

Colorado State Committee Meeting – May 28, 2026

Executive Session Minutes

Meeting Place:	Via TEAMS
Members Present:	Don Brown, Chairperson Kyle McConnell, Member Steve Raftopoulos, Member Joe Petrocco, Member
Staff Present:	Jerry Sonnenberg, State Executive Director Jon Weishaar, Deputy State Executive Director Cindy Vukasin, Farm Program Chief Corey Pelton, Farm Program Chief Janae Rader, Farm Program Specialist Doug Andresen, Farm Program Specialist Hunter Cleveland, Farm Program Specialist Julie Sporhase, Farm Program Specialist Woody Woods, District Director Scott Brase, District Director
Guests:	Dara Belew, CED – for Otero/Crowley COC items only

1. Call to Order

The Colorado State Committee (STC) met on May 28, 2026, via TEAMS. Don Brown, State Committee Chairperson opened the Executive Session at 10:20 a.m.

2. Approve Executive Session Minutes

A April 23, 2026, Minutes

The STC reviewed the Executive Session minutes from the April 23, 2026, meeting. After reviewing the minutes, Kyle McConnell, made a motion to approve the minutes as presented. Steve Raftopoulos seconded the motion. Motion passed.

3. Conservation Reserve Program (CRP)

A 321 Equitable Relief – Misaction/Misinformation – Alamosa – Oklahoma Judicial Process Servers LLC

Hunter Cleveland, Farm Program Specialist, presented the STC with the case file (Exhibit 1) to review and make a determination on the request for Equitable Relief- Misaction/Misinformation submitted by the Alamosa/Costilla COC on behalf of Oklahoma Judicial Process Servers LLC for the Misaction/Misinformation on the Grassland CRP

Signup 206 offer on tract 1663. If relief is granted, Alamosa/Costilla COC also requests a contract effective date of 10/01/2024.

Discussion/Facts:

- The September 13, 2024, approval of the CRP-1 was not properly loaded in the Conservation On-line System (COLS).
- The contract was approved prior to obtaining an interim or final conservation plan.
- The contract was approved prior to obtaining the required CCC-941 Average Adjusted Gross Income form for all required participants.
- Producer signatures were not obtained by the Alamosa Acting CED on the CRP-1 and CRP-2G as required by CRP policy prior to official offer submission.

After reviewing the applicable policies and supporting documentation (Exhibit 1), Kyle McConnell, moved to recommend DAFP approve the Equitable Relief Request-Misaction/Misinformation submitted by the Alamosa/Costilla County Committee on behalf of Oklahoma Judicial Process Servers LLC for the Misaction/Misinformation on the Grassland CRP Signup 206 offer on tract 1663. In addition to having the effective date be October 1, 2024. Steve Raftopoulos seconded the motion. Motion passed.

4. Conservation Reserve Program (CRP)

A Establishment of additional FY26 CRP Cost Share component and rate

Hunter Cleveland, Farm Program Specialist, presented the STC with the following information in Exhibit 2 to review and make a determination on establishing additional CRP cost share components and rates for 2026.

According to Handbook 2-CRP (Rev.6) paragraph 495, STC's are authorized to develop a state program and C/S policy based on guidelines established within Handbook 2-CRP (Rev. 6). STC's can also establish state rates rather than having COC's establish individual county rates. Colorado STC has elected to continue with implementing state rates.

The FY 26 CRP Cost Share Rates were established by the previously Colorado STC. However, it has determined that the following, additional cost share component and rate was needed for FY 2026 and future years:

STC Approved: PY26 additional CRP component and rate

Component Code	Description	Measurement	Rate	Type of Rate
26COCR1001	Post Fire-Mulching (Straw)	Acre	\$125.00	Not to Exceed

After reviewing the applicable policies and supporting documentation in Exhibit 2 and STC knowledge, Kyle McConnell moved to add the proposed CRP Component and increase the recommended rate to \$125.00 as a Not to Exceed rate as shown above. Joe Petrocco seconded the motion. The motion passed.

5. Emergency Forest Restoration Program (EFRP)

A Establishment of additional FY2026 EFRP Cost Share components and rates

Hunter Cleveland, Farm Program Specialist, presented the STC with the following information in Exhibit 3 to review and make a determination on establishing additional EFRP cost share components and rates for 2026.

According to Handbook 1-EFRP(Rev.1) subparagraph 66A, the STC will review and determine EFRP cost share rates annually.

The FY 26 EFRP Cost Share Rates were established during the April Colorado STC meeting. However, it was determined that the following, additional cost share rates are needed for FY 2026:

STC Approved: PY26 additional EFRP component and rate

Component Code	Description	Measurement	Rate	Type of Rate
26COEFRP24	Woven Wire	Feet	\$8.50	Not to Exceed
26COEFRP22	Multistrand Barbed/Smooth Wire Very Difficult Terrain	Feet	\$13.88	Not to Exceed

After reviewing the applicable policies and supporting documentation in Exhibit 3, Steve Raftopoulos moved to add the proposed components and the proposed rate as presented and shown above. Kyle McConnell seconded the motion. The motion passed.

6. Emergency Conservation Program (ECP)

A Hunter Cleveland, Farm Program Specialist, presented the STC with the following information in Exhibit 4 to review agricultural market land value established by the Rio Blanco COC for 2026.

The Rio Blanco COC took action on April 9, 2026 and set the agricultural market land value for Rio Blanco County as follows:

- Rangeland: \$2,250/acre
- Dryland Cropland: \$2,500/acre
- Irrigated Cropland: \$11,550/acre

STC reviewed applicable policies and supporting documentation in Exhibit 4. STC concurred. No action required by STC.

7. Noninsured Crop Disaster Assistance Program (NAP)

A 2026 – Crop Table Review

1) Cucumbers

Janae Rader, Farm Program Specialist, presented the STC with the information in Exhibit 5 to review and make a determination on County Expected Yield (CEY) and Average Market Price (AMP) on Cucumbers as recommended in the table below.

2026 STO Approved yield and price

County	Type	IU	Ir/ Ni	UOM	CEY	Price	Organic Yield	Transiti onal Yield	Organic Price	Direct Market Price
Crowley	ENG	FH	I	TON	8.63	\$404.06				525.27
Fremont	COM	FH	I	TON	5.26	\$404.06				525.27
Otero	ENG	FH	I	TON	6.80	\$404.06				525.27
Otero	PKL	FH	I	TON	6.36	\$434.48				564.82
Pueblo	COM	FH	I	TON	5.80	\$404.06				525.27
Pueblo	ENG	FH	I	TON	6.71	\$404.06				525.27

Weld	COM	FH	I	TON	6.62	\$404.06				525.27
Weld	ENG	FH	I	TON	4.97	\$404.06				525.27
Weld	PKL	FH	I	TON	5.18	\$434.48				564.82

Intended Use Key: CB=cannabidiol, DE= dry edible, FB=fiber, FG=forage, FH=fresh, GR=grain, NT=non-table, OL=oil, PR=processed, SD=seed, SG=silage, SO=sod, TB=table

After reviewing the applicable policies and supporting documentation (Exhibit 5), Kyle McConnell moved to approve the proposed County Expected Yield (CEY) and Average Market Price (AMP) on Cucumbers as presented and shown in the table above for the 2026 NCT. Kyle McConnell, seconded the motion. Motion passed.

B New Crop Requests for NCT

1) 2025 San Miguel Triticale Fg Ni

Janae Rader, Farm Program Specialist, presented the STC with the following information in Exhibit 6 to review and make a determination on a new non-irrigated (Ni) practice for Triticale with the intended use of forage (Fg) to be added as a NAP covered commodity for 2025 and succeeding years in San Miguel County.

STC determined the crop is not an experimental crop for San Miguel County.

2025 STO Approved NCT Data.

PP Factor	UH Factor	Certified Organic Factor	Transitional Organic Factor	Final Planting Date	Normal Harvest Date	Application Closing Date
0.77	0.93			05/15	10/31	09/01

Unit of Measure in tons	2018	2019	2020	2021	2022	2023
Yield	0.39	1.31	1.10	0.33	0.57	0.10

After reviewing the applicable policies and supporting documentation (Exhibit 6), Kyle McConnell moved to approve the San Miguel a County's request to add a new non-irrigated (Ni) practice for Triticale with the intended use of forage (Fg) as a NAP covered commodity for 2025 and succeeding years in San Miguel County as presented and shown above. Steve Raftopoulos seconded the motion. Motion passed.

2) Dolores Mixfg LGG Fg Ir

Janae Rader, Farm Program Specialist, presented the STC with the following information in Exhibit 6 to review and make a determination on a new irrigated (Ir) practice for Mixed Forage, Legume, Small Grain, Grass interseeded (LGG) with the intended use of forage (Fg) to be added as a NAP covered commodity for 2025 and succeeding years in Dolores County.

STC determined the crop is not an experimental crop for Dolores County.

2025 STO Approved NCT Data.

PP Factor	UH Factor	Certified Organic Factor	Transitional Organic Factor	Final Planting Date	Normal Harvest Date	Application Closing Date
0.25	0.75			07/01	10/15	12/01

Unit of Measure in tons	2018	2019	2020	2021	2022	2023
Price	\$150.00	\$228.00	\$168.00	\$202.00	\$206.00	\$215.00
Yield	1.65	1.85	1.70	1.01	1.65	1.39

After reviewing the applicable policies and supporting documentation (Exhibit 7), Kyle McConnell moved to approve the Dolores County's request to add a new irrigated (Ir) practice for Mixed Forage, Legume, Small Grain, Grass interseeded (LGG) with the intended use of forage (Fg) as a NAP covered commodity for 2025 and succeeding years in Dolores County as presented and shown above. Joe Petrocco seconded the motion. Motion passed.

3) Rio Blanco Mixfg GMA Fg Ir and Mixfg GMA Fg Ni

Janae Rader, Farm Program Specialist, presented the STC with the following information in Exhibit 8 to review and make a determination on adding to the NCT Grass Mix Alfalfa (GMA) for forage (fg) with both an irrigated (Ir) and non-irrigated (Ni) practice as a NAP covered commodity for 2025 and succeeding years in Rio Blanco County.

STC determined the crop and practices are not an experimental crop for Rio Blanco County.

