

Colorado State Committee Meeting – May 28, 2026

Agenda Regular Session

Meeting Place: Virtual Meeting via Teams
[May 28, 2026 STC Teams Link](#)

Meeting Time: 9:00 a.m. (All times are approximate)

Guests: None Scheduled

1. **Call to Order**
2. **Approve Regular Session Minutes (Action Item)**
Presented by: Cindy M. Vukasin, Farm Program Chief
 - a. **April 23, 2026 Minutes**
3. **State Executive Director Report (10 min)**
4. **District Director Report (10 min)**
 - a. District 1: Scott Brase
 - b. District 2: Jon
 - c. District 3: Woody Woods
 - d. District 4: Sam Montoya
5. **Senior Leadership Reports (10 min)**
 - a. Acting Farm Loan Chief: Kim Lacy
 - b. Farm Program Chief: Cindy Vukasin
 - c. Farm Program Chief: Corey Pelton
 - d. Deputy State Executive Director: Jon Weishaar
6. **State Committee Field Discussion update**
7. **Adjourn Regular Session (Action Item)**

Regular Session

Leadership Reports

SED Jerry Sonnenberg

May 21, 2026

STAFFING:

Since the last report, we had been paying a PA, Allya Blackwell, out of GS funds and that has been corrected. As we continue, we are at our maximum level in leadership at 32 and there is very little hope that this number will ever change, even through attrition.

FY 2026 Federal (GS) Final, Hiring Ceiling Levels, & On-Board:

Final Federal (GS) FY 2026 Total Ceiling Level 1/2/ (A)	Hiring Federal (GS) FY 2026 Total Ceiling Level 1/2/ (B)	On-Board Federal (GS) FY 2026 Total As of PP5 1/2/ (C)
32	32	32

I wanted to open up the Office Administrator position again but I am told that is no longer possible.

Final FY 2026 Non-Federal (CO) Permanent, Hiring Ceiling Level, & On-Board:

Final Non-Federal (CO) FY 2026 Permanent Full-time (PFT) Ceiling Level (A)	Hiring Non-Federal (CO) FY 2026 Permanent Full-time (PFT) Ceiling Level (B)	On-Board Non-Federal (CO) FY 2026 Permanent Full-time (PFT) As of PP5 (C)
90	85	80

Since the last STC meeting we have had two resignations which took us to 79 CO employees and then moving Ms. Blackwell has taken us back to 80. We have advertised in Baca, Prowers, Yuma and Washington Counties for the original four PA positions. Application deadline was May 11 and we are currently interviewing to fill those positions.

We will start advertising for the CED positions utilizing Expanded Hiring Authority if the STC approves those requests. Those positions are in Sedgwick, Phillips, Weld and Mesa/Garfield Counties.

BUDGET:

We are in the process of restoring our necessary supplies and I have settled on a budget for the remainder of the fiscal year regarding our travel.

On the CO side, we have \$45,000 left for travel. COC meetings cost and average of \$6,000 per month or \$30,000 for the last five months. I have allocated 12 nights for jump teams at \$250 a night or \$3,000 so that we can send people to other parts of the state that may need help. I try to keep a 5% reserve which is \$2,250 which leaves \$9,750 for training. It costs roughly \$350 per person to train in Lakewood which means I can bring in 27 people for a limited training. That most likely will be the CED's but I am still working through the details. I am looking at regional trainings that would not be overnight.

On the GS side, we have \$56,000. I have allocated \$22,000 for Farm Loans to do site visits and training. I anticipate our acting Farm Loan Chief will do a training at the STO as part of that allocation. I have budgeted \$15,000 for STC meetings as it costs around \$5,000 per meeting to hold them at the STO. My plan is to alternate in person and virtual meetings. I have budgeted \$7,500 for DD travel for Sam. I have added \$1,500 for DD travel to Jon's old district in which Jon and I continue to cover. I have allocated 9 nights at \$250 per night or \$2,500 for Chiefs and Specialists to travel. A 5% reserve is \$2,800 which leaves \$4,700 for my travel. If we need more, the SED travel will be reduced.

WELD COUNTY OFFICE:

We finished moving into the Weld County temporary office on Thursday, May 14. Although the printers were late being delivered and we did not have them until the following Monday.

