

Colorado State Committee Meeting – April 23, 2026

Executive Session Minutes

Meeting Time: 9:02 AM

Meeting Place: Colorado State Office
Denver Federal Center
Lakewood, CO 80225

and

Via TEAMS

Members Present: Don Brown, Chairperson
Darrell Mackey, Member (Via Teams)
Kyle McConnell, Member (Via Teams)
Steve Raftopoulos, Member (Via Teams)
Joe Petrocco, Member (Via Teams)

Staff Present: Jerry Sonnenberg, State Executive Director
Jon Weishaar, Deputy State Executive Director
Corey Pelton, Farm Program Chief (Via Teams)
Janae Rader, Farm Program Specialist (Via Teams)
Doug Andresen, Farm Program Specialist (Via Teams)
Hunter Cleveland, Farm Program Specialist (Via Teams)
Julie Sporhase, Farm Program Specialist (Via Teams)
Woody Woods, District Director (Via Teams)
Scott Brase, District Director (Via Teams)
Sam Montoya, District Director (Via Teams)
Dara Belew (Via Teams) for Otero COC actions only

Guests: CRP Appeal at 9:30 a.m. (Only)
John Ebright (Via Teams)
Stephanie Ebright (Via Teams)
Christine DeMoss (Via Teams)

LDP Appeal at 11:00 a.m. (Only)
Abby Rule (Via Teams)

NAP Appeal at 1:00 p.m. (Only)
Joeseeph Proctor (Via Teams)
Christine Demoss (Via Teams)

NAP Appeal at 2:30 p.m. (Only)
DeRon Gillen (Via Teams)
Jordan Gillen (Via Teams)

1. Call to Order

The Colorado State Committee (STC) met on April 23, 2026, via TEAMS with Don Brown in person at the Colorado State office in Lakewood. Don Brown, State Committee Chairperson, opened the Executive Session at 9:02 a.m.

2. Approval of Executive Session Minutes

The STC reviewed the Executive Session minutes from the meetings on January 6, 2026; February 10, 2026; February 11, 2026; and March 24, 2026. A correction was made in the minutes of February 10, 2026 on page 20. "Kyle McConnell seconded the motion." was struck and replaced with "Joe Petrocco seconded the motion." After due consideration and discussion, Darrell Mackey moved to approve and accept the minutes as corrected. Joe Petrocco seconded the motion. The motion passed.

3. Conservation Reserve Program (CRP) Appeal via Teams at 9:30 a.m. (Exhibit 1)

Corey Pelton, Farm Program Chief, presented the STC with the administrative record (Exhibit 1) for this appeal ahead of the scheduled informal hearing and gave a summary of the matter. Don Brown, STC Chairperson, opened the informal hearing at 9:30 a.m.

Matter under Review:

John and Stephanie Ebright (Appellants) were found to be out of compliance with their Sign-up 204 Grassland Conservation Reserve Program (CRP) contracts 11071, 11075, 11101, 11114, 11115, 11116, and 11117 for not following their grazing plan. The Bent County COC made the determination that the appellants did not act in good faith to comply with the grazing plans and therefore terminated the contracts.

Appellant's Position:

John and Stephanie Ebright along with their representative, Christine Demoss, presented their appeal regarding the termination of their CRP contracts.

On April 23, 2026, the STC held the appeal hearing for Mr. and Mrs. Ebright. During that meeting the appellant stated that the timing of the spot check was after heavy snow and that the grasses were laid over and were not allowing new grasses to grow. There is not procedure that restricts times of year that spot checks can be performed.

The appellants also stated that they had sold cattle and moved cattle to other properties during this timeframe to help mitigate the damage.

The appellant provided the Committee with an email including cattle sale documents and the grazing record email with documents that were provided to the county office. The copy of the email that addresses the grazing records states "I had some records on the computer and I'm not sure if they got deleted. We've not been able to recover them. This is what we could place together from memory." Due to these records not being created at the time of grazing and from memory it could not be determined that these were the actual numbers of livestock on each of the dates and on the tracts referenced.

Issue:

1. Are the CRP contracts out of compliance with the terms and conditions of contracts?
2. Did the appellants show a good faith effort to comply with the terms and conditions of the Contracts?

The record was left open after the presentation for the appellants to submit additional documentation via email. That documentation was received during the STC Executive Session meeting and the record was closed.

Determination:

With review of all pertinent facts of this case and with consideration of the producer's testimony and additional documentation provided by the Appellants at the April 23, 2026, committee meeting, the STC validated the CRP contracts 11101, 11114, 11115, 11116, 11117, 11071, and 11075 were out of compliance with the terms and conditions of the CRP contracts. Furthermore, STC affirmed the Bent County Committee's decision the Appellant did not show a good faith effort to comply with the terms and conditions of the contracts.

Based on the case file, testimony, additional documentation and policy, due consideration and discussion, Steve Raftopoulos moved to terminate the CRP contracts due to non compliance and no show of good faith from the Appellants with refunds being required. Kyle McConnell seconded the motion. The motion passed unanimously.

4. Loan Deficiency Payment (LDP) Appeal via TEAMS at 11:00 a.m. (Exhibit 2)

STC member, Steve Raftopoulos, recused himself for this portion of the meeting due to a conflict of interest.

Corey Pelton, Farm Program Chief, presented the STC with the administrative record (Exhibit 2) for this appeal ahead of the scheduled informal hearing and gave a summary of the matter. Don Brown, STC Chairperson, opened the informal hearing at 11:00 a.m.

Matter under Review:

3R Lamb Feeding, LLC, Connie Rule, Spence Rule, and Sumner Rule are appealing the Washington County Committee's decision to disapprove their request for PY 2024 LDP for Pelts based on producer's loss of beneficial interest.

Abby Rule presented the appeal regarding the disapproval of the 2024 LDP application for pelts for 3R Lamb Feeding, LLC; Summer Rule; Connie Rule; and Spence Rule. The appellant and the STC understood that this appeal involved four different parties, but the relevant information was similar for each case and was therefore presented together.

Appellants' Position:

During the April 23, 2026, appeal hearing with the STC, Abby Rule, on behalf of the appellants stated that the reason that she missed the deadline to submit documents to FSA was due to not knowing the beneficial interest requirements. She also stated that she feels she has since remedied the situation for future sign-ups. The appellant submitted CCC-663 EZ and supporting documentation to COF on January 16, 2025.