2025 STO Approved NCT Data

PP Factor	UH Factor	Certified Organic Factor	Transitional Organic Factor	Final Planting Date	Normal Harvest Date	Application Closing Date
-	0.75			-	10/15	12/01

Unit of Measure in tons	2018	2019	2020	2021	2022	2023
Price	\$150.00	\$228.00	\$221.00	\$236.00	\$244.00	\$225.00
Mixfg GMA Fg Ir	0.67	0.46	0.90	0.895	0.85	0.70
Mixfg GMA Fg Ni	0.17	0.1	0.1	0.34	0.1	0.35

After reviewing the applicable policies and supporting documentation (Exhibit 8), Kyle McConnell moved to approve the Rio Blanco County's request to add a Grass Mix Alfalfa (GMA) for forage (fg) with both an irrigated (Ir) and non-irrigated (Ni) practice as a NAP covered commodity for 2025 and succeeding years in Rio Blanco County as presented and shown above. Steve Raftopoulos seconded the motion. Motion passed.

8. Otero COC Actions

In accordance with 7 CFR 7.1(c), State committees will take any actions required by these regulations that have not been taken by a county committee. Don Brown, STC Chairperson, will electronically sign the documents for these actions.

A Supplemental Disaster Program (SDRP)

Presented by: Dara Belew, Otero/Crowley County Executive Director

1) Supplemental Disaster Program (SDRP) Stage 1

The STC reviewed policy, the SDRP Applications and supporting documentation that was presented by CED. See Exhibit 9, section 7.a.1 for details and list of producers whose CCC-526, SDRP Stage 1 Applications were reviewed. After reviewing the applications, Kyle McConnell moved and Joe Petrocco seconded the motions to approve the applications. Motion passed

2) Supplemental Disaster Program (SDRP) Stage 2

Presented by: Dara Belew, Otero/Crowley County Executive Director

The STC reviewed the SDRP Applications for State 2 that were approved by CED between meetings. See Exhibit 9, section 7.a.2 for details and list of producers whose CCC-504, SDRP Stage 2 Applications were acted upon.

B Livestock Indemnity Program (LIP)

Presented by: Dara Belew, Otero/Crowley County Executive Director

The application for 2025 LIP for Emma Richardson was tabled due to additional information submitted and the need to review the documentation and policy. See Exhibit 9, section 7.b.1.

C Common Management (CM)

Presented by: Dara Belew, Otero/Crowley County Executive Director

The STC reviewed the Farm changes that were approved by CED between meetings per delegations. See Exhibit 9, section 7.c.1 for details and list of producers and farm changes approved by CED.

D Payment Eligibility (PL)

Presented by: Dara Belew, Otero/Crowley County Executive Director

The STC reviewed the actively engaged determinations made by CED between meetings per delegations. See Exhibit 9, section 7.d.1 for details and list of producers that CED made actively engaged determinations on.

E Non-Insured Crop Disaster Program (NAP) Application for Coverage-late file

Presented by: Dara Belew, Otero/Crowley County Executive Director

1) Actual Production History (APH)

The STC reviewed the CCC-452, Actual Production History (APH) and Approved Yield Records for Crop Year 2025 were approved by CED between meetings. See Exhibit 9, section 7.e.1 for details and list of producers whose form CCC-452 were acted upon.

2) 2025 Production

The STC reviewed 2025 production records submitted and determined acceptable by the CED between meetings per delegations. See Exhibit 9, section 7.e.2 for details and list of producers that CED reviewed production records on.

9. Adjournment

There being no further business, the Executive Session was adjourned at 11:50 a.m. The next meeting is scheduled for June 24, 2026, in person and via TEAMS.

Executive Session

Conservation Reserve Program (CRP)

Equitable Relief – Misaction/Misinformation

Grassland CRP Signup 206 Offer

Alamosa/Costilla – Oklahoma Judicial Process Servers LLC.

State Committee Discussion Record

Program: Conservation Reserve Program

Date: 05/28/2026

Staff Member Presenting:

Hunter A. Cleveland

Action Requested:

Review the request for relief from the Alamosa County Committee for the Misaction/Misinformation on the Grassland CRP Signup 206 Offer on tract 1663 for Oklahoma Judicial Process Servers LLC.

STC Recommended Action:

It is recommended that the Colorado STC recommends that relief be granted to Oklahoma Judicial Process Servers LLC for the Misaction/Misinformation on the Grassland CRP Signup 206 Offer on tract 1663.

Additionally, it is recommended that the Colorado STC request a contract start date of 10/01/2024 and that all missed annual rental payments be issued to Oklahoma Judicial Process Servers LLC.

Background:

Notice CRP-1033 was published August 19, 2024, announcing the accepted and rejected status of all offers submitted for Grassland CRP Signup 206. Notice CRP-1033 also instructed that all required signatures and additional documentation be obtained, and final approval of the CRP-1 be issued, prior to close of business September 30, 2024.

In review of the accepted/rejected report provided in Notice CRP-1033, it shows that the Grassland CRP Signup 206 offer for tract 1663 was submitted timely and accepted into the program.

On September 13, 2024, the Alamosa Acting CED obtained a signature from Oklahoma Judicial Process Servers LLC on the CRP-1 and CRP-2G. Additionally, the Alamosa Acting CED approved the offer with a manual signature on the CRP-1.

On July 31, 2025, the Alamosa CED conducted a review of Grassland CRP Signup 206 contracts and discovered that the following misactions were taken by the Alamosa Acting CED:

- The September 13, 2024, approval of the CRP-1 was not properly loaded in the Conservation On-line System (COLS).
- The contract was approved prior to obtaining an interim or final conservation plan.
- The contract was approved prior to obtaining the required CCC-941 Average Adjusted Gross Income form for all required participants.

On March 12, 2026, the Alamosa County Committee acted to recommend relief be granted to Oklahoma Judicial Process Servers for the Grassland CRP Signup 206 offer on tract 1663 due to misaction/misinformation of the Alamosa Acting CED for the following reasons:

- The delay resulted solely from county office error, specifically the failure to enter the Grassland CRP Contract approval dates into the software and failure to collect the CCC94 I form.
- The producer fulfilled all program requirements and submitted all required documentation.
- The producer had no indication from FSA that the contract was incomplete or that further action was required.
- The producer acted in good faith and had no reason to know that the electronic approval step remained unfinished and the requirements to have the conservation plan and CCC-941 on file prior to approval of the CRP-1 was not met.

The Alamosa CED submitted this request for relief to the Colorado STC on April 7, 2026. In review of this request, the Colorado STO discovered the following additional misaction:

- Signatures were not obtained by the Alamosa Acting CED on the CRP-1 and CRP-2G as required by CRP policy prior to official offer submission.

In review of Notice CRP-1033, and the subsequent accepted/rejected report, the Colorado STO was able to verify that the offer for tract 1663 was submitted in COLS timely as the offer would not have otherwise been included on the accepted/rejected report. While signatures are required on the CRP-1 and CRP-2G in order to constitute an official CRP offer, it is the belief of the Colorado STO that the CRP participant was not presented with the opportunity to sign the CRP-1 and CRP-2G prior to September 13, 2025.

**Costilla County FSA**

101 South Craft Drive
Alamosa, CO 81101

Ph: (719) 992-3717
Fx: (844) 889-8078

DATE: April 6, 2026**TO:** Colorado State FSA Committee
Hunter Cleveland, Agricultural Program Specialist**FROM:** 
Sonya Yund, CED
Costilla County FSA Committee**SUBJECT:** Grasslands CRP SU-206 Oklahoma Judicial Process Servers LLC**Background**

On July 31, 2025 Sonya Yund, CED noticed the contract number was missing from Oklahoma Judicial Process Servers LLC Grasslands CRP contract while she was organizing the documentation in the producers CRP folder. When she attempted to pull the contract information from the CCMS software she discovered the contract was not in the system at the time of approval by Jensen Maez, acting CED at the time.

September 3, 2025 Sonya Yund, CED started gathering the necessary information for the relief case. However, after contacting Jensen Maez, CED she could not find any record of receiving or sending a CCC941 form for the entity or Makayla to complete. On September 10, 2025 Sonya reached out to Oklahoma's Texas County FSA office who at the time was listed as the entities recording county. She requested all payment eligibility paperwork and asked if they had a 2024 CCC941 for the entity and sole member. They replied back the next day they had not received a 2024 CCC941 form and attached the CCC902, CCC903, AD1026 they had on file. On October 23, 2025 Sonya responded to an email from Makayla regarding the delay in payment and asked if she had received a CCC941 form, and if she did if she could forward the original email with the completed form to her. However, Makayla had never received or completed one. Sonya reached out to Jensen again, and she did not find an email to support sending or receiving the CCC941. Sonya had Makayla complete a 2024 CCC941 for Oklahoma Judicial Process Servers LLC and herself.

Committee Determination

On December 16, 2025 and March 12, 2026, the County Committee reviewed Oklahoma Judicial Process Servers CRP-1, CRP-2, conservation plan, and payment eligibility documentation.

USDA is an equal opportunity provider, employer, and lender.

The County Committee then reviewed Par. 44 of 7-CP, which outlines the criteria for granting equitable relief in cases where a participant relied on incorrect action or information provided by the County Office. Based on the review, the Committee determined that:

- The delay resulted solely from county office error, specifically the failure to enter the Grassland CRP Contract approval dates into the software and failure to collect the CCC941 form.
- The producer fulfilled all program requirements and submitted all required documentation.
- The producer had no indication from FSA that the contract was incomplete or that further action was required.
- The producer acted in good faith and had no reason to know that the electronic approval step remained unfinished and the requirements to have the conservation plan and CCC-941 on file prior to approval of the CRP-1 was not met.

The County Committee concluded that the situation meets the criteria for misaction/misinformation under Par. 44.

After reviewing all materials, the County Committee determined that Oklahoma Judicial Process Servers LLC meets producer and land eligibility requirements and is requesting equitable relief through misaction/misinformation to allow the Grasslands CRP contract to be fully and properly entered and approved in the conservation software system.

**MINUTES OF THE COSTILLA COUNTY FSA COMMITTEE MEETING
EXECUTIVE SESSION**

DATE: March 18, 2026

TIME: 10:15 a.m.

PLACE: USDA Service Center
Costilla County FSA Office
903 Main Street
San Luis, CO 81152

PRESENT: Andy Espinosa, Chairperson
Billy Maestas, Vice Chair
Frances Santisteven, member
Sonya Yund, CED

ABSENT: n/a

ADMINISTRATIVE PROGRAMS

- A. The County Committee reviewed and approved the minutes of the meeting held on February 11, 2026.

