtain signature on the ECAP application as instructed after the program deadline
- After reviewing the updated application, it was noted the producer would be eligible for additional payment due to the updates made according to Notice ECAP-2
- participant meets all applicant eligibility including foreign person regulations, maintaining risk and control of an eligible commodity and acreage reporting provisions
- \$3803.74 is within the STC authority of \$5000.00, STC can make a decision on the equitable relief request.

In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotape, American Sign Language, etc.) should contact the State or local Agency that administers the program or contact USDA through the Telecommunications Relay Service at 711 (voice and TTY). Additionally, program information may be made available in languages other than English.

To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD-3027, found online at <https://www.usda.gov/sohsc/how-to-file-a-program-discrimination-complaint> and at any USDA office or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by (1) mail: U.S. Department of Agriculture, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue, SW, Mail Stop 9410, Washington, D.C. 20250-9410; (2) fax: (202) 690-7442; or (3) email: program.intake@usda.gov. USDA is an equal opportunity provider, employer, and lender.

FSA 321 Continuation 2024 Emergency Commodity Assistance Program (ECAP)

Finality Rule and Equitable Relief Mis-action and Programmatic Relief

Loyal and Ilene Stephens Revocable Trust

107 E 6th Street

Las Animas, CO 81054

9A. Fully Describe the Error:

On April, 9 2025 per ECAP-1, correction to the FSA-578 was completed by the county office to the status codes for corn. The field that was corrected was triticales followed by corn. The initial status code entered on the FSA-578 for the corn was “J” Code for cover commodity followed by a covered commodity. The correct code that should have been entered was “M” (non covered commodity followed by a covered commodity or VV). Original application 276929 was initiated, printed and received by producer prior to April 9, 2025. On June 24, 2025, Troy Stephens submitted original Emergency Commodity Assistance Program (ECAP) application 276929 that was received for Loyal and Ilene Stephens Revocable Trust that was printed prior to April 9, 2025 changes. After review of the application I (CED) reverted the application back to the Program Analyst to collect a new application and signature from Loyal and Ilene Stephens Revocable Trust as the information had changed on the application from what was in the computer due to the crop status code change completed by the office.

10.State the circumstances under which the discovery of the error was made

In December 2025, I (CED) was looking through reports and noticed that Loyal and Ilene Stephens Revocable Trust ECAP application was still in an initiated status. I went to the file folders and pulled the folder for Loyal and Ilene Revocable Trust. It had a note on the front of the folder “needs new signature on updated numbers” . Troy Stephens, signature authority for Loyal and Ilene Stephens Revocable Trust, is a local producer that is typically responsive when the office contacts him for items. In looking through the folder, a new application was not completed by the county office with changes that were completed in April 9, 2025 after I reverted the application back to the Program Analyst for new signature.

Privacy Act Statement: The following statement is made in accordance with the Privacy Act of 1974 (5 USC 552a – as amended). The authority for requesting the information identified on this form is the American Relief Act, 2025 (Pub. L. 118-158). The information will be used to determine eligibility to participate in and receive benefits under the Emergency Commodity Assistance Program. The information collected on this form may be disclosed to other Federal, State, Local government agencies, Tribal agencies, and nongovernmental entities that have been authorized access to the information by statute or regulation and/or as described in applicable Routine Uses identified in the System of Records Notice for USDA/FSA-2, Farm Records File (Automated). Providing the requested information is voluntary. However, failure to furnish the requested information will result in a determination of ineligibility to participate in and receive benefits under the Emergency Commodity Assistance Program.

Public Burden Statement: According to the Paperwork Reduction Act requirement, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0503-0028. The time required to complete this information collection is estimated to average 5 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden by emailing to: askusda@usda.gov (OMB NO. 0503-0028).

Non-Discrimination Statement: In accordance with Federal civil rights law and USDA civil rights regulations and policies, the USDA, its agencies, offices, and employees participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotope, American Sign Language, etc.) should contact the responsible agency or USDA's TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339. Additionally, program information may be made available in languages other than English.

To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD-3027, found online at <https://www.usda.gov/oascr/how-to-file-a-program-discrimination-complaint> and at any USDA office or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by: (1) mail: U.S. Department of Agriculture Office of the Assistant Secretary for Civil Rights 1400 Independence Avenue, SW Washington, D.C. 20250-9410; (2) fax: (202) 690-7442; or (3) email: program.intake@usda.gov.