Issue:

Did the Washington County COC err when they disapproved the appellant's 2024 Loan Deficiency Payment (LDP) Agreement and Request application for pelts due to loss of beneficial interest in the commodity?

Determination:

With review of all pertinent facts of this case and with consideration of the producer's testimony supplied at the April 23, 2026, committee meeting, the STC determined that the appellants did not meet the requirements of maintaining beneficial interest in the wool pelts on their 2024 LDP request for Pelts and are therefore do not meeting program eligibility requirements.

Based on the case file (Exhibit 2), testimony, additional documentation, due consideration and discussion, Joe Petrocco moved to deny 3R Lamb Feeding, LLC's 2024 LDP application for pelts. Kyle McConnell seconded the motion. The motion passed with a dissenting vote by Kyle McConnell and Steve Raftopoulos recusing himself.

Based on the case file (Exhibit 2), testimony, additional documentation, due consideration and discussion, Joe Petrocco moved to deny Sumner Rule's 2024 LDP application for pelts. Darrell Mackey seconded the motion The motion passed with a dissenting vote by Kyle McConnell and Steve Raftopoulos recusing himself.

Based on the case file (Exhibit 2), testimony, additional documentation, due consideration and discussion, Joe Petrocco moved to deny Connie Rule's 2024 LDP application for pelts. Darrell Mackey seconded the motion The motion passed with a dissenting vote by Kyle McConnell and Steve Raftopoulos recusing himself.

Based on the case file (Exhibit 2), testimony, additional documentation, due consideration and discussion, Joe Petrocco moved to deny Spence Rule's 2024 LDP application for pelts. Kyle McConnell seconded the motion The motion passed with a dissenting vote by Kyle McConnell and Steve Raftopoulos recusing himself.

5. Noninsured Crop Disaster Assistance Program (NAP) Appeal via Teams at 1:00 p.m. (Exhibit 3)

Janae Rader, Farm Program Specialist, presented the STC with the administrative record (Exhibit 3) for this appeal ahead of the scheduled informal hearing and gave a summary of the matter. Don Brown, STC Chairperson, opened the informal hearing at 1:00 p.m.

Matter under Review:

The State Committee (STC) will review the request for an appeal hearing on Otero County Joseph Proctor (Appellant) denial of the 2024 NAP CCC-576 Part G through H, application for payment filed December 10, 2024 based on a disapproved late-filed CCC-576 Part B, notice of loss filed on November 11, 2024. The Otero County FSA Committee (COC) disapproved the notice of loss on December 11, 2024 and disapproved the application for payment on January 13, 2025. The producer requested reconsideration from the COC on January 29, 2025. The COC met on March 12, 2025. After reviewing the case file and policy the COC determined to uphold

their initial determination to disapprove the Appellants application for payment. The STO received the Appellants request to appeal the Otero COC determination to the STC on April 15, 2025. The STC appeal request was timely filed. June 04, 2025 FSA received a request to wait for the Colorado FSA STC to be appointed to hear the appeal.

Appellant's Position:

In the Appellants written request to appeal to the STC dated April 15, 2025, the Appellant stated that had the loss adjustor done their job and indicate the cause of loss on the statement of facts the loss would have been approved. The Appellant states that he has adequate water to reasonably grow the county average with 7.75 shares of Highline canal each share is expected to irrigate 10 acres, which is more than the 55-60 irrigated acres of cropland he farms. The drought monitor showed a D1 drought. The Appellant states he fertilized his crop and is a good farmer, but was only able to take 1 cutting of hay as there wasn't any re-growth. Appellant claimed other grass losses were approved including his son's.

During the April 23, 2026, appeal hearing with the STC, the Appellant along with their representative, Christine Demoss stated they were in and out of D-1 drought according to the U.S Drought Monitor. They also claimed the Appellant had adequate water with 7.75 shares of Highline canal capable of irrigating 77.50 acres of ground.

Issue:

1. Did the Otero COC make a proper determination when disapproving the notice of loss on irrigated Mixfg IGS Fg on Unit 482, with the heat, wind/excess wind beginning 007/01/24 through 10/30/24?
2. Did the Otero COC make a proper determination when disapproving the application for payment on irrigated Mxfg IGS Fg on Unit 482?

Determination:

With review of all pertinent facts of this case and with consideration of the producer's testimony supplied at the April 23, 2026, committee meeting, the STC determined the following:

1. Appellant did not provide adequate documentation that heat, wind/excess wind or drought occurred during the coverage period nor that the heat, wind/excess wind was abnormal and extreme enough to directly cause, accelerate or exacerbate destruction or deterioration of the perennial grass crop. (1-NAP subparagraph 51A and 7 CFR 1437.10)
2. Appellant failed to explain how being in a status of D1 (moderately dry) on October 8th and October 15th based on the location of his farm 2657 would have caused a crop loss on his mixed forage 2 or more inter-seeded grasses. (1-NAP subparagraph 51E)
3. Appellant failed to document how much irrigation water was used on the mixed forage inter-seeded grass. (7 CFR 1437.10(d))
4. Appellant late filed a notice of loss on November 5, 2024, 21 days after normal harvest date set by State Committee and many days more than that after abandonment of the crop after first cutting.
 - a. The notice of loss was not filed at a time that would allow FSA to verify and provide specific information regarding the damage caused by the claimed heat, wind/excess wind and/or drought. The loss adjustor did not state if there was or was not evidence of claimed disaster events, however, the photo's provided show snow on the ground making it impossible to determine if the claimed disaster events starting in July

- occurred and affected the crop as opposed to other factors (1-NAP subparagraph 51A, subparagraph 575C and 7 CFR 1437.10 (d) and (h)).
- b. Apparent date of the disaster was not reasonable with abandonment of the crop after first cutting (1-NAP subparagraph 575E).
 - c. After further review of the notice of losses approved and disapproved in Otero County as a whole. The approved notice of losses were for different disaster events and timeframes.
5. STC questioned if the Appellants crops production loss on mixed forage 2 or more inter-seeded grasses was due to an eligible event during the coverage period or some other circumstance: (1-NAP subparagraph 51B, and subparagraph 51F, 7 CFR 1437.10 (d))
- a. Appellants mixed forage 2 or more inter-seeded grasses were planted in 2008 and 2017, all fields were established 9 or more years ago. There was not adequate documentation that the crop met the established criteria to be considered a properly reported stand Mixed Forage IGS (2 or more inter-seeded grass mix).
 - b. Appellants' Actual Production History and Approved yield shows a consistent history of approved disaster events. During the in-person testimony, STC was advised that there may have been other events, but COC may have disapproved them, so they would not show on this form.