We still don't know when they will award the permanent office space as it was supposed to happen April 1 and did not. I have quickly learned that the Business Center in DC is not efficient nor is it helpful in lease negotiations and finalizations. This is a problem across the country and SED's are seeking change.

POLICY ISSUES:

We continue to work on the prevent plant issue that will be prevalent in Colorado this year with the drought. It will be interesting to see the drought map with the recent rains and the final plant dates sneaking up on us.

STC SUPPORT:

The State Committee continues to monitor the work of COC's and is very engaged in policy. They are working to change policies that fit under their purview such as grazing issues. I am very impressed with this STC and the work they want to accomplish to help producers.

SED THOUGHTS:

My one year anniversary was May 5 and I have learned a lot, much was not what I had anticipated.

In the last month or so I traveled to Ignacio where I spoke to the La Plata Cattlemen. I also traveled to Hudson and Springfield to participate in Congresswoman Boebert's staff Roundtables.

I also spent three days assisting Mesa and Garfield Counties doing second party reviews after Jon did some training work with me. There are probably better people to do those but I want to be helpful. Even if I get in the way, I hope being in other offices is helpful and welcome. I did get to meet with the Mesa COC which was wonderful to have a discussion on what they are seeing and what they may need.

June will be busy with the Cattlemen's convention as well as the Livestock Association annual meeting.

I anticipate the Secretary will visit Colorado and continue to be ready to respond to that request as it has been on again and off again.

My goals for the next year are to visit COC's. In the last year I sat in on meetings in Logan, Phillips, Weld and met with Mesa. I hope to meet with most of the COC's in the next 12 months and that started with El Paso COC on May 20.

District 1 Update
Scott Brase
May 28, 2026

Program Updates:

- **ARC/PLC-** Offices are wrapping up the farm history research and the filling holes in preparation for updates to base acreage. Counties that have remaining farms on the report are predominantly grass acres without base acreage.
- **NAP-** Offices are fielding questions about prevented planting due to the lack of irrigation water. Losses on perennial crops due to drought are being submitted.
- **CRP-** Offices are working with NRCS to develop Conservation Plans for accepted offers. There has been more interest in the Grasslands CRP than for General and Continuous signups, however, interest is still lower than past years due to lower rental payments.
- **SDRP 1&2.** Offices are working with producers to get any remaining application information needed to act on any remaining applications.
- **Acreage Certification-** Producers are starting to report their planted acreage as well as inquiring about Prevent Plant requirements.

Staffing Updates:

Both Baca and Prowers PA vacancy announcements have closed and interviews are being scheduled.

Farm Loan

New loan application activity has slowed as field activity increases. Most of the applications continue to be for Farm Ownership loans. Both offices have been busy with servicing activities for producers who are experiencing hardships due to increases in expenses and decreases in income.

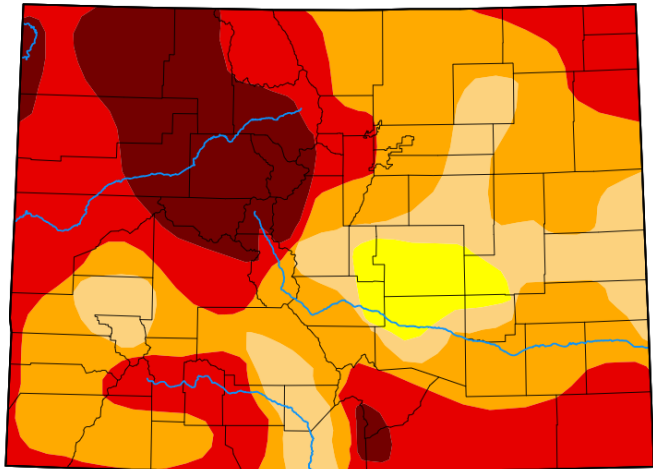

Crop Conditions, Livestock, and Weather:

Weather conditions continue to be very dry, windy, and warm over most of the district. There have been a couple of moisture events that brought widespread beneficial precipitation to most of the area, with amounts ranging from a quarter of an inch to over an inch of water. Widespread hard freezes have damaged the Winter wheat and triticale as well as the alfalfa crop. The apple crop around Canon City was completely lost due to the freeze. Corn planting is underway and some producers have begun cutting alfalfa in hopes that it will restart the growth that was stunted by the freeze, drought, and insect pressure. Livestock continues to do well, and spring calving is winding down for some producers. Native grass pastures are trying to green up with the moisture that has been received. There have been reports of increased hay purchases and heavier than normal culling in anticipation drought affected pastures and some producers are now reducing herd size due to a lack of forage.