Commodity Summary

Commodity Name	Commodity Calculated Payment Amount	Payment Factor	Commodity Calculated Gross Payment Amount	Program Factor	Factored Commodity Calculated Gross Payment Amount
CORN	\$2,416.26	0.8500	\$2,053.82	1.0000	\$2,053.82

Total Gross Payment: \$2,053.82

Factored Gross Payment: \$2,053.82

Important Information:

If all required forms are not filed by the required deadline, applicants may forfeit their request to receive payment.

The ECAP program has a maximum payment limitation of \$125,000 unless an income certification is filed on the CCC-943 75% OF AVERAGE GROSS INCOME FROM FARMING, RANCHING, OR FORESTRY CERTIFICATION. If a CCC-943 is on file, ECAP has a maximum payment limit of \$250,000. For customer types of General Partnership or Joint Venture, payment limitations are calculated at the member level instead of a single limit at the payment entity level. To determine the customer type, please review Part B of the CCC-902 on file in the Service Center.

Calculation Explanation:

Commodity Calculated Payment Amount: Determined by the Payment acres times the Payment Rate.

Notes:

The payment acres are either the reported acres or other adjusted acres. If COC acres are present, those acres will supersede and will be used as the payment acres in the commodity calculated payment amount.

The Payment rate is the greater of the economic loss rate at 26% or the 8% minimum Payment rate.

Commodity Calculated Payment Gross Payment Amount: Commodity Calculated Payment Amount times Payment Factor.

Factored Commodity Calculated Gross Payment: Commodity Calculated Gross Payment Amount times Program Factor.

Total Gross Payment: Total of Commodity Calculated Gross Payment Amounts.

Factored Gross Payment: Total of all Factored Commodity Calculated Gross Payment Amounts.

Disclaimer:

The Factored Gross Payment Amount is determined prior to applying any producer or payment reductions. The payment data reflected on this Estimated Calculated Payment Report includes payment amounts based on program eligibility and may vary due to changes in commodity data, producer eligibility, producer or member payment share, payment rates, factors, and payment limitation.

The distribution of this report does not in any way obligate CCC to disburse the estimated payment amounts reflected.

CERTIFICATION: I certify to the best of my knowledge and belief that the acreage of crops/commodities and land uses listed herein are true and correct and that all required crops/commodities and land uses have been reported for the farm(s) as applicable. Absent any different or contrary prior subsequent certification filed by any producer for any crop for which NAP coverage has been purchased, I certify that the applicable crop, type, practice, and intended use is not planted if it is not included on the Report of Commodities for this crop year. The signing of this form gives FSA representatives authorization to enter and inspect crops/commodities and land uses on the above identified land. A signature date (the date the producer signs the FSA-578) will also be captured.

Producer's Signature (By)	Title/Relationship of Individual Signing in the Representative Capacity	Date

n accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, gender identity (including gender expression), sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotape, American Sign Language, etc.) should contact the responsible Agency or USDA's TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339. Additionally, program information may be made available in languages other than English.

To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD-3027, found online at http://www.ascr.usda.gov/complaint_filing_cust.html and at any USDA office or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by: (1) mail: U.S. Department of Agriculture Office of the Assistant Secretary for Civil Rights 1400 Independence Avenue, SW Washington, D.C. 20250-9410; (2) fax: (202) 690-7442; or (3) email: program.intake@usda.gov. USDA is an equal opportunity provider, employer, and lender.

Privacy Act Statement: The following statement is made in accordance with the Privacy Act of 1974 (5 USC 552a – as amended). The authority for requesting the information identified on this form is the American Relief Act, 2025 (Pub. L. 118-158). The information will be used to determine eligibility to participate in and receive benefits under the Emergency Commodity Assistance Program. The information collected on this form may be disclosed to other Federal, State, Local government agencies, Tribal agencies, and nongovernmental entities that have been authorized access to the information by statute or regulation and/or as described in applicable Routine Uses identified in the System of Records Notice for USDA/FSA-2, Farm Records File (Automated). Providing the requested information is voluntary. However, failure to furnish the requested information will result in a determination of ineligibility to participate in and receive benefits under the Emergency Commodity Assistance Program.