With review of all pertinent facts of this case and with consideration of the producer's testimony and additional documentation provided by the Appellants at the April 23, 2026, committee meeting, the STC validated

With review of all pertinent facts of this case and with consideration of the producer's testimony at the April 23, 2026, committee meeting, STC affirmed the Otero COC make a proper determination when disapproving the notice of loss on irrigated Mixfg IGS Fg on Unit 482. The request and documentation provided does not meet policy requirements.

Based on the case file (Exhibit 3), testimony, due consideration and discussion, Steve Raftopoulos moved to disapprove Joseph Proctors (Appellant) 2024 NAP CCC-576 Part G through H, application for payment. Kyle McConnell seconded the motion. The motion passed unanimously.

6. Noninsured Crop Disaster Assistance Program (NAP) Appeal via Teams at 2:30 p.m. (Exhibit 4)

Janae Rader, Farm Program Specialist, presented the STC with the administrative record (Exhibit 4) for this appeal ahead of the scheduled informal hearing and gave a summary of the matter. Don Brown, STC Chairperson, opened the informal hearing at 2:30 p.m.

Matter under Review:

The State Committee (STC) will review the request for an appeal hearing on La Plata County River Edge Dairy and Farm LLC's (Appellant) denial of the 2025 NAP CCC-576 Part G through H (application for payment) filed September 30, 2025 due to a disapproved CCC-576 Part B (notice of loss). The La Plata FSA County Committee (COC) disapproved the notice of loss on September 22, 2025, and subsequent application for payment on September 22, 2025, and upheld their denial during a COC reconsideration hearing on December 4, 2025. The Appellant is appealing this COC determination to the STC.

Appellant's Position:

The appellant is requesting STC review the COC disapproval of the notice of loss and subsequent application for payment on non-irrigated safflower for seed. The Appellant is claiming that insufficient moisture during the early window, seedlings fail to emerge or remain stunted and never recover to produce a viable crop. That the crop sprouted and died and that the COC failed to use the FSA crop appraisal in their determination. The Appellant also states that the growing conditions that COC compared to in 2024 were not parallel; the location of the crop and the high winds that rapidly deteriorated the soil moisture. The producer states his safflower crop was the only denial of a loss and not similar to other producers.

Issue:

1. Did the La Plata COC make a proper determination when disapproving the notice of loss on non-irrigated Safflower for Sd on Unit 328 and Unit 1528. With the drought beginning 05/28/2025?
2. Did the La Plata COC make a proper determination when disapproving the application for payment on non-irrigated Safflower for Sd on Unit 328 and Unit 1528?

Determination:

With review of all pertinent facts of this case and with consideration of the producer's testimony supplied at the April 23, 2026, committee meeting, the STC determined the following:

1. Appellant did not provide adequate documentation that drought or excess winds occurred during the coverage period nor that the drought and excess wind was abnormal and extreme enough to directly cause, accelerate or exacerbate destruction or deterioration of the safflower. 1-NAP subparagraph 51A and 7 CFR 1437.10).
 - a. The appellant failed to document
 - the similarity of the precipitation data provided in relation to his farm
 - the deviation from the historical average precipitation and prove it was abnormal for the area.
 - b. CoAgMET weather data at the Kline weather station showed an increase in precipitation in 2025 versus the prior 4 years using the timeframe of April 1 through June 30.
 - c. Marvel weather station data for May of 2025 shows no extreme weather with only 1 mention of light winds on May 8.
 - d. Precipitation data from April 28 to May 28, 2025 at the Durango-La Plata County Airport is showing 0.68 inches of precipitation.
 - e. Precipitation data from April 28 to May 28, 2025 at the Durango-La Plata County Airport is showing 0.68 inches of precipitation.
 - COC noted Appellants successful crop in 2024 with 0 inches of rain during the same time frame, where despite the deficit in precipitation the Safflower successfully germinated and sprouted.
 - f. Appellant provided a bar graph of wind speed for the month of May at the Durango-La Plata County Airport. However, the appellant failed to document:
 - the similarity of the airport in relation to his farm
 - the deviation from the historical average wind speed and prove it was abnormal for the area.

2. Appellant has a pattern of reported losses inconsistent with other similarly situated producers and documented weather-related disasters. (1-NAP subparagraph 51F and 7 CFR 1437.10 (a)(d)).
3. Appellants seeding rate is below the recommended seeding rate per acre and other similar producers in the area.
4. Appellant claimed a disaster event every year Safflower was planted with actual production never reaching 50% of the county expected yield.
5. Appellant has a consistent history of a high number of un-harvested acres.

DeRon Gillen presented for River Edge Dairy and Farm, LLC (Appellant) their position regarding the disapproval of the 2025 NAP application for payment filed September 30, 2025. After due consideration and discussion, Kyle McConnell moved to disapprove River Edge Dairy and Farm, LLC 2025 NAP CCC-576 Part G through H (application for payment) due to not having an acceptable CCC-576, Part B notice of loss was not on file. Joe Petrocco seconded the motion. The motion passed unanimously.

7. Otero COC Actions

In accordance with 7 CFR 7.1(c), State committees will take any actions required by these regulations that have not been taken by a county committee. Don Brown, STC Chairperson, will electronically sign the documents for these actions.

A. Otero COC Minutes

Presented by: Dara Belew, Otero/Crowley County Executive Director

The STC reviewed the minutes from both the Regular Session as well as the Executive Session on February 11, 2026 meeting. See Exhibit 5 section 6.a.1 for details. After reviewing the minutes, Joe Petrocco moved and Kyle McConnell seconded the motion to approve the minutes.

B. Otero Farmers Bridge Assistance Program (FBA)

Presented by: Dara Belew, Otero/Crowley County Executive Director

The STC reviewed the FBA Applications that were approved April 8, 2026 by CED. See Exhibit 5, section 6.b.1 for details and list of producers whose CCC-555 FBA applications were acted upon.