ACREAGE REPORTING

- A. 

COMPLIANCE

- A. The COC reviewed a CCC576 prevent plant notice of loss that missed the January 13th meeting for Gilbert Fransen. The following prevent plant loss was disapproved due to no eligible drought loss. (referenced 2-CP paragraph 37A-C)

GRASSLANDS CONSERVATION PROGRAM (CRP)

- A. Sonya Yund, CED presented the finalized relief request for Oklahoma Judicial Process Servers LLC to the COC for review.

Background information was provided to the COC as follows:

1. Jensen Maez, acting CED approved the grassland contract September 13, 2024.
2. Helena Brunn, NRCS Rangeland Management Specialist emailed Sonya Yund, CED the conservation plan documents on December 13, 2024. Makayla Saramosing aka Tinsley Saramosing, sole member of the Oklahoma Judicial Process Servers LLC signed the documents in December as well. Sonya Yund, CED reviewed the documents and signed the CPA-1155 December 13, 2024.
3. On July 31, 2025 Sonya Yund, CED noticed the contract number was missing from the contract while she was organizing the documentation in the producers CRP folder. When she attempted to pull the contract information from the CCMS software she discovered the contract was not in the system at the time of approval by Jensen Maez, acting CED at the time.
4. After the September 3, 2025 COC meeting Sonya Yund, CED started gathering the necessary information for the relief case. However, after contacting Jensen Maez, CED she could not find any record of receiving or sending a CCC941 form for the entity or Makayla to complete. On September 10, 2025 Sonya reached out to Oklahoma's Texas County FSA office who at the time was listed as the entities recording county. She requested all payment eligibility paperwork and asked if they have the CCC941 that was not shown as loaded in subsidiary. They replied back the next day they had not received a 2024 CCC941 form and attached the CCC902, CCC903, AD1026 they had on file. On October 23, 2025 Sonya responded to an email from Makayla regarding the delay in payment and asked if she had received a CCC941 form, and if she did if she could forward the original email with the completed form to her. However, Makayla had never received or completed one. Sonya reached out to Jensen again, and she did not find an email to support sending or receiving the CCC941. Sonya had Makayla complete a 2024 CCC941 for Oklahoma Judicial Process Servers LLC and herself.
5. While completing the review process it was discovered that Jensen Maez, acting CED had not presented the Grassland CRP contract before the COC, and it was not added to the minutes as being approved by delegation of authority in September of 2024.
6. During the September 3, 2025 executive session meeting, Sonya Yunc, CED notified the COC that she was preparing a relief case due to misaction/misinformation for the Oklahoma Judicial Process Servers LLC on a 2024 Grasslands CRP contract. Acting CED, Jensen Maez, accepted and approved the Grassland CRP contract on September 13, 2024, however, approval dates were not entered into the COLS software prior to the September 30th deadline, therefore the contract was not finalized. After further review the CED discovered that a CCC941 was not obtained for the entity or sole member before the contract was approved.
7. During the December 16, 2025 executive session meeting the CED and the COC discussed Par. 44 of 7-CP, which outlines the criteria for granting equitable relief based on misaction/misinformation by the County Office. After reviewing the facts of the case, the Committee determined that the delay was caused solely by county office error when staff failed to enter the Grasslands CRP contract approval dates into the software system. Oklahoma Judicial Process Servers LLC fulfilled all program requirements, submitted all required documents they received from Jensen Maez, acting CED, and had no indication from FSA that further action was needed. The Committee concluded that the participant relied in good faith on the county office's actions and had no reason to know the electronic approval step had not been completed or a CCC-941 form was to be

7

completed at the time of offer submission. The situation meets the criteria for misaction/misinformation under Par. 44. Frances Santisteven, Chairperson, signed the FSA-321.

8. Before submission of original relief request it was determined that the inclusion of missed CCC941 was not on the FSA-321 signed December 16, 2025. Also, the conservation plan was not signed timely by all parties.

The COC reviewed the facts of the relief case presented to them, the Grasslands CRP-SU 206 eligibility requirements, payment eligibility documents received from the Texas County Oklahoma FSA office and CCC941 submitted by Oklahoma Judicial Process Servers LLC . The COC determined Oklahoma Judicial Process Servers LLC had eligible land for the grassland CRP contract and had met eligibility requirements.

The COC stood by their original determination that after reviewing all facts of the case the delay was caused solely by county office error when staff failed to enter the Grasslands CRP contract approval dates into the software system. Oklahoma Judicial Process Servers LLC fulfilled all program requirements, submitted all required documents they received from Jensen Maez, acting CED, and had no indication from FSA that further action was needed. The Committee concluded that the participant relied in good faith on the county office's actions and had no reason to know the electronic approval step had not been completed or a CCC-941 form was to be completed at the time of offer submission. The COC also agreed that the participant had no way of knowing the conservation plan would need to be signed before contract approval and again relied on the COF for guidance, which they did not receive. The acting CED Jensen Maez should have signed the conservation plan before contract approval which is considered a misaction by COF. The situation meets the criteria for misaction/misinformation under Par. 44. Andy Espinoza, Chairperson, signed the FSA-321.

NONINSURED ASSISTANCE PROGRAM (NAP)

A.

ADJOURNMENT

- A. The next meeting was scheduled for April 15, 2026, at 10:30 a.m.
- B. There being no further business to come before the committee in the executive session, the meeting was adjourned at 10:45 a.m.

County Committee Chairman

County Executive Director

CRP-1 (01-08-24)		U.S. DEPARTMENT OF AGRICULTURE Commodity Credit Corporation	
CONSERVATION RESERVE PROGRAM CONTRACT		1. ST. & CO. CODE & ADMIN. LOCATION 08 023	
5A. COUNTY FSA OFFICE ADDRESS (Include Zip Code) ALAMOSA COUNTY FARM SERVICE AGENCY 101 SOUTH CRAFT DR ALAMOSA, CO 81101-0000		2. SIGN-UP NUMBER 206	
5B. COUNTY FSA OFFICE PHONE NUMBER (Include Area Code): (719) 992-3717 x2		3. CONTRACT NUMBER 4. ACRES FOR ENROLLMENT 160.00	
6. TRACT NUMBER 1663		7. CONTRACT PERIOD FROM: (MM-DD-YYYY) TO: (MM-DD-YYYY)	
8. SIGNUP TYPE: Grasslands			
THIS CONTRACT is entered into between the Commodity Credit Corporation (referred to as "CCC") and the undersigned owners, operators, or tenants (referred to as "the Participant"). The Participant agrees to place the designated acreage into the Conservation Reserve Program ("CRP") or other use set by CCC for the stipulated contract period from the date the Contract is executed by the CCC. The Participant also agrees to implement on such designated acreage the Conservation Plan developed for such acreage and approved by the CCC and the Participant. Additionally, the Participant and CCC agree to comply with the terms and conditions contained in this Contract, including the Appendix to this Contract, entitled Appendix to CRP-1, Conservation Reserve Program Contract (referred to as "Appendix"). By signing below, the Participant acknowledges receipt of a copy of the Appendix/Appendices for the applicable contract period. The terms and conditions of this contract are contained in this Form CRP-1 and in the CRP-1 Appendix and any addendum thereto. BY SIGNING THIS CONTRACT PARTICIPANTS ACKNOWLEDGE RECEIPT OF THE FOLLOWING FORMS: CRP-1; CRP-1 Appendix and any addendum thereto; and, CRP-2, CRP-2C, CRP-2G, or CRP-2C30, as applicable.

NOTE: The following statement is made in accordance with the Privacy Act of 1974 (5 USC 552a - as amended). The authority for requesting the information identified on this form is the Commodity Credit Corporation Charter Act (16 U.S.C. 714 et seq.), the Food Security Act of 1985 (16 U.S.C. 3801 et seq.), the Agricultural Act of 2014 (16 U.S.C. 3831 et seq.), the Agricultural Improvement Act of 2018 (Pub. L. 115-334), the Further Continuing Appropriations and Other Extensions Act, 2024 (Pub. L. 118-22), and the Conservation Reserve Program 7 CFR Part 1419. The information will be used to determine eligibility to participate in and receive benefits under the Conservation Reserve Program. The information collected on this form may be disclosed to other Federal, State, Local government agencies, Tribal agencies, and nongovernmental entities that have been authorized access to the information by statute or regulation and/or as described in applicable Routine Uses identified in the System of Records Notice for USDA/FSA-2, Farm Records File (Automated). Providing the requested information is voluntary. However, failure to furnish the requested information will result in a determination of ineligibility to participate in and receive benefits under the Conservation Reserve Program.			
Paperwork Reduction Act (PRA) Statement: The information collection is exempted from PRA as specified in 16 U.S.C. 3345(b)(1). The provisions of appropriate criminal and civil fraud, privacy, and other statutes may be applicable to the information provided. RETURN THIS COMPLETED FORM TO YOUR COUNTY FSA OFFICE.			

In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, gender identity (including gender expression), sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity in any program or activity conducted or funded by USDA. Not all bases apply to all programs. Remedies and complaint filing deadlines vary by program or incident.

Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotape, American Sign Language, etc.) should contact the responsible Agency or USDA's TARGET Center at 202-720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339. Additionally, program information may be made available in languages other than English.

To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form (AD-3027) found online at http://www.ascr.usda.gov/complaint_filing_cust.html and at any USDA office or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by: 1) mail: U.S. Department of Agriculture, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue, SW, Washington, D.C. 20250-9410; (2) fax: (202) 697-7442; or 3) email: program.intake@usda.gov. USDA is an equal opportunity provider, employer, and lender.

CO 315 Implementation Requirements - Herbaceous
Weed Treatment

Client/Producer: Oklahoma Judicial Process Servers LLC Project or Contract: CRP Grasslands
 Farm Number: 1571 County: Alamosa
 Tract Number: 1663 Field Number(s): 4

Practice Purpose(s) (check all that apply):

- ☐ Enhance accessibility, quantity, and quality of forage and/or browse.
☒ Restore or release native or desired plant communities for wildlife habitat.
☐ Protect soils and control erosion.
☐ Reduce fine fuel loads and wildfire hazard.
☐ Control pervasive species to a desired level of treatment.

Location Map ☒ Attach map showing location of planned practice and areas to be left undisturbed.