Public Burden Statement: According to the Paperwork Reduction Act requirement, an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0503-0028. The time required to complete this information collection is estimated to average 5 minutes per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden by emailing to: askusda@usda.gov (OMB NO. 0503-0028).

Non-Discrimination Statement: In accordance with Federal civil rights law and USDA civil rights regulations and policies, the USDA, its agencies, offices, and employees participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotope, American Sign Language, etc.) should contact the responsible agency or USDA's TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339. Additionally, program information may be made available in languages other than English.

To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD-3027, found online at <https://www.usda.gov/oascr/how-to-file-a-program-discrimination-complaint> and at any USDA office or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by: (1) mail: U.S. Department of Agriculture Office of the Assistant Secretary for Civil Rights 1400 Independence Avenue, SW Washington, D.C. 20250-9410; (2) fax: (202) 690-7442; or (3) email: program.intake@usda.gov.

USDA is an equal opportunity provider, employer, and lender.

ECAP - ECAP - Estimated Calculated Payment Report

**United States Department of
Agriculture
Farm Service Agency
2024 Emergency Commodity
Assistance Program
Estimated Calculated Payment
Report**

FSA-63 ECAPE

Date: 12/15/2025

State:
Colorado
County: Bent

Applicant Name: LOYAL AND ILENE
STEPHENS
REVOCABLE
TRUST

Application Number: 276929
Application Approved: No

Eligible Planted Acres

Commodity Name	Reported Acres	COC Adjusted Acres	Other Adjusted Acres	Payment Acres	Payment Rate	Commodity Calculated Payment Amount
CORN	89.5400	-	-	89.5400	\$42.91	\$3,842.16

Prevent Plant Acres

Commodity Name	Reported Acres	COC Adjusted Acres	Other Adjusted Acres	Payment Acres	Payment Rate	Commodity Calculated Payment Amount
CORN	0.0000	-	-	0.0000	\$42.91	\$0.00

Commodity Summary

Commodity Name	Commodity Calculated Payment Amount	Payment Factor	Commodity Calculated Gross Payment Amount	Program Factor	Factored Commodity Calculated Gross Payment Amount
CORN	\$3,842.16	0.9900	\$3,803.74	1.0000	\$3,803.74

Total Gross Payment: \$3,803.74**Factored Gross Payment: \$3,803.74****Important Information:**

If all required forms are not filed by the required deadline, applicants may forfeit their request to receive payment.

The ECAP program has a maximum payment limitation of \$125,000 unless an income certification is filed on the CCC-943 75% OF AVERAGE GROSS INCOME FROM FARMING, RANCHING, OR FORESTRY CERTIFICATION. If a CCC-943 is on file, ECAP has a maximum payment limit of \$250,000. For customer types of General Partnership or Joint Venture, payment limitations are calculated at the member level instead of a single limit at the payment entity level. To determine the customer type, please review Part B of the CCC-902 on file in the Service Center.

Related Procedure:**1-ECAP****6 ECAP General Provisions and Policies****A Equitable Relief and Finality Provisions**

Equitable relief and finality provisions in 7-CP apply.

Par. 24

Part 2 ECAP Eligibility Policy and Provisions**24 ECAP Eligibility Requirements****A Applicant Eligibility**

To be eligible for ECAP, the applicant must:

- have an interest in input expenses for a covered commodity
- have reported acreage of eligible commodities to FSA on FSA-578
- report acres that were prevented from being planted to FSA using CCC-576, if applicable
- be 1 of the following:
 - citizen of the United States
 - resident alien, which for purposes of ECAP, means “lawful alien” as defined in 7 CFR 1400.3
 - partnership organized under State law
 - corporation, LLC, or other organizational structure organized under State law
 - Indian Tribe or Tribal organization, as defined in section 4(b) of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 5304)
 - foreign person or foreign entity who meets all requirements as described in 7 CFR Part 1400.

Notes: The regulations in 7 CFR Part 1400, subpart E, are applicable to foreign persons and legal entities (foreign and domestic) containing members, stockholders, or partners who are not U.S. citizens or resident aliens who own more than 10 percent of the legal entity.

Ownership interest does not mean interest as a landowner. In this context, ownership interest means the ownership share percentage in the planted or prevented planted acreage of the eligible commodity for program year 2024.