C. Otero FBA Applications

Presented by: Dara Belew, Otero/Crowley County Executive Director

The STC reviewed policy, the FBA Applications and supporting documentation for both Mary Belew and Gerald Belew. See Exhibit 5 section 6.b.2 for details of these CCC-555 FBA applications. After reviewing the applications, Kyle McConnell moved and Steve Raftopoulos seconded the motions to approve the applications.

D. Non-Insured Crop Disaster Program (NAP) Application for Coverage-late file

Presented by: Dara Belew, Otero/Crowley County Executive Director

The STC reviewed policy, the late filed NAP Application for coverage for Gregory D Smith and supporting documentation. See Exhibit 5 section 6.c.1 for details. After reviewing the

application and supporting documentation, Steve Raftopoulos moved and Kyle McConnell seconded the motion to approve the application.

E. Extension Request for NAP Application for Payments (Planted)

Presented by: Dara Belew, Otero/Crowley County Executive Director

The STC reviewed policy, the Extension Requests for NAP Applications for Payments and supporting documentation. See Exhibit 5, section 6.c.2 for details and list of producers who requested an extension due to one of 3 reasons. After reviewing the applications, Darrell Mackey moved and Steve Raftopoulos seconded the motion to approve the extensions.

F. 2025 Applications for Payments/Harvest Transport Market - Planted Approved NOLs - Application for Payment exceeds 60 days

Presented by: Dara Belew, Otero/Crowley County Executive Director

The STC reviewed policy, the Applications for payments that exceeds 60 days and supporting documentation. See Exhibit 5, section 6.c.3.a for details including the list of producers acted on. After the applications, Darrell Mackey moved and Kyle McConnell seconded the motion to approve the applications.

G. 2025 Applications for Payments/Harvest Transport Market - Planted Approved NOLs

Presented by: Dara Belew, Otero/Crowley County Executive Director

The STC reviewed policy, the Applications for Padilla Produce Inc and Kreft Inc including supporting documentation. See Exhibit 5, section 6.c.3.b for details. After reviewing the applications, Darrell Mackey moved and Steve Raftopoulos seconded the motion to approve the applications.

H. 2025 Applications for Payments/Harvest Transport Market - Planted Disapproved NOLs - Application for Payment exceeds 60 days

Presented by: Dara Belew, Otero/Crowley County Executive Director

The STC reviewed policy, the applications and supporting documentation. See Exhibit 5, section 6.c.3.c for details. After reviewing the applications, Joe Petrocco moved and Darrell Mackey seconded the motion to deny the applications.

I. 2025 Applications for Payments/Harvest Transport Market – Applications for Prevent Plant NAP Disapproved NOLs

Presented by: Dara Belew, Otero/Crowley County Executive Director

The STC reviewed policy, the applications and supporting documentation. See Exhibit 5, section 6.c.3.d for details and list of producers acted on. After reviewing the application, Joe Petrocco moved and Kyle McConnell seconded the motion to deny the applications.

J. 2025 Applications for Payments/Harvest Transport Market – Applications for Payment for Prevent Plant Disapproved NOLs

Presented by: Dara Belew, Otero/Crowley County Executive Director

The STC reviewed policy, the Applications and supporting documentation. See Exhibit 5, section 6.c.3.e for details and list of producers acted on. After reviewing the applications, Steve Raftopoulos moved and Darrell Mackey seconded the motion to deny the applications.

8. Noninsured Crop Disaster Assistance Program (NAP) 2026 National Crop Table (NCT)

A. Beans

Janae Rader, Farm Program Specialist, presented the STC with the information in Exhibit 6 to review and make a determination on County Expected Yield (CEY) and Average Market Price (AMP) on Beans as recommended in the table below.

2026 STO recommended/approved yield and price

County	Crop	IU	Ir/ Ni	UOM	CEY	Price	Organic Yield	Transitional Yield	Organic Price
Adams	GRN	FH	I	CWT	29.88	29.92	22.41	22.41	34.90

Intended Use Key: CB=cannabidiol, DE= dry edible, FB=fiber, FG=forage, FH=fresh, GR=grain, NT=non-table, OL=oil, PR=processed, SD=seed, SG=silage, SO=sod, TB=table

After reviewing the applicable policies and supporting documentation (Exhibit 6), Kyle McConnell moved to approve the proposed County Expected Yield (CEY) and Average Market Price (AMP) on Beans as presented and shown in the table above for the 2026 NCT. Steve Raftopoulos, seconded the motion. Motion passed.

B. Brussel Sprouts

Janae Rader, Farm Program Specialist, presented the STC with the information in Exhibit 7 to review and make a determination on County Expected Yield (CEY) and Average Market Price (AMP) on Brussel Sprouts as recommended in the table below.

2026 STO recommended/approved yield and price

County	Type	IU	Ir/ Ni	UOM	CEY	Price	Organic Yield	Transitional Yield	Organic Price
Weld		FH	I	CWT	104.58	34.25			

Intended Use Key: CB=cannabidiol, DE= dry edible, FB=fiber, FG=forage, FH=fresh, GR=grain, NT=non-table, OL=oil, PR=processed, SD=seed, SG=silage, SO=sod, TB=table

After reviewing the applicable policies and supporting documentation (Exhibit 7), Kyle McConnell moved to approve the proposed County Expected Yield (CEY) and Average Market Price (AMP) on Brussel Sprouts as presented and shown in the table above for the 2026 NCT. Darrell Mackey, seconded the motion. Motion passed.

C. Canary Melon

Janae Rader, Farm Program Specialist, presented the STC with the information in Exhibit 8 to review and make a determination on County Expected Yield (CEY) and Average Market Price (AMP) on Canary Melon as recommended in the table below.

2026 STO recommended/approved yield and price

County	Type	IU	Ir/ Ni	UOM	CEY	Price	Organic Yield	Transitional Yield	Organic Price
Weld		FH	I	CWT	166.47	25.11			

Intended Use Key: CB=cannabidiol, DE= dry edible, FB=fiber, FG=forage, FH=fresh, GR=grain, NT=non-table, OL=oil, PR=processed, SD=seed, SG=silage, SO=sod, TB=table

After reviewing the applicable policies and supporting documentation (Exhibit 8), Kyle McConnell moved to approve the proposed County Expected Yield (CEY) and Average Market Price (AMP) on Canary Melon as presented and shown in the table above for the 2026 NCT. Darrell Mackey, seconded the motion. Motion passed.