Planned Treatment Activity: Utilizing CPS Herbaceous Treatment (Code 315)

Goal and Objective: Control invasive weed plant species as necessary to maintain and enhance existing wildlife habitat.

Planning each Unit (field or stand) that requires treatment

Example only ↓

	Field # <u>4</u>	Field # _____	Field # _____	Field # <u>5</u>
Target Weed Species (to be controlled)	Russian thistle			Tall Ironweed (Vernonia altissima Nutt.)
Planned Acres to be treated	Up to 160 ac or less as needed			15
Primary or Dominant Soil Type	Loamy sand			Silt Loam
Current Land Use	Wildlife habitat			Pasture
Avg. Percent Canopy Cover of Treatment Area	10			85
Dominant Desirable Species	Indian ricegrass			Tall Fescue
Dates or Plant Growth Stage for Best Effective Treatment	Less than 6 inches tall, spring			10 to 20 inches in height usually in August
Initial Mechanical Control Treatment (equipment) *1	None			Mowing mid-July to keep vegetative
Initial Chemical Control Treatment *2	Dicamba, foliar spray			GrazonNext - broadcast
Initial Biological Control Treatment (specify livestock type) *3	None			None
Initial Planned Application Date	April-May			Mid-August

USDA is an equal opportunity provider, employer, and lender.

CO 315 Implementation Requirements - Herbaceous Weed Treatment

***1 Mechanical Control Method** – Producer is responsible for making sure all equipment is clean and free of invasive seed sources before treatment begins. Identify the type of equipment as mowing, hand-pulling, roller chopping, light disking or other. If not needed indicate as N/A.

***2 Initial Chemical Method** – Describe as *backpack sprayer, spray boom, aerial, spot application/spray, foliar spray* or *other*. Describe further in this document using chemical treatment in the appropriate section.

***3 Biological Control Method** – See further biological control guidance described further in this document.

OPERATION AND MAINTENANCE

Operation

Herbaceous weed treatment methods shall be applied using approved materials and procedures. Operations will comply with all local, State, Tribal, and Federal laws and ordinances. The landowner is responsible for obtaining any permits prior to practice implementation. Observe State and Federal restricted use pesticides and certified pesticide applicator's license requirements.

Develop a safety plan for applicators and any individuals exposed to chemicals, including telephone numbers and addresses of emergency treatment centers and the telephone number for the nearest poison control center.

The National Pesticide Information Center (NPIC) telephone number in Corvallis, Oregon, may also be given for nonemergency information: 1-800-858-7384, Monday to Friday, 6:30 a.m. to 4:30 p.m., Pacific Time. The national Chemical Transportation Emergency Center (CHEMTRAC) telephone number is: 1- 800-424-9300.

- Follow label requirements for mixing/loading setbacks from wells, intermittent streams and rivers, natural or impounded ponds and lakes, and reservoirs.
- Post signs according to label directions and/or Federal, State, Tribal, and local laws, around fields that have been treated. Follow restricted entry intervals.
- Dispose of herbicide and herbicide containers in accordance with label directions and adhere to Federal, State, Tribal, and local regulations.
- Read and follow label directions and maintain appropriate safety data sheets (SDS). SDS and herbicide labels may be accessed on the Internet at: <http://www.greenbook.net/>.
- Calibrate application equipment according to recommendations before each seasonal use and with each major chemical and site change.
- Replace worn nozzle tips, cracked hoses, and faulty gauges on spray equipment.
- Maintain records of plant management for at least 2 years. Herbicide application records shall be in accordance with USDA Agricultural Marketing Service's Pesticide Recordkeeping Program and State-specific requirements.

Maintenance

Success of the practice shall be determined by evaluating regrowth or reoccurrence of target and desired species after sufficient time has passed to monitor the vegetation and gather reliable data. Length of evaluation periods will depend on the herbaceous weed species being monitored, proximity of propagules (seeds, plant materials, and roots) to the site, transport mode of seeds (wind or animals), and methods and materials used.

Following initial application, some regrowth, sprouting, or reoccurrence of herbaceous weeds may be expected. Complete spot treatment of individual plants or areas needing retreatment when weed vegetation is most vulnerable to chosen treatment procedures.

USDA is an equal opportunity provider, employer, and lender.

**CO NRCS
Sept 2022**

CO 315 Implementation Requirements - Herbaceous Weed Treatment

Review and update the herbaceous weed treatment plan periodically to—

- Incorporate new integrated pest management technology,
- Respond to grazing management and complex weed population changes, and
- Follow cooperative extension service guidance to avoid the development of weed resistance to herbicide chemicals.

If herbicide application is selected, what is the recommended chemical, application method, and rate (from state land grant university extension) Dicamba, 1-2 pt/A, foliar spray.

All pesticides must be mixed and applied according to label instructions or applied by a licensed applicator.

Further Chemical Treatment Methods and Plan (Chemical application will be according to label)	
Acceptable chemical treatment references for containment and management of target species	https://extension.colostate.edu/docs/pubs/natres/06314.pdf
Target plant growth stage for best effective treatment	Early spring growth
Any special application techniques, timing consideration, for safe and effective applications	Follow herbaceous weed treatment plan for special considerations
Reference to label instructions	https://www.cdms.net/ldat/ld4HU002.pdf
WIN PST Soil Pesticide Interaction Loss Potential and Hazard Rating Report is attached and was discussed with landowner in formulating alternatives.	

Follow mitigation strategies for your state based on WIN PST generated risk assessment for leaching and/or runoff to surface or groundwater.

CAUTION: Be aware of herbicide application in target areas adjacent to water and pay special attention to label precautions on commonly used herbicides. Some herbicides or their surfactants are toxic to fish and aquatic organisms and should not be used right next to the waters' edge, to avoid drift and off target application into water bodies.

Biological Treatment of Herbaceous Weeds
Goats or sheep may be used in a controlled browsing/grazing scenario for the biological treatment and control of herbaceous weeds.
Beginning threshold: The canopy of targeted herbaceous weeds species should exceed the percent canopy threshold throughout the targeted treatment area. Use land grant university extension and/or other scientific based information to determine thresholds for target weed control.
Method/Implementation: The area to be browsed/grazed should be fenced into small sections if at all possible. Initiate browsing/grazing as soon as the herbaceous weeds are fully leafed and defoliate until the targeted species have at least 80% leaf removal throughout the treatment area. Move livestock to the next paddock and repeat. When the initial paddock leafs-out again, regardless of where the livestock are in the rotation, bring them back to the initial paddock to defoliate the herbaceous weeds again. Continue this method to manage herbaceous weeds until all paddocks have herbaceous weeds suppressed or killed to at least the threshold described above. Killing herbaceous weeds may take 2 to 3 years of repeated grazing events.

CO 315 Implementation Requirements - Herbaceous
Weed Treatment

Ending threshold: All herbaceous weeds species have at least 80% leaf removal and some stems possibly eaten throughout the treatment area at the end of July. Research has shown that defoliation after July has little effect, so plan to have initial defoliation complete before August.

Protection for Livestock: Most goat and sheep need protection from predators and a good fence and guard animal can be a good idea.

Livestock Grazing Preferences:

Goats: like about 60% browse, 30 percent broad leaf forbs and 10% grass.

Sheep: like about 60% broad leaf forbs, 30% grass and 10% browse.

Check with your state land grant university extension for undesirable or potentially poisonous plants to the livestock species performing the herbaceous weed treatment.

Fencing: Refer to your state's NRCS conservation practice standard Fence for goat and sheep boundary, interior or paddock fencing needed to control goats and sheep as well as details of electrified fencing recommended for goats and sheep.

Producer Acceptance

I have reviewed and understand the implementation requirements and agree to complete the work accordingly. Failure to meet these plans and specifications may jeopardize financial assistance. I understand that it is my responsibility to secure all required permits and licenses, and to complete the work in accordance with all local, state, and federal laws. Modifications to these implementation requirements must be approved by agency staff prior to installation.

K. Other Agencies and Broad Public Concerns		No Action	Alternative 1	Alternative 2
Easements, Permissions, Public Review, or Permits Required and Agencies Consulted.		None	None	Cultural Resources clearance is required
Cumulative Effects Narrative (Describe the cumulative impacts considered, including past, present and known future actions regardless of who performed the actions)		Potential within the landscape for other unsustainable ranches to convert their lands to cropland or to sell to developers. The cumulative effect is a fragmented landscape and loss of ag.	CRP Grasslands could cumulatively provide intact ranching operations, thereby reducing large-scale land use conversions. Also will help with sustaining small agricultural communities.	CRP Grasslands could cumulatively provide intact ranching operations, thereby reducing large-scale land use conversions. Also will help with sustaining small agricultural communities.
L. Mitigation (Record actions to avoid, minimize, and compensate)		Incorporate measures to help prevent the spread of invasive species.	Incorporate measures to help prevent the spread of invasive species.	Ground disturbing practices will occur outside of nesting season (3/15-7/15) or a nest survey will be completed just prior to installation.
M. Preferred Alternative	Preferred alternative	☐	☒	☐
	Supporting reason		Addresses resource concerns and meets client's objectives.	Addresses resource concerns and meets client's objectives.
N. Context (Record context of alternatives analysis) The significance of an action must be analyzed in several contexts such as society as a whole (human, national), the affected region, the affected interests, and the locality.		-Fields and Tracts in this practice schedule's planning land unit (PLU) -County -Sub-watershed (ex. 12-digit HUC, or smaller)		
O. To the best of my knowledge, the data shown on this form is accurate and complete: In the case where a non-NRCS person (e.g. a TSP) assists with planning they are to sign the first signature block and then NRCS is to sign the second block to verify the information's accuracy.				
HELENA BRUNN Digitally signed by HELENA BRUNN Date: 2024.12.13 13:44:51 -07'00' Signature (TSP if applicable)		Title Rangeland Management Specialist		Date 12/13/2024
Signature (NRCS)		Title		Date
If preferred alternative is not a federal action where NRCS has control or responsibility and this NRCS-CPA-52 is shared with someone other than the client, then indicate to whom this is being provided.				
The following sections are to be completed by the Responsible Federal Official (RFO)				
NRCS is the RFO if the action is subject to NRCS control and responsibility (e.g., actions financed, funded, assisted, conducted, regulated, or approved by NRCS). These actions do not include situations in which NRCS is only providing technical assistance because NRCS cannot control what the client ultimately does with that assistance and situations where NRCS is making a technical determination (such as Farm Bill HEL or wetland determinations) not associated with the planning process.				
P. Determination of Significance or Extraordinary Circumstances				
To answer the questions below, consider the severity (intensity) of impacts in the contexts identified above. Impacts may be both beneficial and adverse. A significant effect may exist even if the Federal agency believes that on balance the effect will be beneficial. Significance cannot be avoided by terming an action temporary or by breaking it down into small component parts.				
If you answer ANY of the below questions "yes" then contact the State Environmental Liaison as there may be extraordinary circumstances and significance issues to consider and a site specific NEPA analysis may be required.				
Yes	No			
☐	☒	Is the preferred alternative expected to cause significant effects on public health or safety?		
☐	☒	Is the preferred alternative expected to significantly affect unique characteristics of the geographic area such as proximity to historic or cultural resources, park lands, prime farmlands, wetlands, wild and scenic rivers, or ecologically critical areas?		
☐	☒	Are the effects of the preferred alternative on the quality of the human environment likely to be highly controversial?		
☐	☒	Does the preferred alternative have highly uncertain effects or involve unique or unknown risks on the human environment?		
☐	☒	Does the preferred alternative establish a precedent for future actions with significant impacts or represent a decision in principle about a future consideration?		
☐	☒	Is the preferred alternative known or reasonably expected to have potentially significant environment impacts to the quality of the human environment either individually or cumulatively over time?		
☐	☒	Will the preferred alternative likely have a significant adverse effect on ANY of the special environmental concerns? Use the Evaluation Procedure Guide Sheets to assist in this determination. This includes, but is not limited to, concerns such as cultural or historical resources, endangered and threatened species, environmental justice, wetlands, floodplains, coastal zones, coral reefs, essential fish habitat, wild and scenic rivers, clean air, riparian areas, natural areas, and invasive		
☐	☒	Will the preferred alternative threaten a violation of Federal, State, or local law or requirements for the protection of the environment?		