See 6-PL, Part 5, Section 11, for additional information on foreign person provisions.

Par. 25

25 Eligible Acreage (Continued)**B Acreage Requirements**

Eligible acreage must:

- be physically located in the United States or territories
- be reported on FSA-578 for program year 2024
- if prevented, have CCC-576 on file for program year 2024.

Eligible acres of a commodity are equal to the sum of the following:

- acreage planted to an eligible commodity for harvest, grazing, haying, silage, or other similar purposes for the 2024 crop year
- 50 percent of the acreage that was prevented from being planted during the 2024 crop year to an eligible commodity because of drought, flood, or other natural disaster, or other condition beyond the producer's control on the farm, as determined by the Secretary.

Acreage that is reported or determined in CARS will be used to calculate eligible acreage.

C Acreage Reports

Producers are required to file acreage reports for all crops for which they are requesting ECAP benefits. The automated FSA-63 ECAP will interface with CARS to pre-populate the producer's eligible acres on FSA-63 ECAP.

*--Acreage reports:

- may already be on file with FSA
- may be late-filed according to 2-CP
- were accepted **for ECAP purposes only until August 15, 2025.--***

Changes to the 2024 CARS data may adversely impact other program payments, such as ARC/PLC, LFP, NAP, or MAL's and LDP's.

For late-filed acreage reports for **ECAP purposes only**:

- producers will sign FSA-578 certifying to reported acreage
- County Offices will load acreage in CARS but will **not** certify in CARS

Note: If farm records are not established, County Offices will establish CRM Farm Records according to 10-CM.

Part 3 Application Process

41 Signup

A ECAP Signup

Producers must submit a completed FSA-63 ECAP for their entire operation nationwide before the end of the application period. The application period for 2025 began on *--March 19, 2025, and ends August 15, 2025. For producers that have eligible acres of subsequent commodities the deadline to apply for the subsequent commodities is September 30, 2025.--*

Note: Producers cannot alter prefilled data items on FSA-63 ECAP. See paragraph 43 for policy on revising FSA-63 ECAP's.

B FSA-63 ECAP Adjustments

Acreage that is listed as a multi-use on FSA-63 ECAP, item 13 must be adjusted to ensure that all involved applicants are not paid in excess of the physical acres reported with a multiple intended use. Not every FSA-63 ECAP will need an adjustment; however, at least 1 applicant related to the multiple intended use report of acres will have a reduction to ensure that physical acres are not overpaid.

Acreage that is part of a short-rated small grain and subsequent crop combination will need an adjustment on FSA-63 ECAP, item 13. Applicants that use FCIC small grain crop provisions will need to add the acreage of the subsequent eligible commodity to FSA-63 ECAP manually.

*--Any adjustment made for a short-rated small grain and subsequent crop combination must be re-evaluated if the applicant modifies the application due to updated subsequent acreage eligibility after August 15, 2025.

Initial acreage of eligible commodities not enrolled by August 15, 2025, is not eligible for payment. Only subsequent acres are eligible for payment after August 15, 2025. Acreage of initially eligible commodities added to an application after August 15, 2025, must be downward adjusted by COC before approval.--*

C Signing FSA-63 ECAP

By signing FSA-63 ECAP, the applicant listed on FSA-63 ECAP is:

- applying for an ECAP payment
- certifying that all information provided on FSA-63 ECAP is true and correct
- agreeing to comply with regulations in 28 U.S.C. and 18 U.S.C.

Note: Any FSA-63 ECAP that was printed or signed from the National Office BOX folder titled "Emergency Commodity Assistance Program (ECAP) – Data as of 03-10-2025" must be re-signed by the applicant by April 30, 2025.

42 **Reviews and Approvals**

Par. 42

A Reviewing and Processing FSA-63 ECAP

The recording COC is responsible for acting on all FSA-63 ECAP's within 30 calendar days of submission. Before approving FSA-63 ECAP's, COC or designee must take the following actions.

Step	Action
1	Confirm the applicant has signed FSA-63 ECAP correctly. Follow 1-CM for the applicant's signature.
2	Determine the applicant's overall eligibility according to paragraph 24.
3	Confirm FSA-63 ECAP was received or postmarked by the end of the application period.