D. Celery

Janae Rader, Farm Program Specialist, presented the STC with the information in Exhibit 9 to review and make a determination on County Expected Yield (CEY) and Average Market Price (AMP) on Celery as recommended in the table below.

2026 STO recommended/approved yield and price

County	Type	IU	Ir/ Ni	UOM	CEY	Price	Organic Yield	Transitional Yield	Organic Price
Weld		FH	I	CWT	187.12	25.59			

Intended Use Key: CB=cannabidiol, DE= dry edible, FB=fiber, FG=forage, FH=fresh, GR=grain, NT=non-table, OL=oil, PR=processed, SD=seed, SG=silage, SO=sod, TB=table

After reviewing the applicable policies and supporting documentation (Exhibit 9), Kyle McConnell moved to approve the proposed County Expected Yield (CEY) and Average Market Price (AMP) on Celery as presented and shown in the table above for the 2026 NCT. Steve Raftopoulos, seconded the motion. Motion passed.

E. Hemp

Janae Rader, Farm Program Specialist, presented the STC with the information in Exhibit 10 to review and make a determination on County Expected Yield (CEY) and Average Market Price (AMP) on Hemp as recommended in the table below.

2026 STO recommended/approved yield and price

Intended Use Key: CB=cannabidiol, DE= dry edible, FB=fiber, FG=forage, FH=fresh, GR=grain, NT=non-table, OL=oil, PR=processed, SD=seed, SG=silage, SO=sod, TB=table

After reviewing the applicable policies and supporting documentation (Exhibit 10), Kyle McConnell moved to approve the proposed County Expected Yield (CEY) and Average Market Price (AMP) on Hemp as presented and shown in the table above for the 2026 NCT. Darrell Mackey, seconded the motion. Motion passed.

F. Korean Golden Melon

Janae Rader, Farm Program Specialist, presented the STC with the information in Exhibit 11 to review and make a determination on County Expected Yield (CEY) and Average Market Price (AMP) on Korean Golden Melon as recommended in the table below.

2026 STO recommended/approved yield and price

County	Type	IU	Ir/ Ni	UOM	CEY	Price	Organic Yield	Transitional Yield	Organic Price
Pueblo		FH	I	CWT	84.71	26.77			

Intended Use Key: CB=cannabidiol, DE= dry edible, FB=fiber, FG=forage, FH=fresh, GR=grain, NT=non-table, OL=oil, PR=processed, SD=seed, SG=silage, SO=sod, TB=table

After reviewing the applicable policies and supporting documentation (Exhibit 11), Kyle McConnell moved to approve the proposed County Expected Yield (CEY) and Average Market Price (AMP) on Korean Golden Melon as presented and shown in the table above for the 2026 NCT. Darrell Mackey, seconded the motion. Motion passed.

G. Leeks

Janae Rader, Farm Program Specialist, presented the STC with the information in Exhibit 12 to review and make a determination on County Expected Yield (CEY) and Average Market Price (AMP) on Leeks as recommended in the table below.

2026 STO recommended/approved yield and price

County	Type	IU	Ir/ Ni	UOM	CEY	Price	Organic Yield	Transitional Yield	Organic Price
Weld		FH	I	CWT	42.66	60.80			

Intended Use Key: CB=cannabidiol, DE= dry edible, FB=fiber, FG=forage, FH=fresh, GR=grain, NT=non-table, OL=oil, PR=processed, SD=seed, SG=silage, SO=sod, TB=table

After reviewing the applicable policies and supporting documentation (Exhibit 12), Kyle McConnell moved to approve the proposed County Expected Yield (CEY) and Average Market Price (AMP) on Leeks as presented and shown in the table above for the 2026 NCT. Darrell Mackey, seconded the motion. Motion passed.

H. Peas

Janae Rader, Farm Program Specialist, presented the STC with the information in Exhibit 13 to review and make a determination on County Expected Yield (CEY) and Average Market Price (AMP) on Peas as recommended in the table below.

2026 STO recommended/approved yield and price

Intended Use Key: CB=cannabidiol, DE= dry edible, FB=fiber, FG=forage, FH=fresh, GR=grain, NT=non-table, OL=oil, PR=processed, SD=seed, SG=silage, SO=sod, TB=table

After reviewing the applicable policies and supporting documentation (Exhibit 13), Joe Petrocco moved to approve the proposed County Expected Yield (CEY) and Average Market Price (AMP) on Peas and set a price of \$0.887/lb. for Peas and shown in the table above for the 2026 NCT. Furthermore the 2019-2022 historical prices for Peas will also be adjusted to reflect the \$0.887/lb. and \$0.9225/lb. for 2023. Darrell Mackey seconded the motion. Motion passed.

I. Potatoes Sweet

Janae Rader, Farm Program Specialist, presented the STC with the information in Exhibit 14 to review and make a determination on County Expected Yield (CEY) and Average Market Price (AMP) on Potatoes, Sweet as recommended in the table below.

2026 STO recommended/approved yield and price

County	Type	IU	Ir/ Ni	UOM	CEY	Price	Organic Yield	Transition al Yield	Organic Price
Weld	BEA	FH	I	CWT	136.03	22.80			

Intended Use Key: CB=cannabidiol, DE= dry edible, FB=fiber, FG=forage, FH=fresh, GR=grain, NT=non-table, OL=oil, PR=processed, SD=seed, SG=silage, SO=sod, TB=table

After reviewing the applicable policies and supporting documentation (Exhibit 14), Kyle McConnell moved to approve the proposed County Expected Yield (CEY) and Average Market Price (AMP) on Potatoes, Sweet as presented and shown in the table above for the 2026 NCT. Joe Petrocco, seconded the motion. Motion passed.

J. Radish

Janae Rader, Farm Program Specialist, presented the STC with the information in Exhibit 15 to review and make a determination on County Expected Yield (CEY) and Average Market Price (AMP) on Radish as recommended in the table below.