Q. NEPA Compliance Finding (check one)		
The preferred alternative:		Action required
☐	1) is not a federal action where the agency has control or responsibility.	Document in "R.1" below. No additional analysis is required.
☐	2) is a federal action ALL of which is categorically excluded from further environmental analysis AND there are no extraordinary circumstances as identified in Section "P" .	Document in "R.2" below. No additional analysis is required.
☒	3) is a federal action that has been sufficiently analyzed in an existing Agency state, regional, or national NEPA document and there are no predicted <u>significant adverse environmental effects or extraordinary circumstances</u> .	Document in "R.1" below. No additional analysis is required.
☐	4) is a federal action that has been sufficiently analyzed in another Federal agency's NEPA document (EA or EIS) that addresses the proposed NRCS action and its' effects and has been formally adopted by NRCS . NRCS is required to prepare and publish its own Finding of No Significant Impact for an EA or Record of Decision for an EIS when adopting another agency's EA or EIS document. (Note: This box is not applicable to FSA)	Contact the State Environmental Compliance Liaison for list of NEPA documents formally adopted and available for tiering. Document in "R.1" below. No additional analysis is required.
☐	5) is a federal action that has NOT been sufficiently analyzed or may involve predicted significant adverse environmental effects or extraordinary circumstances and may require an EA or EIS.	Contact the State Environmental Compliance Liaison. Further NEPA analysis required. Explain in Notes Section.
R. Rationale Supporting the Finding		
R.1		
Findings Documentation		
R.2		
Applicable Categorical Exclusion(s) (more than one may apply)		
7 CFR Part 650 Compliance With NEPA, subpart 650.6 Categorical Exclusions states prior to determining that a proposed action is categorically excluded under paragraph (d) of this section, the proposed action must meet six sideboard criteria. See NECH 610.116.		
I have considered the effects of the alternatives on the Resource Concerns, Economic and Social Considerations, Special Environmental Concerns, and Extraordinary Circumstances as defined by Agency regulation and policy and based on that made the finding indicated above.		
S. Signature of Responsible Federal Official:		
Signature Title Date

WORKSHEET FOR PAYMENT ELIGIBILITY AND PAYMENT LIMITATION DETERMINATIONS	
1. NAME OKLAHOMA JUDICIAL PROCESS SERVERS LLC	
2. COUNTY AND STATE Texas Co, OK	
3. PROGRAM YEAR 2022	

PART A - TYPE OF OPERATION			
4. The operation reviewed is a:			
☐ Person ☐ Estate ☐ Charitable/Non-Profit ☐ Corporation	☐ Sole Proprietor/Small Business ☐ City, County or State-owned Entity ☐ Indians rep. by BIA ☐ Irrevocable Trust	☐ General Partnership ☐ Joint Venture ☐ Revocable Trust ☐ Public School	☐ Limited Partnership ☒ Limited Liability Company ☐ Other: _____

PART B - REVIEW OF PAYMENT LIMITATION AND PRODUCER ELIGIBILITY REQUIREMENTS			
Answer the following questions by checking "YES", "NO" or "N/A".			
1. Are the Name and SSN (or EIN) provided for the person, legal entity and each member or interest holder? [7-CFR Part 1400.107 and 1-CM (Rev 3) Part 6]	YES	NO	N/A
2. If participant is an Estate, has a tax identification number (EIN) been provided for the estate? [1-CM (Rev 3) Part 6]	☒	☐	☐
3. If participant or any interest holder is a trust, has an EIN been provided for the trust, unless the trust is revocable trust and the grantor is the sole income beneficiary? [1-CM (Rev 3) Part 6]	☐	☐	☒
4. Is the person a US Citizen or a holder of a valid form I-551 (Alien Registration Receipt Card)? If the participant is a legal entity, are all interest holders US Citizens or holders of valid form I-551s? [6-PL Part 5, Section 11]	☒	☐	☐
5. If this person or any interest holder in this legal entity is under 18-years-old, has the MINOR qualified to receive payment separate from the parent or guardian? (If "NO", See Common Attribution, Part E, Item 11.) [6-PL Part 3, Section 1]	☐	☐	☒
6. If an irrevocable trust, has trust documentation been provided and is such documentation on file? [6-PL Part 5, Section 7]	☐	☐	☒
7. If an irrevocable trust, does the corpus of the trust provide for modification of interest by the grantor, or provide for transfer to the remainder beneficiary in less than 20 years from the date the trust is established? [6-PL Part 5, Section 7]	☐	☐	☒
8. For a State, political subdivision, or an agency thereof, is the land owned by the entity and used solely for the support of public schools? [6-PL Part 5, Section 9]	☐	☐	☒
9. If a charitable organization, does the land or proceeds from the farming operation transfer to an entity that exercises control over the organization? (If "YES", See Common Attribution in Part E, Item 11) [6-PL Part 3, Section 1]	☐	☐	☒
10. Is there an increase in persons to which payment limitation applies from the prior year? Substantive change rules were met by (check each applicable substantive change): [6-PL Part 3, Section 2]	☐	☒	☐
☐ Addition of _____ (number) adult family member(s)	☐	☐	☐
☐ For a landowner only, a change from cash rent to share rent	☐	☐	☐
☐ A 20% increase in land used for agricultural purposes, allowing recognition of one person or legal entity for payment	☐	☐	☐
☐ A qualifying change in ownership of equipment or livestock	☐	☐	☐
☐ A qualifying change in ownership of land	☐	☐	☐
☐ Addition of equipment not previously involved in the farming operation	☐	☐	☐

PART C - REVIEW OF CONTRIBUTIONS TO THE FARMING OPERATION	
CONTRIBUTIONS were determined as follows: Complete Item 1 if the participant is a PERSON. Complete Item 2 if the participant is a JOINT OPERATION or LEGAL ENTITY.	
1. The PERSON is determined to make the following CONTRIBUTIONS:	☐ ACTIVE PERSONAL LABOR ☐ ACTIVE PERSONAL MANAGEMENT ☐ LAND ☐ CAPITAL ☐ EQUIPMENT
2. The JOINT OPERATION or LEGAL ENTITY is determined to make the following CONTRIBUTION(S).	☒ LAND ☐ CAPITAL ☐ EQUIPMENT
MEMBERS of the JOINT OPERATION or LEGAL ENTITY are determined to make the following CONTRIBUTIONS:	
Member(s) Name(s): TINSLEY ARIANA TAYLOR MAKAYLA SARAMOSING	☐ ACTIVE PERSONAL LABOR ☐ ACTIVE PERSONAL MANAGEMENT ☐ LAND ☐ CAPITAL ☐ EQUIPMENT

☐ Additional Pages are attached to show contributions of additional members.		
☐ Special rules for SPOUSES or MINOR CHILDREN are used to credit a spouse with a significant contribution of active personal labor or active personal management in this farming operation. [6-PL Paragraph 189]		

3 Are CONTRIBUTIONS commensurate with the person's, legal entity's or member of a Joint Operation's claimed ownership share of the farming operation? YES ☒ NO ☐ [6-PL Paragraph 150]

4 Are CONTRIBUTIONS at RISK? YES ☒ NO ☐ [6-PL Paragraph 151]

PART D – REVIEW OF PAYMENT ELIGIBILITY REQUIREMENTS for Actively Engaged in Farming and Cash Rent Tenant

	YES	NO	N/A
1. Does this person or legal entity meet ALL the following with regard to the farming operation: - has a separate and distinct interest in the land, crops, and livestock - demonstrates separate responsibility for the interest in land, crops and livestock - maintains funds and accounts separate from any other person or legal entity with an interest in the farming operation? [6-PL Paragraph 144]	☒	☐	
2. Are cash rent tenant provisions met with significant contributions of either of the following: (check as applicable) ☐ active personal labor, or ☐ active personal management and equipment [6-PL Part 4, Section 2] If participant is a joint operation, each member listed in Part C must meet cash rent tenant provisions. Ineligible members are: (Note: Use Part H to list additional members)	☐	☐	☒
3. If equipment or land is leased from a person or legal entity with interest in this farming operation, are rates and repayment terms reasonable and customary for the area? (If "NO", the input is not a significant contribution.) [6-PL Paragraph 145]	☐	☐	☒
4. If hired labor and leased equipment originate from the same source, are separate contracts provided for the labor and for the equipment? (If "NO", equipment is not a significant contribution.) [6-PL Paragraph 165]	☐	☐	☒

CCC-903 (09-28-20)