Drought conditions eased slightly from the previous week over the district, however over the past month drought has remained the same or intensified In District 1. Snowpack continues to be at record lows for the water year with the Arkansas at 14% of normal.

Irrigation has begun using early runoff and winter storage water. Water availability forecast for both surface and well water has been greatly reduced, with some canals anticipating only 20% of normal water availability. Some ditches have already shut off due to being out of water.

May 14, 2026

Intensity

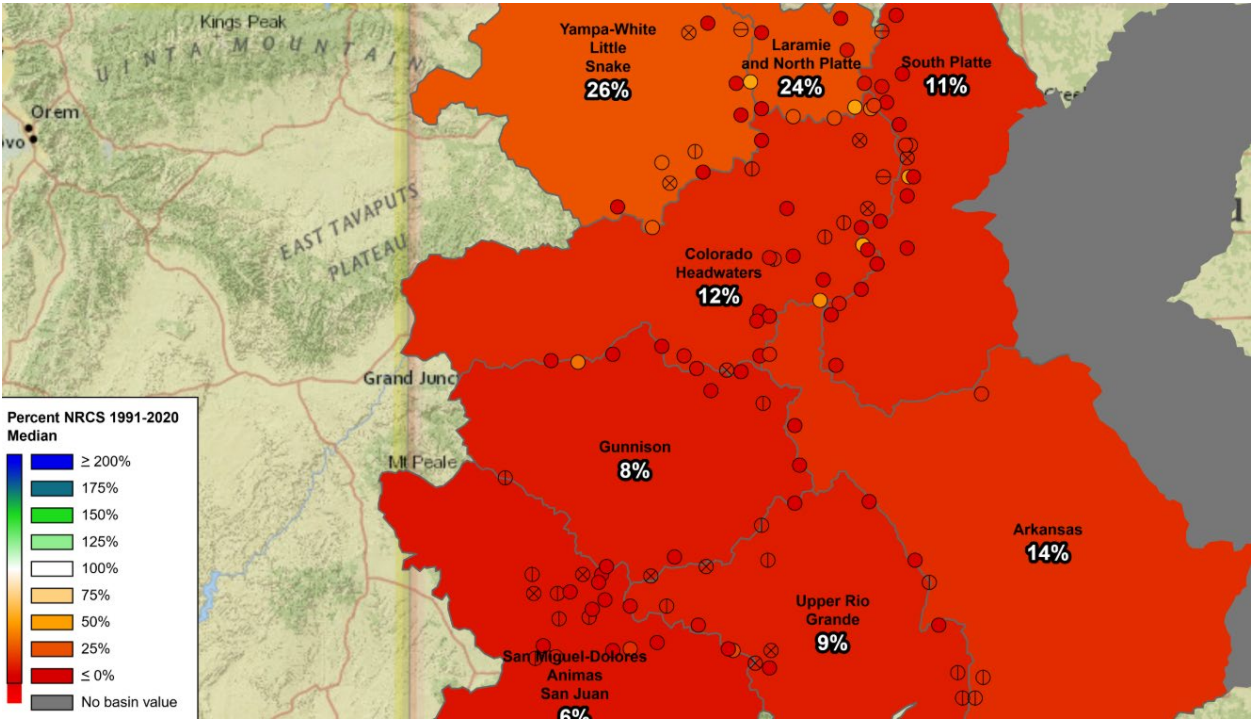

- None
- D0 (Abnormally Dry)
- D1 (Moderate Drought)
- D2 (Severe Drought)
- D3 (Extreme Drought)

District 2 Update
Jon Weishaar
May 28, 2026

Program Updates:

- **ARC/PLC** – Offices have wrapped up the history dig. We are getting an update from the national on 5/20/2026 which is after this report is being written.
- **CRP** – General, Continuous, and Grasslands signups have not been very popular this year in District 2. Grasslands signup is set to close May 29th. This was expected due to a relatively low number of expiring contracts.
- **FBA** – The program has wrapped up and all payments in District 2 have been issued.
- **ECP & EFRP** – Offices are continuing to work with producer to get applications complete. More questions are coming up with additional counties triggering for the programs. We have built a good relationship with the program manager and continue to get answers out to the field.
- **ELAP & LFP** – All District 2 counties have triggered for 2026 ELAP & LFP and applications are starting to come in. The continued administration of these disaster programs is causing a lot of extra workload for the offices. Changes in FSA policy to align with OBBBA are expected to cause additional administrative work as well.
- **SDRP 1&2** – We continue to have problems with the program software pulling in data, but we're working through applications as allowed. Most eligible producers have applied and the program deadline was extended to August 12th.

Staffing Updates:

- Krystina Wheeler in Routt County resigned 4/17/2026

Crop Conditions, Livestock, and Weather:

Snowpack is still well below average, now about 12% of median marking one of the lowest levels ever seen at this time of the year. Temperatures are still several degrees above average as well which is accelerating snowmelt and drying soils. Soil moisture and crop conditions, especially winter wheat on the eastern plains, are under severe stress. A May storm caused slight improvement on the US Drought monitor, but it appears to have been too late to save the wheat. Continued moisture could bring back the perennial forages during the grazing/growing season, but they're starting behind with the lack of snowfall.

**District 3 Update
Woody Woods
May 28, 2026**

Program Updates:

- **SDRP 1** – All offices have pending applications due to the last update. We hope the next update provides clarity. Payment activity as of 5-18-26 is provided.
- **CRP** – Offices continue working with NRCS for conservation plans. Emergency grazing may become interesting if additional moisture is received.
- **Acreage reporting** – Spring reporting has begun. Prevent plant is expected to be common with surface water irrigators.

Staffing Updates:

- Permanent PA interviews in Washington and Yuma were conducted the week of May 18 – 22.
- CED vacancies remain in Phillips, Sedgwick, and Weld.
- The temp PAs in Phillips, Weld, Washington, and Yuma continue to be productive.
- Selected temp PAs in Kit Carson and Logan.
- FLP temp in Sterling resigned and we will begin advertising

Crop Conditions, Livestock, and Weather:

Recently, the district has begun receiving some moisture. Although the area is still deficient and the moisture is too late for most winter wheat, it has brought optimism for spring planted crops, mainly nonirrigated fields and ground water irrigators. Late freezes have been concerning for wheat.

Hot Topics:

- Attended Congresswoman Boebert's round table discussion with Jerry.

District 4 Update
Sam Montoya
May 28, 2026

Program Updates:

- 2026 Acreage reporting in progress.
- **2025 NAP** – County offices are wrapping up grazing loss applications for payment.
- **2026 NAP** – Counties are wrapping up 2026 APH's and taking 2026 NOL.
- **ELAP** – All Counties in District 4 have triggered for ELAP except for Alamosa County. Counties are accepting 2026 ELAP NOL primarily for hay and water hauling.
- **LDP** – County offices are processing wool LDP's.
- **LFP** – All Counties in District 4 have triggered for LFP except for Alamosa County. Counties are accepting 2026 LFP applications.
- **ECP** – The following County Offices are in the process of implementing ECP: Mesa (wildfire & flooding), Garfield (wildfire), La Plata (flooding), Hinsdale (flooding)
- **FBA** – Total payout amount in D4 – \$3,210.872.00
- **SDRP Stage 2** – In progress

Staffing Updates:

- Mesa has advertised a temporary position; no applications have been received.
- Garfield has advertised a temporary position; no applications have been received.
- Rio Grande interviewed an applicant for a temporary position on April 21st. Applicant was offered the position but turned it down due to no guarantee of an extension beyond September 30th.
- Madeline Keck – La Plata PA resigned May 1st.

Crop Conditions, Livestock, and Weather:

- The Western Slope has received some rain but it has been spotty. April freeze in Mesa, Montrose and Delta counties has been devastating for the fruit crop.
- Due to ongoing drought conditions, producers are reducing planted acreage or shifting to crops that require less water. Sweet corn acres will be reduced this year.

Hot Topics:

- Prevent Plant
- Drought
- Federal permits are getting reduced time/numbers.
- Hot dry weather with breezy conditions is a concern for wildfire.