2026 STO recommended/approved yield and price

County	Type	IU	Ir/ Ni	UOM	lbs/ UOM	CEY	Price	Organic Yield	Transiti onal Yield	Organic Price

Intended Use Key: CB=cannabidiol, DE= dry edible, FB=fiber, FG=forage, FH=fresh, GR=grain, NT=non-table, OL=oil, PR=processed, SD=seed, SG=silage, SO=sod, TB=table

After reviewing the applicable policies and supporting documentation (Exhibit 15), Kyle McConnell moved to approve the proposed County Expected Yield (CEY) and Average Market Price (AMP) on Radish as presented and shown in the table above for the 2026 NCT. Darrell Mackey, seconded the motion. Motion passed.

K. Sugar Beet

Janae Rader, Farm Program Specialist, presented the STC with the information in Exhibit 16 to review and make a determination on County Expected Yield (CEY) and Average Market Price (AMP) on Sugar Beets as recommended in the table below.

2026 STO recommended/approved yield and price

County	Type	IU	Ir/Ni	UOM	CEY	Price	Organic Yield	Transitional Yield	Organic Price
Yuma ¹		Pr	I	LBS	10868	0.171			

Intended Use Key: CB=cannabidiol, DE= dry edible, FB=fiber, FG=forage, FH=fresh, GR=grain, NT=non-table, OL=oil, PR=processed, SD=seed, SG=silage, SO=sod, TB=table

1/Sugar Beets are covered in Yuma county. Only crops administered out of Yuma but physically located in an eligible NAP county are covered, Kit Carson.

After reviewing the applicable policies and supporting documentation (Exhibit 16), Kyle McConnell moved to approve the proposed County Expected Yield (CEY) and Average Market Price (AMP) on Sugar Beets as presented and shown in the table above for the 2026 NCT. Joe Petrocco, seconded the motion. Motion passed.

L. Tomatillos

Janae Rader, Farm Program Specialist, presented the STC with the information in Exhibit 17 to review and make a determination on County Expected Yield (CEY) and Average Market Price (AMP) on Tomatillos as recommended in the table below.

2026 STO recommended/approved yield and price

County	Type	IU	Ir/Ni	UOM	CEY	Price	Organic Yield	Transitional Yield	Organic Price
Fremont		FH	I	CWT	59.85	33.77			

Intended Use Key: CB=cannabidiol, DE= dry edible, FB=fiber, FG=forage, FH=fresh, GR=grain, NT=non-table, OL=oil, PR=processed, SD=seed, SG=silage, SO=sod, TB=table

After reviewing the applicable policies and supporting documentation (Exhibit 17), Kyle McConnell moved to approve the proposed County Expected Yield (CEY) and Average Market Price (AMP) on Tomatillos as presented and shown in the table above for the 2026 NCT. Darrell Mackey, seconded the motion. Motion passed.

9. Supplemental Disaster Relief Program (SDRP)

A. 2023 and 2024 Ad Hoc NCT Delta County - Nectarines

Janae Rader, Farm Program Specialist, presented the STC with the following information in Exhibit 18 to review and make a determination on historical yields, historical prices, County Expected Yield (CEY), Average Market Price (AMP) on Nectarines for program year 2023 and 2024 as recommended in the table below and to be used for SDRP purposes only.

2023 and 2024 STO recommended/approved yield and price for SDRP purposes only

Year	County	Crop Type	IU	Ir/ Ni	UOM	PP Factor	Uh Factor	CEY (cwt)	AMP	Normal Harvest Date
2023	Delta	NEM	FH	I	BU	0	0.75	264.00	47.00	09/30
2024	Delta	NEM	FH	I	BU	0	0.75	264.00	46.85	09/30

Intended Use Key: CB=cannabidiol, DE= dry edible, FB=fiber, FG=forage, FH=fresh, GR=grain, NT=non-table, OL=oil, PR=processed, SD=seed, SG=silage, SO=sod, TB=table

After reviewing the applicable policies and supporting documentation (Exhibit 19), Kyle McConnell moved to approve the proposed historical yields, historical prices, County Expected Yield (CEY) and Average Market Price (AMP) on Nectarines as presented above for 2023 and 2024 for SDRP purposes only. Steve Raftopoulos seconded the motion. Motion passed.

B. 2023 and 2024 Ad Hoc NCT Delta County - Sweet Corn

Janae Rader, Farm Program Specialist, presented the STC with the following information in Exhibit 18 to review and make a determination on historical yields, historical prices, County Expected Yield (CEY), Average Market Price (AMP) on Sweet Corn for program year 2023 and 2024 as recommended in the table below and to be used for SDRP purposes only.

2023 and 2024 STO recommended/approved yield and price for SDRP purposes only

County	Crop Type	IU	Ir/ Ni	UOM	PP Factor	Uh Factor	2023 CEY (cwt)	2024 CEY (cwt)	Final Plant Date	Normal Harvest Date
Delta	SBI	FH	I	CWT	0.31	0.61	229.05	229.05	06/15	10/05
Delta	SWH	FH	I	CWT	0.31	0.61	229.05	229.05	06/15	10/05

Montrose	SBI	FH	I	CWT	0.31	0.61	229.05	229.05	06/15	10/05
Montrose	SWH	FH	I	CWT	0.31	0.61	229.05	229.05	06/15	10/05
Montrose	SYE	FH	I	CWT	0.31	0.61	229.05	229.05	06/15	10/05

Intended Use Key: CB=cannabidiol, DE= dry edible, FB=fiber, FG=forage, FH=fresh, GR=grain, NT=non-table, OL=oil, PR=processed, SD=seed, SG=silage, SO=sod, TB=table

After reviewing the applicable policies and supporting documentation (Exhibit 19), Kyle McConnell moved to approve the proposed historical yields, historical prices, County Expected Yield (CEY) and Average Market Price (AMP) on Sweet Corn as presented above for 2023 and 2024 for SDRP purposes only. Darrell Mackey seconded the motion. Motion passed.

C. SDRP Application Approval for District Director

District Director, Scott Brase, recused himself for this portion of the meeting due to a conflict of interest.

Julie Sporhase, Farm Program Specialist, presented the STC with information in Exhibit 20 regarding the 2024 SDRP-2 application for District Director, Scott Brase. After due consideration and discussion, Steve Raftopoulos moved to approve the 2024 SDRP-2

application for District Director, Scott Brase. Kyle McConnell seconded the motion. The motion passed.