Participant's Name: OKLAHOMA JUDICIAL PROCESS SERVERS LLC

Program Year: 2022

PART D – REVIEW OF PAYMENT ELIGIBILITY REQUIREMENTS for Actively Engaged in Farming and Cash Rent Tenant (Continued)			
	YES	NO	N/A
5. For an LP, LLP, LLC, corporation or similar legal entity, did all partners, stockholders or members with an ownership interest represent a contribution of active personal labor and/or active personal management to the farming operation that meets all of the following: 1) performed on a regular basis; 2) identifiable and documentable; and 3) separate and distinct from any other partner, stockholder, or member with an ownership interest in the farming operation? [6-PL Paragraph 258]	☒	☐	☐
6. For any partner, stockholder or member that failed to meet the requirement in Item 3, are both of the following requirements met for an exception? - Total PLC and ARC payments received collectively by all partners, stockholders, and members directly and indirectly, does not exceed \$125,000; AND - At least 50 percent of the ownership interest in the legal entity is held by partners, stockholders, or members that are actively providing labor and management to the farming operation of the legal entity? [6-PL Paragraph 258]	☐	☐	☒
7. List all partners, stockholders, or members that do not meet requirements in Item 5 and to whom the exception in Item 6 is not applicable.			
PART E – DETERMINATIONS OF THE REVIEWING AUTHORITY			
Based on the information provided, COC determined the following: (Or, for joint operations with 6 or more members, the State Office determined):	YES	NO	N/A
1. The farming operation is ELIGIBLE for payment because the NAME and SSN or EIN of each member or interest holder was provided. If "NO", the farming operation is ineligible for payment. 1-CM (Rev 3) Part 6]	☒	☐	☐
2. LANDOWNER PROVISIONS apply to all or part of this participant's farming operation. [6-PL Paragraph 152]	☒	☐	☐
3. For PERSONS or LEGAL ENTITIES: The person's or entity's contributions are SIGNIFICANT, COMMENSURATE and AT RISK; And the person or entity is ACTIVELY ENGAGED IN FARMING. (If "NO", explain in REMARKS) [6-PL Paragraphs 200-208; 258-260]	☐	☐	☒
4. For JOINT OPERATIONS ONLY, each member's contributions are SIGNIFICANT, COMMENSURATE and AT RISK; And EACH MEMBER is ACTIVELY ENGAGED IN FARMING. (If "NO", explain in REMARKS) [6-PL Paragraphs 220-225]	☐	☐	☐
5. A CROPLAND FACTOR applies because CASH RENT TENANT rules are not met by the person, the entity, or by one or more members of the joint operation; or because the participant is only partially ACTIVELY ENGAGED IN FARMING (If "YES", explain in Part H) [6-PL Paragraph 177]	☐	☐	☒
6. For JOINT OPERATIONS; are the members, including members of an embedded entity, ALL family members? [6-PL Paragraph 222]	☐	☐	☐
7. (For 2016 and subsequent years) For JOINT OPERATIONS of nonfamily members. Each member's contributions are SIGNIFICANT, COMMENSURATE and AT RISK; And EACH MEMBER is ACTIVELY ENGAGED IN FARMING. (If "NO", explain in Part H) [6-PL Paragraphs 220-246]	☐	☐	☐
8. (For 2016 and subsequent years) For JOINT OPERATIONS of nonfamily members. The farming operation requested one person to qualify as actively engaged in farming with only a significant contribution of active personal management. [6-PL Paragraphs 220-246]	☐	☐	☐
9. (For 2016 and subsequent years) For JOINT OPERATIONS of nonfamily members. The farming operation requested more than one person to qualify as actively engaged in farming with only significant contributions of active personal management and the criteria for operation size (for one additional person), or both operation size and or complexity (for two additional persons) was met. [6-PL Paragraph 220 -246]	☐	☐	☐

Program Year: 2022

PART E – DETERMINATIONS OF THE REVIEWING AUTHORITY (Continued)

10. (For 2016 and subsequent years) For JOINT OPERATIONS of nonfamily members. A PAYMENT REDUCTION applies because:			
a member failed to make a significant contribution of active personal labor to the farming operation; OR			
a member failed to make a significant contribution of active personal management to the farming operation that meets all of the following: 1) performed on a regular, continuous, and substantial basis; and 2) the amount equals or is greater than 25 percent of the total management hours required for the farming operation annually, or the amount equals or exceeds 500 hours of management annually to the farming operation to be considered significant; OR	☐	☐	☐
the farming operation requested that more than one person to qualify as making a significant contribution of active personal management and a member failed the management recordkeeping requirements;			
a member failed to make a significant contribution of the combination of active personal labor and active personal management to the farming operation that meets all of the following: 1) performed on a regular, continuous, and substantial basis; 2) critical to the profitability of the farming operation; and 3) the hourly total when added together was at least equal to the minimum number of hours threshold based on the proportionate share of the labor and management activities performed. [6-PL Paragraphs 220-246]			
11. COMMON ATTRIBUTION applies to the following:	N/A		
12. Ineligible FOREIGN PERSONS are:	N/A		
13. SUBSTANTIVE CHANGE was required, but NOT MET by:	N/A		

PART F – SIGNATURE OF REVIEWING AUTHORITY

1. COC or STO Representative Signature 	2. Title CED	3. Date 8/19/22
--	-----------------	--------------------

PART G – ACTIONS COMPLETED

Action	Date
1. Written NOTICE OF DETERMINATION issued to all parties. [6-PL Part 6 Section 4]	9/13/22
2. Determinations recorded in the WEB ELIGIBILITY files. [3-PL (Rev. 2)]	8/29/22
3. For Entities and Joint Operations: Subsidiary files were verified or updated to reflect correct: - members - shares - substantive change status	8/29/22
4. As applicable, a CROPLAND FACTOR was computed and recorded in web eligibility files. [6-PL Paragraph 177]	NA
5. If the participant has interests in multiple counties, notify the other counties of the determinations and obtain concurrence. [6-PL Paragraphs 20-21]	NA

PART H – REMARKS

Landowner exemption applies to meet actively engaged in farming provisions.

In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, age, disability, sex, gender identity (including gender expression), sexual orientation, disability, age, mental status, family/parental status, income derived from public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotape, American Sign Language, etc.) should contact the responsible Agency or USDA's TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339. Additionally, program information may be made available in languages other than English.

To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD-3027, found online at http://www.ascr.usda.gov/complaint_filing_cust.html and at any USDA office, or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by (1) mail: U.S. Department of Agriculture, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410; (2) fax: (202) 690-7442; or (3) email: program.injake@usda.gov. USDA is an equal opportunity provider, employer, and lender.

CCC-902 (Page 1) State: Oklahoma County: Texas Date Submitted: 08/12/2022 Version Number: 1

CCC-902 (02-18-2025)		U.S. DEPARTMENT OF AGRICULTURE Commodity Credit Corporation		Program Year 2022			
FARM OPERATING PLAN FOR PAYMENT ELIGIBILITY 2009 and Subsequent Program Years							
For "actively engaged in farming" and other payment eligibility and limitation determinations.							
<i>This form is to be completed by, or on behalf of, the individual or legal entity identified in Part A that is seeking benefits from the Farm Service Agency (FSA) under one or more programs that are subject to the regulations at 7 CFR Part 1400. This form collects farming and other information about the individual or legal entity that receives program benefits directly using the tax identification number identified in Part A. This form also collects information about the members of legal entities. Payment eligibility is based upon the contribution level of certain inputs to a farming operation such as land, capital, equipment, labor, and management. The information on this form will be used by FSA to determine payment eligibility and limitation of payments by direct attribution.</i>							
Part A - General Farming Operation Information							
Producer's Name OKLAHOMA JUDICIAL PROCESS SERVERS LLC		Tax ID Number and ID Type (last 4 digits) 8724 E		Business Type Limited Liability Company			
Is the farm operation applying for a FSA, CCC or NRCS program requiring an actively engaged, cash rent tenant/cropland factor, foreign person, substantive change and/or common attribution determination?					Yes		
Was the farming operation formed within the past 24 months?					No		
When was the farming operation formed?					(Month, Day, Year) 02/03/2010		
Part B - Capital Information Note: Do not include capital contributed by <i>members</i> of general partnerships or joint ventures. (applicable for all business types)							
Does the producer provide capital to this farming operation?					Yes		
What percent of capital is contributed by the producer to this farming operation from all sources?					100 %		
Indicate the source of all farming capital for the producer. (Check all that apply)							
☐ Non-borrowed capital ☒ Commercial loans/credit ☐ Other/Additional ☐ FSA program payments ☐ Private Loans/credit							
Was such a loan acquired from, co-signed by, secured by, or guaranteed by an individual or entity who:							
• shares in the production or proceeds of the production from this farming operation?					No		
• is a landowner or landlord with an interest in this farming operation?					No Response		
• is a member of this farming operation?					No Response		
Part C - Land Information (applicable for all business types)							
Does the producer contribute land to the farming operation?					Yes		
Does this farming operation own ANY land?					Yes		
State	Administrative County	Farm Serial Number	Tract Number	Farmland Acres	Cropland Acres	Farmland Acres Not Leased	Is any land leased to another producer?
OK	Texas	173	3324	157.18	157.18	157.18	No
Does this farming operation lease land from another producer?					No		
Does this farming operation lease land to another producer?					No		
Part D - Custom Services (applicable for all business types)							
Will custom services, such as harvesting, spraying, fertilization, tillage, seeding, etc., be utilized for this farming operation?					No Response		
Part E - Equipment Information Note: Do not include equipment contributed by <i>members</i> of general partnerships or joint ventures. (applicable for all business types)							
Does the producer provide equipment to this farming operation?					No Response		
Part F - Labor Information (applicable for all business types)							
Does the producer provide labor to this farming operation?					No Response		
Part G - Management Information (applicable for all business types)							
Does the producer provide management to this farming operation?					No Response		
Part J - Remarks							
Part K - Certification (applicable for individuals and entities)							
I certify that all the information entered on this document and any supporting documentation is true and correct. I understand furnishing incorrect information will result in forfeiture of payments and may result in the assessment of a penalty. I will timely provide written notification to the Farm Service Agency Committees of any changes in this farming operation. By signing this form, I acknowledge that:							
• all supporting documentation has been submitted as required • I have reviewed and understand all definitions and requirements on the final page of this form • all information contained on this form will be considered in effect continuously unless changes or revisions are submitted.							