B Delegation of Authority

The authority to approve routine FSA-63 ECAP's may be redelegated in writing by COC to CED, according to 16-AO, except forms and documents in which CED has a monetary interest.

Routine cases do not include FSA-63 ECAP's with multiple intended use commodities, subsequent acreage of ECAP commodities that follow a short-rated small grain, or FSA-63 ECAP's related to acreage report revisions, late-filed acreage reports, or corrections.

IF the applicant is...	THEN approval authority is...
federal or non-federal State or County Office employee	CED.
COC member	
DD	
SED	
STC member	
CED	COC.
any producer in a recording County Office	

42 **Reviews and Approvals (Continued)****C Approval Process**

If all program eligibility requirements are met and COC or delegate has determined that the information on FSA-63 ECAP is reasonable and accurate, COC or delegate will approve FSA-63 ECAP and thoroughly document approval in the COC meeting minutes.

Notes: COC may redelegate authority to CED to review and approve routine FSA-63 ECAP's. All adverse actions must go to COC for review.

Completing eligibility forms (such as AD-1026, CCC-901, and CCC-902) is not a condition of approval. However, these forms must be filed within 1 year from the date of the application deadline. Failure to timely provide all eligibility forms may result in no payment or a reduced payment.

If COC determines a COC adjustment is needed for the acreage in FSA-63 ECAP, item 12 or 15, COC will document the adjustment in the COC meeting minutes and provide notification to the applicant. If the acreage is decreased with the adjustment, proper appeal rights must be given.

Example: A producer late files a prevented planted acreage report. COC disapproves the notice of loss, and determined acres were not loaded into the CARS software. The decreased acreage is loaded into FSA-63 ECAP, item 15 before COC signs the approval.

D Disapproval Process

COC may disapprove FSA-63 ECAP for any of the following reasons:

- person or legal entity applying for ECAP is determined to be an ineligible producer according to subparagraph 24 A
- producer did not provide sufficient documentation to support the share of acreage claimed when requested by COC
- signature requirements were not met according to 1-CM
- FSA-63 ECAP was submitted or postmarked after the announced signup deadline.

Notice ECAP-2

Notice ECAP-2

2 Incorporating Eligible Subsequent Acres

A Eligible Subsequent Acreage

[90 FR 40050](#), published August 18, 2025, expanded the ECAP payments to include subsequent acres of eligible commodities reported as of August 15, 2025, for crop year 2024. Eligible commodities with the following combinations of primary and secondary status codes identified in 2-CP (Rev. 16), paragraph 74 listed in the following table are now eligible for ECAP payment.

J	H
JF	HF
JP	HP
O	N
OF	NF
OP	NP
K	KF
KP	

B Revising Applications to Include Subsequent Acreage

A producer must contact the County Office and request to include these additional eligible subsequent acres on their FSA-63 ECAP.

Once notified, County Office users will:

- enter the ECAP software
- select the producer from the application selection screen
- CLICK “Edit”.

The additional acreage will be pulled from CARS and automatically added to the application. The following message will display.

 **Warning**

Please review Eligible Planted Acres/Eligible Prevent Plant Acres and update the application if applicable. Please click 'Save or Save and Continue' to save the changes.

- Eligible Planted Acres for WHEAT has changed from 15.0200 to 76.1200.
- Eligible Planted Acres/Eligible Prevent Plant Acres for MUSTARD SEED has been added.

- review the application
- CLICK “Save” or “Save and Continue”.

7-CP

Par. 44

44 Misaction/Misinformation**A Overview**

Equitable relief may be considered and granted according to this paragraph to participants in covered programs that acted or failed to act based on a detrimental reliance on incorrect program information, action, or advice of an authorized FSA representative.

A finding that erroneous action or information of or from an authorized FSA representative may have occurred does **not** necessarily mean that the error warrants extending relief. As provided in subparagraph B, relief under the misaction/misinformation provisions can only apply if there was also a detrimental reliance by a participant and the participant had no reason to know or question that the action or advice of the FSA representative was in error. The provision does **not** apply to cases where a participant acted or failed to act based on the participant's own misunderstanding, lack of information or advice, or assumptions.

Note: The individual responsible for conveying the erroneous program information or who acted wrongly must be identified on FSA-321, item 9B before relief can be considered.