Acting Farm Loan Chief's Update
Kim Lacy
May 28, 2026

Upcoming Announcements: N/A

Colorado Loan Data:

Loan Portfolio: Total loans obligated in FY 2026 (10/1/2025 to 05/19/2026) by service center.

Servicing Office	Direct Loans Obligated	Dollars Obligated	Guaranteed Loans Obligated	Dollars Obligated
Alamosa	15	\$2,132,170.00	2	\$795,000.00
Prowers	31	\$4,786,320.00	1	\$100,000.00
Pueblo	16	\$4,224,000.00	0	\$0
Adams	13	\$1,183,000.00	0	\$0
Lincoln	11	\$1,118,200.00	0	\$0
Logan	17	\$3,457,300.00	12	\$5,781,000.00
Mesa	11	\$376,400.00	1	\$275,000.00
Montezuma	9	\$1,715,230.00	0	\$0
Total	123	\$18,992,620.00	16	\$6,951,000.00

Hot Topics:

- Discussion of loan numbers above. For both Direct and Guaranteed Loans, the number of loans is down compared to this time in 2025, dollars obligated are also down from 2025.
- Loan funding – Loan funding for 2026 is expected to be adequate for the anticipated loan needs.
- Special Servicing:
 - There are options for loan customers during financial stress. If a borrower is unable to make payments on a loan, recommend they contact the local FSA Farm Loan Manager to learn about options.
 - Restarting the salary offset for federal employee and consumer debt referrals. STO received a list of borrowers who have been matched as potentially eligible for salary offset.
- Bryan Cook will be assisting FLP STO on a more formal and consistent basis due to FLC vacancy and demand of special servicing items being elevated and requiring STO assistance.
- FLP Training Updates: No updates from April report.
- Vacancies: FLC, Sterling FLOT, Sterling PT/LA, Pueblo PT/LA, Alamosa PT/LA

Farm Program Chief's Update
Cindy Vukasin
May 28, 2026

Upcoming Announcements:

Program Updates:

- **NAP:**
 - PY – 2026: 2,474 Applications for coverage approved (AFC) additional 44 in process (signed by producer or pending). PY 2025 – 2,516 AFC approved.
 - PY 2025 payments disbursed: \$3,998,427
- **LFP:**
 - PY 2025: 1,117 Applications approved; Payments disbursed: \$14,644, 657
 - PY 2026:

The screenshot shows the USDA LFP DASHBOARD for Program Overview (2025 and Subsequent Years). The filters applied are: Program Year: 2026, Region: All, State: COLORADO, District: All, County: All, Submission Method: All, Livestock: All, Disaster: All, Pasture Type: All. The dashboard displays the following statistics:

TOTAL APPLICATIONS FILED	APPLICATION STATUS				PAYMENTS DISBURSED
241	Initiated 175	Enrolled 76	Approved 37	Disapproved	\$287,451

- PY 2026 Counties that have triggered: **Yellow rows are new** since last STC meeting

**Farm Program Chief's Update
Corey Pelton
May 28, 2026**

Conservation:

General CRP: Accepted/Rejected applications were received May 12; Colorado had 284 accepted applications out of the 308 submitted. So, 92.22% of Colorado offers were accepted, which is a high acceptance rate.

Conservation Plans are required to be signed and submitted by August 14, 2026, and all approvals must be loaded into the conservation system by September 30, 2026.

Continuous CRP: Second batching period closed and all offers for Colorado that were submitted were accepted. Producers can continue to submit new continuous offers, however there is no guarantee that there will be another batching this year, so those submissions may not be accepted.

Conservation Plans are required to be signed and submitted by September 18, and all approvals must be loaded into the conservation system by September 30, 2026.

Grassland CRP: Sign-Up period May 4 – May 29, 2026.