10. Marketing Assistance Program (MASC)

7-CP – Equitable Relief under Misaction/Misinformation – Rio Grande – Crossroads Farms LLC

Julie Sporhase, Farm Program Specialist, presented the STC with information in Exhibit 21 regarding a request for equitable relief under Misaction/Misinformation on a 2025 MASC application for Crossroads Farm LLC in Rio Grande County.

The request came from the Rio Grande County Committee (COC) after it was discovered that the County office did not enter the approval date in the software and the software had closed. After due consideration and discussion, the STC determined that the Misaction/Misinformation standards have been met, the error was clearly made by the County office, the producer filed their application timely, and it was approved by the COC by the January 10, 2025, deadline. The request is also within the STC authority of \$5,000.00. Therefore the STC has authority to make a determination on the relief request.

After reviewing the applicable policies and supporting documentation in Exhibit 21, Kyle McConnell moved to approve equitable relief under Misaction/Misinformation for Cross Roads Farms LLC 2025 MASC Application. Joe Petrocco seconded the motion. The motion passed.

11. Conservation Reserve Program (CRP)

Establishing FY26 CRP Cost Share Rates

Hunter Cleveland, Farm Program Specialist, presented the STC with the case file (Exhibit 22) to review and establish PY2026 Cost Share Rates for CRP.

According to Handbook 2-CRP(Rev.6) paragraph 495, STC's are authorized to develop a state program and C/S policy based on guidelines established within Handbook 2-CRP (Rev. 6). STC's can also establish state rates rather than having COC's establish individual county rates. Colorado STC has elected to continue with implementing state rates.

The STC is tasked with establishing FY26 CRP Cost Share Rates for the State of Colorado. The proposed rate for each Cost Share component was determined using collected data from county office invoices, quoted seed cost from local seed companies, or applicable FY25/FY26 EQIP payment scenarios.

Table below reflects 2025 rates, and the 2026 rates approved by STC based on Exhibit 22.

Component	Unit of Measure	2025 Approved	2026 STC Approved Price
Seed:			
Seed: CP1 Introduced Grasses and Legumes	Acre	\$62.00	\$62.00
Seed: CP2 Native Grasses	Acre	\$68.00	\$73.00

Component	Unit of Measure	2025 Approved	2026 STC Approved Price
Seed: CP4D Wildlife Habitat - Non Easement	Acre	\$72.00	\$77.00
Seed: CP5A Field Windbreak Establishment	Each	\$3.00	\$3.00
Seed: CP8A Grass Waterway - Non Easement	Acre	\$68.00	\$73.00
Seed: CP15A Contour Grass Strips - Non Easement	Acre	\$68.00	\$73.00
Seed: CP16A Shelter Belt - Non Easement	Each	\$3.00	\$3.00
Seed: CP17A Living Snow Fence - Non Easement	Each	\$3.00	\$3.00
Seed: CP33 Habitat Buffers for Upland Birds	Acre	\$45.00	\$50.00
Seed: CP38E-2 SAFE Native Grasses	Acre	\$68.00	\$73.00
Seed: CP38E-4D SAFE Wildlife Habitat - Non Easement	Acre	\$72.00	\$77.00
Seed: CP42 Pollinator Habitat	Acre	\$109.00	\$108.00
Seed: CP43 Prairie Strips	Acre	\$109.00	\$108.00
Seed: Cover Crop	Acre	\$20.00	\$24.00
Seedbed Prep:			
Seedbed Preparation: Tillage 1st Operation	Acre	\$20.00	\$23.00
Seedbed Preparation: Tillage 2nd Operation	Acre	\$20.00	\$23.00
Seedbed Preparation: Tillage 3rd Operation	Acre	\$20.00	\$23.00
Seedbed Preparation: Tillage 4th Operation	Acre	\$20.00	\$23.00
Seedbed Preparation: Tillage 5th Operation	Acre	\$20.00	\$23.00
Seedbed Preparation: Mowing	Acre	\$17.00	\$25.00
Seedbed Preparation: Burning	Acre	\$20.00	\$74.00
Seedbed Preparation - CP8A Grading and Shaping	Square Foot	\$8.00	NA (Retire Component)
Seedbed Preparation: Chemical Cover Crop Termination 1st Application	Acre	\$20.00	\$24.00
Seedbed Preparation: Chemical Cover Crop Termination 2nd Application	Acre	\$20.00	\$24.00
Seedbed Preparation: Chemical Cover Crop Termination 3rd Application	Acre	\$20.00	\$24.00
Seeding:			
Seeding: Drill	Acre	\$23.00	\$22.50
Seeding: Pollinator	Acre	\$23.00	\$22.50
Seeding: Cover Crop	Acre	\$23.00	\$22.50
Seeding: Tree Establishment	Foot	\$1.14	\$2.00
Weed Control:			
Weed Control: Mechanical Post Planting Within 12 Months after Planting	Acre	\$18.00	\$24.00
Weed Control: Mechanical Post Planting Within 24 Months after Planting	Acre	\$18.00	\$24.00

Component	Unit of Measure	2025 Approved	2026 STC Approved Price
Weed Control: Chemical Purchase and Application Within 12 Months after Planting	Acre	\$28.00	\$24.00
Weed Control: Chemical Purchase and Application Within 24 Months after Planting	Acre	\$28.00	\$24.00
Fencing:			
Fencing: Multistrand Barbed/ Smooth Wire (3 or 4 strand)	Foot	\$3.00	\$6.00
Fencing: Multistrand Barbed/Smooth Wire (3 or 4 strand) Difficult Terrain	Foot	\$4.00	\$7.00
Fencing: Electric/ High Tensile	Foot	\$3.00	\$6.00
Watering Facility:			
Watering Facility: Permanent Drinking/Storage Less Than 750	Gallon	NA	\$4.25
Watering Facility: Permanent Drinking/Storage More Than 750	Gallon	NA	\$4.70
Pipeline:			
Pipeline: 1.25 inch 160psi PVC-SDR per foot	Foot	\$3.00	\$3.00
> or = to 1.5 inch HDPE per foot	Foot	\$4.00	\$4.00
Water Well Footage:			
Water Well: < or = to 100 Foot	Foot	\$95.00	\$212.00
Water Well: > 100-300 Foot	Foot	\$55.00	\$123.00
Water Well: >300-600 foot	Foot	\$48.00	\$107.00
Water Well Pump:			
Water Well: Pump (Electric)	Each	\$448.00	\$2,100.00
Water Well: Pump (Solar)	Each	\$4,600.00	\$6,120.00
Spring Development:			
Spring Development	Each	\$7,000.00	\$6,145.00
Brush Management:			
Brush Management: Mechanical, Small Shrubs, Light Infestation		\$77.00	NA (Retire Component)
Brush Management: Mechanical, Large Shrubs, Medium Infestation		\$400.00	NA (Retire Component)
Brush Management: Chemical, Aerial Applied		\$57.00	NA (Retire Component)