Name of Entity (as identified in Part A): OKLAHOMA JUDICIAL PROCESS SERVERS LLC

CCC-902 (Page 2) State: Oklahoma County: Texas Date Submitted: 08/12/2022 Version Number: 1

• it is my responsibility to timely notify FSA in writing of any changes in the farming, ranching or forestry operation, or financial status that may affect these representations.
• evidence such as tax records, certified public accountant's certification, or other documentation may be required to validate these representations and that I will take all necessary actions to provide such materials to FSA if requested.

Signature of Producer (by)	Title/Relationship of the Individual Signing in Representative Capacity	Date (MM-DD-YYYY)

Member Information for Businesses (complete for each member of the business, including indirect members through embedded entities)

Note: This part and subsequent parts are not applicable for individuals, state and local governments, public schools, churches, charities, non-profit organizations, Indian tribal ventures, and revocable trusts and limited liability companies using a social security number.

Part A - General Member Information

Member's Name	Tax ID Number and ID Type (last 4 digits)	Business Type
TINSLEY SARAMOSING	8079 S	Individual
Specify the joint operation or entity in which the member has a direct interest.		OKLAHOMA JUDICIAL PROCESS SERVERS LLC
What is the member's share in the farming operation or embedded entity, as applicable?		100 %
Family Member Relationship		
Does the member have signature authority for the business?		Yes

Does the member contribute active personal labor to this farming operation?	No Response
---	-------------

Part F - Management Information

Does the member contribute active personal management to this farming operation?	No Response
--	-------------

Part G - Minor Information (only applicable for individuals)

Will the member be 18 years of age by June 1 of the current program year?	Yes
---	-----

Part H - Citizenship Information (only applicable for members that are individuals)

Is the member a United States citizen or an alien lawfully admitted into the United States?	Yes
---	-----

CCC-902

Privacy Act Statement: The following statement is made in accordance with the Privacy Act of 1974 (5 U.S.C. 552a – as amended). The authority for requesting the information identified on this form is Payment Limitation and Payment Eligibility (7 CFR Part 1400), the Commodity Credit Corporation Charter Act (15 U.S.C. 714 et seq.), the Agricultural Act of 2014 (7 U.S.C 9015), (Pub. L. 113-79), as amended by the Agriculture Improvement Act of 2018 (Pub. L. 115-334), the Further Continuing Appropriations and Other Extensions Act, 2024 (Pub. L. 118-22), the American Relief Act, 2025 (Pub. L. 118-158), and 7 CFR Part 1412. The information will be used to identify the farm operating plan data needed to determine a legal entity's eligibility for program benefits. The information collected on this form may be disclosed to other Federal, State, Local government agencies, Tribal agencies, and nongovernmental entities that have been authorized access to the information by statute or regulation and/or as described in applicable Routine Uses identified in the System of Records Notice for USDA/FSA-2, Farm Records File (Automated). Providing the requested information is voluntary. However, failure to furnish the requested information will result in a determination of ineligibility for program benefits.

Paperwork Reduction Act (PRA) Statement: This information collection is exempted from the Paperwork Reduction Act as specified in 7 U.S.C. 9091(c)(2)(B).

Public Burden Statement: For CFAP 2.0 and QLA only, public reporting burden for this collection is estimated to average 30 minutes per response, including reviewing instructions, gathering and maintaining the data needed. Completing (providing the information) and reviewing the collection of information. You are not required to respond to the collection, or USDA may not conduct or sponsor a collection of information unless it displays a valid OMB control number. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden by emailing to: askusda@usda.gov (OMB NO. 0560-0297).

Non-Discrimination Statement: In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotape, American Sign Language, etc.) should contact the responsible Agency or USDA's TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339. Additionally, program information may be made available in languages other than English.

To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD-3027, found online at <https://www.usda.gov/oascr/how-to-file-a-program-discrimination-complaint> and at any USDA office or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by: (1) mail: U.S. Department of Agriculture Office of the Assistant Secretary for Civil Rights 1400 Independence Avenue, SW Washington, D.C. 20250-9410; (2) fax: (202) 690-7442; or (3) email: program.intake@usda.gov.

USDA is an equal opportunity provider, employer, and lender.

CCC-902**DEFINITIONS**

The following definitions apply to Form CCC-902.

1. **ACTIVELY ENGAGED IN FARMING** – means providing both: 1) significant contributions of capital, equipment, or land, or combination thereof to the farming operation; and 2) significant contributions of active personal labor or active personal management, or a combination thereof, to the farming operation as described. Further, for a person or legal entity to be considered actively engaged in farming for program payment purposes, the contributions of the person or legal entity must be at-risk and commensurate with the person's or legal entity's claimed share of the profit and loss of the farming operation. Failure to meet these requirements will result in the determination of ineligibility for payments under programs specified in 7 C.F.R. Part 1400.
2. **INTEREST IN A FARMING OPERATION** – a person or legal entity is considered to have an interest in this farming operation if the person or legal entity owns or rents land to this farming operation; or has an interest in the crop or crop proceeds from this farming operation; or is a member of a joint operation that either owns or rents land to this farming operation, or has an interest in the crop or crop proceeds from this farming operation.
3. **JOINT OPERATION** - is a general partnership, joint venture, or similar organization.
4. **PERSON** – is a natural person (an individual) and does not include a legal entity.
5. **ACTIVE PERSONAL LABOR** – a person is considered to be providing active personal labor with respect to a farming operation if that person is directly and personally providing physical activities necessary to conduct the farming operation, including land preparation, planting, cultivating, harvesting, and marketing of agricultural commodities. Other qualifying physical activities include establishing and maintaining conserving covers and those physical activities necessary for livestock production for the farming operation.
6. **ACTIVE PERSONAL MANAGEMENT** – a person is considered to be providing active personal management with respect to a farming operation if that person is directly and personally providing the general supervision and direction of activities and labor involved in the farming operation; or providing services (whether performed on-site or off-site) reasonably related and necessary to the farming operation. The management activities must be critical to the profitability of the farming operation and performed under one or more of the following categories: 1) Capital which includes arranging financing and managing capital; acquiring equipment; acquiring land and negotiating leases; managing insurance and participating in USDA programs; 2) Labor which includes hiring and managing of hired labor; 3) Agronomics and marketing which includes selecting crops and making planting decisions; acquiring and purchasing of crop inputs; managing crops and making harvesting decisions; pricing and marketing of crop production.
7. **CAPITAL** – with respect to a farming operation is the funding provided by a person or legal entity to the farming operation in order for such operation to conduct farming activities. To be considered a significant contribution for a person or legal entity, the capital must have been derived from a fund or account separate and distinct from that of any other person or entity with an interest in the farming operation. A significant contribution of capital does not include the value of any labor or management which is contributed to the farming operation. A capital contribution may be a direct non-borrowed (out-of-pocket) input of a specified sum or an amount borrowed by the person or entity. Capital does not include advance program payments.
8. **CONTRIBUTION** – with respect to a farming operation is the provision of land, capital or equipment assets, and providing active personal labor, or active personal management to the farming operation in exchange for, or the expectation of, deriving benefits based solely on the success of the farming operation. Contributions must be "significant".
9. **CUSTOM SERVICES** – with respect to a farming operation is the hiring of a contractor or vendor that is in the business of providing such specialized services to perform services for the farming operation in exchange for the payment of a fee for such services performed.
10. **ENTITY** - is a corporation, joint stock company, limited liability company, association, limited partnership, limited liability partnership, irrevocable trust, revocable trust, estate, charitable organization, or other similar organization including any such organization participating in the farming operation as a partner in a general partnership, participant in a joint venture, a grantor of a revocable trust, or as a participant in a similar organization.
11. **EQUIPMENT** – with respect to a farming operation is the machinery and implements needed to conduct activities of the farming operation including machinery and implements used for land preparation, planting, cultivating, harvesting or marketing crops. Equipment also includes machinery and implements needed to establish and maintain conserving covers.
12. **FAMILY MEMBER** – a person is considered to be a family member of another person in the farming operation if that person is related to the other person as a lineal ancestor, lineal descendant, sibling, 1st cousin, niece, nephew, spouse, or otherwise by marriage. This relationship includes great grandparent, grandparent, parent, child (including legally adopted children and stepchildren), grandchild, great grandchild, sibling, 1st cousin, niece, nephew, aunt, uncle or spouse of family member in the farming operation.
13. **FARMING ENTITY** - is the entity, including a combination of entities, conducting a farming operation at one or more locations.
14. **FARMING OPERATION** - is a business enterprise engaged in the production of agricultural products which is operated by a person or legal entity which is eligible to receive payments, directly or indirectly.
15. **LAND** – with a respect to a contribution to a farming operation is farmland consisting of cropland, pastureland, wetland, or rangeland which meets the specific requirements of the applicable program for which payments or benefits are sought.
16. **SUPPORTING DOCUMENTATION** – is any information that supports the relevant representations made such as, but not limited to: articles of incorporation; corporate meeting minutes; stock certificates; organizational papers; trust agreement; last will or testament or a deceased individual; affidavit of heirship approved by Office of General Counsel; partnership agreement; property lease agreement; purchase agreement; land deed; lending security agreement; and financial statement.
17. All other terms utilized in this form shall be defined pursuant to 7 C.F.R. Part 1400.

Date Stamp

CCC-902E U.S. DEPARTMENT OF AGRICULTURE
(01-07-21) Commodity Credit Corporation

FARM OPERATING PLAN FOR AN ENTITY

1. County TEXAS
2. State OKLAHOMA
3. Program Year 2022

For "actively engaged in farming" and other payment eligibility/limitation determinations.

This form is to be completed for a legal entity, including a joint operation, that is seeking benefits from the Farm Service Agency (FSA) under one or more programs that are subject to the regulations at 7 CFR Part 1400. This form collects farming and other information about the entity that receives program benefits directly using the tax identification number listed in Part A. This form also collects information about the members of such entity. A person who receives program benefits directly as an individual must complete a CCC-902I with respect to that person's operation. Payment eligibility is based upon the contribution of certain inputs to a farming operation such as land, capital, equipment, labor, and management by the entity listed in Part A. The information on this form will be used by FSA to determine payment eligibility and limitation of payments by direct attribution.