EFRP/ECP

ECP/EFRP activity has increased significantly since the end of FY25 and with persistent drought conditions creating ideal wildfire potential, activity across the programs continues to increase. The following are ECP/EFRP signups that have occurred, or continue to occur, throughout the state:

<u>Name:</u>	<u>Effected Counties:</u>	<u>Signup Dates:</u>	<u>Program:</u>
Teller County Tornado	Teller County		EFRP
Adams County Tornado	Adams County	January 15 th - February 17 th	ECP
Archuleta County Flood	Archuleta County	May 4 th - July 6 th	ECP

Elbert County Wildfire	Elbert/Lincoln County	April 17 th - June 16 th	ECP
El Paso County Wildfire	El Paso County	May 12 th - July 13 th	ECP
Mesa County Flood	Mesa County	March 16 th - May 15 th	ECP
Mesa County Flood	Mesa County	December 3 rd - April 1 st	ECP
Rio Blanco Wildfire	Rio Blanco County	September 10 th - May 5 th	ECP
Routt County Wildfire	Routt/Rio Blanco County	December 1 st - March 31 st	ECP
Routt County Wildfire	Routt/Rio Blanco County	December 1 st - May 1 st	EFRP

Recently the national office sent down a decision regarding our request to increase the ECP cost share rate for fence replacement. Previously the 100% rate for Multi-Strand Barb Wire, Difficult Terrain was set at a rate of \$4.04 per foot. National Office has increased the 100% rate of this component to \$6.25. Luckily this change was applied automatically to all applications loaded in the ECP software and did not require any sort of manual revision from any county office staff.

Additionally, the national office created a new, unique scenario just for CO called Multi-Strand Barb Wire, Very Difficult Terrain. The 100% rate for this component is set at \$13.88.

I believe these changes will greatly improve the financial assistance we are able to offer producers affected by the wildfires on the Western Slope while also being reasonable about fence pricing in other areas of the state.

At the time of writing this report, the Colorado State Office is still waiting to receive a decision from DAFP on the alternative fencing standards and specifications request that was submitted but remain hopeful that DAFP will grant this waiver.

Also, in passing weeks, the Colorado State Office has become aware of a need for utilization of Rangeland Planting in Elbert and El Paso County. Currently, ECP policy restricts reestablishment of permanent cover to small, critical area planting and does not permit wide, rangeland replanting. Due to this, a request was submitted to DAFP to allow Rangeland Planting through ECP in Colorado. This request has been submitted and awaits a final decision by DAFP.

SDRP:

Deadlines for both Stage 1 and Stage 2 SDRP were extended to August 12, 2026, to help with the data issues that were being experienced and holding up some applications. Most applications in Colorado have been submitted, approved, and paid; however, this will allow those other applications more time to ensure information is correct before final submission.

In addition to the deadline extension, the payment rate in the calculation has increased from 35% to 70%. Applications that have already been paid will receive a top-up payment accounting for that difference and all new applications that have not been processed will be calculated using the 70%.

Spot Checks:

County offices and STO are currently performing national office spot checks for both the Marketing Assistance for Specialty Crops (MASC) and Emergency Commodity Assistance Program (ECAP) programs.

There were 4 ECAP applications and 29 MASC applications pulled for spot check. Selections of spot-checked applications are made by national office using a statistical formula for ECAP and a random sampling for MASC.

MASC Spot Checks are due by August 21, 2026

ECAP Spot Checks are due within 30 days of the County Office receiving documentation from the producer.

Deputy State Executive Director

Jon Weishaar
May 28, 2026

Staffing & Hiring

We have advertised 4 permanent PA positions in Colorado. These positions are in Baca, Washington, Prowers, and Yuma. As ceiling numbers allow, Jerry and I will work with the DDs to determine which offices need to be prioritized for hiring. We continue to be grateful for the Idaho administrative team as they help us with the advertising, hiring, and onboarding of new employees.

We currently do not have availability to hire any GS employees as we remain overleveraged according to the model provided to us.

We are also working to fill the various temporary PA positions around Colorado. These positions are currently funded through 9/30/2026.

Budget

Offices have started submitting supply and equipment orders to the Idaho admin team now that we have the full-year allotment. We will monitor the supply and equipment budgets throughout the year to ensure that we don't exceed our allotments.

Travel is also picking up with the full-year allotment. Numerous considerations are made when looking at the travel budget including COC/STC travel, DD travel, trainings, meetings, jump teams, and outreach.

Special Projects

The Weld office completed the move to their temporary leased space 5/14/2026.

Now that this project is done, my aim is to refocus efforts toward improving the Colorado SharePoint and visiting offices.