Component	Unit of Measure	2025 Approved	2026 STC Approved Price
Other:			
Soil Analysis Test	Each	\$205.00	\$210.00

The STC reviewed the supporting documentation in Exhibit 22. After reviewing the documents, Joe Petrocco moved and Steve Raftopoulos seconded the motion to accept the proposed FY26 CRP Cost Share rates as presented by the STO and shown in the table above. The motion passed.

12. Emergency Forest Restoration Program (EFRP)

A. Establishing FY26 EFRP Cost Share Rates

Hunter Cleveland, Farm Program Chief, presented the STC with the following information in Exhibit 23 to review and make a determination on establishing EFRP cost share components and rates for FY2026.

According to Handbook 1-EFRP(Rev.1) subparagraph 66A, the STC will review and determine EFRP cost share rates annually.

Table below reflects 2025 rates, and the 2026 rates approved by STC based on Exhibit 23.

Component	Unit of Measure	2025 Approved Price	2026 STC Approved Price
Obstruction Removal:			
Debris Removal--Removal and Disposal of Light Scattered Debris	Acre	\$490.18	\$504.00
Debris Removal--Removal and Disposal of Heavy Scattered Debris	Square Foot	\$1.39	\$1.50
Debris Removal--Removal and Disposal of Brush and Trees	Acre	NA	\$2,089.00
Debris Removal--Removal and Disposal of Light Flood Sediment	Acre	NA	\$3,528.00
Debris Removal--Removal of Heavy Flood Sediment	Acre	NA	\$4,910.00
Debris Removal-- Removal and Disposal of Rock/Boulder	Cubic Yard	\$145.80	\$150.00
Debris Removal--Removal and Disposal of Fence	Foot	\$1.36	\$2.72
Site Preparation:			
Site Prep-- Mechanical, Light	Acre	NA	\$127.00
Site Prep-- Mechanical, Moderate	Acre	NA	\$213.00
Site Prep-- Mechanical, Heavy	Acre	NA	\$472.00
Site Prep-- Weed Control, Mechanical	Acre	NA	\$72.00
Site Prep-- Weed Control, Chemical	Acre	NA	\$81.00

Component	Unit of Measure	2025 Approved Price	2026 STC Approved Price
Conservation Cover:			
Cover Crop, Temporary	Acre	NA	\$43.00
Cover Crop, Termination	Acre	NA	\$31.00
Contouring:			
Contour Barriers	Each	\$55.00	\$55.00
Tree/Shrub Establishment:			
Individual tree, small-hand planting	Each	\$1.88	\$8.50
Individual tree, medium-hand planting	Each	\$8.79	\$21.00
Individual tree, large-hand planting	Each	\$15.54	\$35.00
Natural Regeneration	Acre	\$0.00	\$ -
Firebreak Establishment:--Stop fire			
Establishment-- Normal Slope	Acre	\$1,284.53	\$1,343.00
Establishment--Steep Slope	Acre	\$3,831.78	\$3,991.00
Access Road:			
Access Road-- Level Terrain	Each	\$10.26	\$1,310.00
Access Road-- Sloped Terrain	Each	\$7.48	\$1,618.00
Access Road-- Implementation	Foot	NA	\$9.50
Fuel Break:-- Modify fire			
Establishment-- Normal Terrain	Acre	\$1,849.84	\$2,646.00
Establishment-- Steep Slope	Acre	\$3,026.75	\$3,346.00
Fencing:			
Fencing: Multistrand Barbed/ Smooth Wire (3 or 4 strand)	Foot	\$3.00	\$6.00
Fencing: Multistrand Barbed/Smooth Wire (3 or 4 strand) Difficult	Foot	\$4.00	\$7.00
Fencing: Electric/ High Tensile	Foot	\$3.00	\$3.00

The STC reviewed the supporting documentation in Exhibit 23. After reviewing the documents, Steve Raftopoulos moved and Darrell Mackey seconded the motion to accept the proposed FY26 EFRP Cost Share rates as presented and shown above by the STO. The motion passed.

B. Establishment of additional Cost Share Rates for the Emergency Forest Restoration Program (EFRP) for FY25

Hunter Cleveland, Farm Program Specialist, presented the STC with the following information in Exhibit 24 to review and make a determination on establishing additional EFRP cost share components and rates for 2025.

According to Handbook 1-EFRP(Rev.1) subparagraph 66A, the STC will review and determine EFRP cost share rates annually.

The FY 25 EFRP Cost Share Rates were established by the previously Colorado STC. However, Colorado State Forest Service has determined that the following, additional cost share rates are needed for FY 2025:

PY25 additional EFRP components and rates approved

Component Code	Description	Measurement	Rate
COEFRP44	Cover Crop, Temporary	Acre	\$43.00*
COEFRP45	Cover Crop, Termination	Acre	\$31.00*

* Rate was determined using the data collected for the FY26 EFRP cost share rate establishment

After reviewing the applicable policies and supporting documentation in Exhibit 24, Kyle McConnell moved and Joe Petrocco seconded the motion to approve the proposed FY25 EFRP Cost Share Components and the Rates listed above and as presented by the STO. The motion passed.

13. Adjourn Executive Session

Having no further business to discuss, Steve Raftopoulos moved to adjourn the Executive Session meeting. Kyle McConnell seconded the motion. The motion passed.

The Executive Session meeting was adjourned at 4:40 p.m.

Next STC Executive meeting set for May 28, 2026.