B Regulatory Language

*--[7 CFR 718.303] **Reliance on incorrect actions or information.**

- (a) Notwithstanding any other law, if an action or inaction by a participant is based upon good faith reliance on the action or advice of an authorized representative of an FSA county or State committee, and that action or inaction results in the participant's noncompliance with the requirements of a covered program that is to the detriment of the participant, then that action or inaction still may be approved by the Deputy Administrator as meeting the requirements of the covered program, and benefits may be extended or payments made in as specified in §718.305.
- (b) This section applies only to a participant who:
 - (1) Relied in good faith upon the action of, or information provided by, an FSA county or State committee or an authorized representative of such committee regarding a covered program;
 - (2) Acted, or failed to act, as a result of the FSA action or information; and
 - (3) Was determined to be not in compliance with the requirements of that covered program.
- (c) This section does not apply to cases where the participant had sufficient reason to know that the action or information upon which they relied was improper or erroneous or where the participant acted in reliance on their own misunderstanding or misinterpretation of program provisions, notices or information.--*

Par. 44

44 Misaction/Misinformation (Continued)**B Regulatory Language (Continued)**

Relief under misaction/misinformation can be considered only if **all** of the following apply:

- an authorized FSA representative provided incorrect information or advice or incorrectly acted
- a participant relied, to their detriment, on that incorrect information, advice, or action
- it was reasonable for the participant to have detrimentally relied upon the erroneous information, advice, or action and the participant did **not** have any reason to know, suspect, or question that the information, advice, or action was inappropriate.

Generally, FSA's failure to publicize program information is **not** the same as providing or issuing incorrect information or misinformation. When reviewing cases, the reviewing authority must determine whether the participant demonstrated a good faith effort to comply and whether the participant had any **reason** to know that the advice or action relied on was incorrect.

Note: See [Exhibit 2](#) for definitions of "clean hands" and "reason to know".

C Areas Not Subject to Misaction/Misinformation Equitable Relief

Equitable relief under misaction/misinformation provisions do **not** apply to the following:

- FLP's carried out under the Consolidated Farm and Rural Development Act
- programs **not** administered by FSA

Example: NRCS has primary responsibility for EQIP. NRCS will administer EQIP without any regard to FSA's equitable relief provisions.

- cases where an FSA representative cannot be identified as having erred or provided erroneous program information or advice on which a detrimental reliance claim could possibly be made or alleged

Example: A participant alleges that the participant asked an FSA employee if there was anything else the participant needed to sign or do before leaving the office. The participant alleges that the FSA employee responded by saying "no".

44 Misaction/Misinformation (Continued)

Par. 44

C Areas Not Subject to Misaction/Misinformation Equitable Relief (Continued)

FSA can only “assist” participants with enrollment. An FSA employee cannot enroll a participant’s farm without the participant knowing or having reason to know that enrollment occurred. Participants are responsible for enrollment and only a participant can enroll the participant’s own farm. Additionally, the deadline for enrollment may be included in published regulations and in widely publicized public forums, postings in USDA Service Centers, newsletters, internet, press announcements, etc. Therefore, in this example, the participant has “reason to know” (remember, the “reason to know” is the test; not the participant’s actual degree of knowledge) of their own actions or inactions, whether they themselves personally enrolled or not, as well as having access to information about the deadline for enrollment.

In this example, while a person may interpret an FSA employee saying “no” in response to the question of whether there was anything else required as a communication from FSA that the person has already enrolled, the test under misaction/misinformation is whether there was any actual incorrect program information or advice conveyed directly to the participant by FSA, and whether the participant had any reason to know that the conveyed program information was incorrect. In this instance, FSA did **not** say or convey any incorrect information. Additionally, it appears the participant relied on the participant’s own understanding of the information conveyed. If on the other hand, the FSA employee had stated that the participant had up to 3 weeks later to sign up, this communication might be considered a basis for a valid misaction/misinformation claim or request, provided the participant had no reason to question that advice or information and the participant acted to the participant’s own detriment on reliance on that incorrect information (came in before COB within 3 weeks of the deadline).

- cases where the participant had reason to know or question the erroneous program information or advice
- cases where there was no detrimental reliance by the participant who was the direct recipient of incorrect program information or advice
- producers who acted based on their own interpretations, misunderstandings, assumptions, of program information or advice.