PART A - ENTITY INFORMATION

1. Farming Entity's Name and Address (Include Zip Code)
OKLAHOMA JUDICIAL PROCESS SERVERS, LLC
3111 W. WILSHIRE BLVD.
OKLAHOMA CITY, OK 73116

2. Tax Identification Number (If the taxpayer identification number is already on file with FSA, only the last 4 digits are required)
01-0948-7284

3. Date of Formation (MM-DD-YYYY)
02/03/2010

PART B - TYPE OF OPERATION (Select only one)

1. Select appropriate type of operation that defines the entity identified in Part A:

☐ General Partnership ☐ Limited Partnership ☐ Estate ☐ Indian Tribe
☐ Joint Venture ☒ Limited Liability Company ☐ Charitable/Tax-exempt Organization
☐ Sole Proprietorship/DBA ☐ Revocable/Living Trust ☐ Public School ☐ Other
☐ Corporation ☐ Irrevocable Trust ☐ City, County or State-owned Entity

2. Trust documents for an Irrevocable Trust are required to be provided. Other supporting documentation (such as articles of incorporation, partnership agreement, evidence of heirship, and operational authorities of all shareholders, members and owners) may be required, except for public schools, States, State entities, cities, and counties, to verify the legal status of the entity and the authority of its shareholders, members or owners to the satisfaction of CCC.

PART C - MEMBER INFORMATION (Use CCC-902E Continuation if additional space is needed for any information in Part C)

1. Members - List all members/shareholders/beneficiaries/heirs/partners of the entity identified in Part A of this form:

A. Name	B. Tax ID Number (Last 4 digits if already on file)	C. % Share	D. Position and Salary (If applicable)	E. Family Member Relationship* (If applicable)	F. Does this member have signature authority for the legal entity? (Yes or No)
Tinsley Arianna Taylor	01-0948-7284	100%	Owner	Self/owner	☒ YES ☐ NO
M. J. Wright	443-78	60%	\$ Varies \$28,000	Self/owner	☐ YES ☐ NO
	6074 (my SSN)				☐ YES ☐ NO
					☐ YES ☐ NO
					☐ YES ☐ NO
					☐ YES ☐ NO
					☐ YES ☐ NO

* Family member means great grandparent, grandparent, parent, spouse, child (including legally adopted children and stepchildren), grandchild, great grandchild, sibling, 1st cousin, niece, nephew, aunt, uncle of family member in the farming operation (see definition on page 6)

2. If the entity in Part A is an Estate or Trust, or if any member/shareholder is listed above is an Estate or Trust, list the Executor, Administrator, or Grantor.

A. Name of Estate or Trust N/A B. Name of Executor/Administrator/Grantor N/A

3. Embedded Entities - If any member/shareholder of the entity identified in Part A is an entity, a CCC-901, Member's Information, must also be completed and submitted concurrent with this CCC-902E. Additionally, a CCC-902E must be completed and submitted for each embedded entity.

☐ Check if CCC-901 is attached N/A ☐ Check if CCC-902E is attached for an embedded entity

RECEIVED
AUG 12 2022

CCC-902E (01-07-21) Name of Entity (as Identified in Part A): OKLAHOMA JUDICIAL PROCESS SERVERS, LLC Page 2 of 6

4. Minor Members or Shareholders – For any Member or Shareholder who is a minor, provide the following: ☐ N/A				
A. Minor's Name	B. Date of Birth	C. Parent's or Guardian's Name	D. Parent's or Guardian's Address	E. Parent or Guardian's SSN or Tax ID Number (Last 4 digits if already on file)
		N/A		

F. Separate Status of Minors:

(1) Is any minor a producer on a farm in which the parent or guardian has no interest? ☐ YES ☐ NO

(2) Does any minor maintain a separate household from the parent or guardian and personally carry out farming Activities with respect to the minor's farming operation, including maintaining separate accounting? ☐ YES ☐ NO

(3) Does any minor who is represented by a court-appointed guardian or conservator responsible for the minor a) live in a household other than the parents' household(s), and b) have a vested ownership in the farm? ☐ YES ☐ NO

(4) If any minor with an interest in this farming operation can answer "YES" to Items F(1) through F(3), list that minor's name:

5A. Citizenship Status - Is each Member and Shareholder of the entity or joint operation identified in Part A, and any embedded entity identified in Part C a U.S. Citizen?

☒ YES, all members/shareholders are US Citizens - Go to Part D

☐ NO, one or more members/shareholders is not a US Citizen - Complete Item 5B

5B. For each member or shareholder (direct or embedded) who is not a US Citizen, provide the following:

(1) Name of Individual	(2) This individual has a valid Form I-551	FOR FSA USE ONLY	
		Form I-551 Presented to FSA	CCC Initials
	☐ YES ☐ NO	☐ YES ☐ NO	
	☐ YES ☐ NO	☐ YES ☐ NO	
	☐ YES ☐ NO	☐ YES ☐ NO	
	☐ YES ☐ NO	☐ YES ☐ NO	

PART D - SUMMARY OF CONTRIBUTIONS TO THE FARMING OPERATION

1. For the farming operation of the entity identified in Part A, what percentages of the overall inputs will be contributed directly by the Entity? Enter the following information for contributions to be made by the entity identified in Part A. These percentages should reflect the capital provided directly by the legal entity, land and equipment owned and/or cash leased by the legal entity and used in the farming operation; labor hired by the legal entity; and management hired by the legal entity. (Provide detailed information about these contributions in Items A through E.)

A. Capital	B. Land	C. Equipment	D. Hired Labor	E. Hired Management
100 %	100 %	%	%	%

2. For the farming operation of the entity identified in Part A, what percentages of the following farm inputs will be contributed by the Members listed in PART C? Enter the following information for the contributions to be made by the members. These percentages should reflect any capital originating from members' funds rather than from the entity; land and equipment owned or obtained by the member(s) and contributed to this farming operation without compensation to the member(s); labor and management hired by the members for the entity; and labor and management performed personally by the member(s) for the benefit of the farming operation identified in Part A. (Provide information about these contributions in Items B through H.)

A. Member's Name	B. Capital (Current Year) %	C. Land %	D. % of Owned Land	E. Equipment %	F. % of Owned Equipment	G. Labor (%)			H. Management (%)	
						Hired	Active Personal	Check if 1000 Hours	Hired	Active Personal

PART H - CUSTOM SERVICES

1. Will custom services be utilized by the entity identified in Part A on the farms listed in Part E?

☐ NO. GO TO PART I ☐ YES. Complete Items 1A through 1D.

A. Type of Services	B. Farm Number(s)	C. Number of Acres	D. Name of Provider

PART I - LABOR NOT PROVIDED BY MEMBERS/SHAREHOLDERS IDENTIFIED IN PART C

For the farms listed in Part E, enter the information for contributions of labor to the farming operation that will not be provided by the members or shareholders listed in Part C:

Type	Amount
1 Other labor: Enter the percentage or the number of hours to be donated by family members or others for which no payment will be issued or owed.	% hrs

2. Hired labor:

A. Will any of the hired labor for the farming operation identified in Part A originate from the same source as the leased equipment in Part G?

☐ NO ☐ YES If "YES", acceptable documentation to prove such relationship may be required for compliance purposes.

B. Will any of the hired labor for the farming operation identified in Part A be included in the custom services shown in Part H?

☐ NO ☐ YES If "YES", acceptable documentation to prove such relationship may be required for compliance purposes.

PART J - MANAGEMENT

Enter all managerial duties and/or activities required for the farming operation identified in Part A which will be provided personally by member(s) or shareholder(s) of the entity or joint operation; or by hired management.

1 Active personal management:

List each member or shareholder in column A; the specific managerial duties/activities that will be performed personally by each member or shareholder in column B. For nonfamily member operations only, complete items in column C to include the amount of time expended annually, either in hours or as a percentage of the total management hours required for the farming operation.

A. Member/Shareholder	B. Duties/Activities	C. Time Expended Annually (For nonfamily member operations only)	
		hrs	%
		hrs	%
		hrs	%
		hrs	%
		hrs	%
		hrs	%

For additional space, use and attach CCC-902E Continuation

	Amount
2 Hired management: Enter the percentage of hired management contributed to the farming operation. Describe any hired management duties/activities that will be provided by someone other than a member or shareholder. (Include management by an administrator or trustee who receives compensation for this service or activity):	%
3 Other management: Enter the percentage of other management contributed to the farming operation. Describe any non-compensated management that will be provided by someone other than a member or shareholder. (Exclude management by an administrator or trustee who does not receive compensation for this activity):	%

PART L - CERTIFICATION - (FOR JOINT VENTURES AND GENERAL PARTNERSHIPS, A SIGNATURE IS REQUIRED FOR EACH MEMBER)

I certify that all the information entered on this document and any supporting documentation is true and correct. I understand that furnishing incorrect information will result in forfeiture of payments and may result in the assessment of a penalty. I will timely provide written notification to the Farm Service Agency committees for the county and State listed on this form of any changes in this farming operation. By signing this form, I acknowledge that:

- all supporting documentation has been submitted as required
- I have reviewed and understand all definitions and requirements on Page 6 of this form.
- all information will be considered in effect continuously unless changes or revisions are submitted.
- it is my responsibility to timely notify FSA in writing of any changes that may affect these representations, including, but not limited to: the composition of the entity identified in Part A; the farming, ranching or forestry operation of the entity identified in Part A; financial status of the entity identified in Part A.
- evidence such as tax records, certified public accountant's certification, or other documentation may be required to validate these representations and I will take all necessary actions to provide such materials to the applicable State or county committee if requested by FSA.
- it is my responsibility to timely notify FSA in writing of any successors who acquire an interest in this farming operation as the result of the death of a member or shareholder.

1. Signature (By)	2. Title/Relationship of Individual Signing in the Representative Capacity	3. Date (MM-DD-YYYY)
	owner	8/11/2022

NOTE: The following statement is made in accordance with the Privacy Act of 1974 (5 USC 552a -- as amended). The authority for requesting the information identified on this form is 7 CFR Part 1400, the Commodity Credit Corporation Charter Act (15 U.S.C. 714 et seq.), the Agricultural Act of 2014 (Pub. L. 113-79), and the Agriculture Improvement Act of 2018 (Pub. L. 115-334). The information will be used to identify the farm operating plan data needed to determine a legal entity's eligibility for program benefits. The information collected on this form may be disclosed to other Federal, State, Local government agencies, Tribal agencies, and nongovernmental entities that have been authorized access to the information by statute or regulation and/or as described in applicable Routine Uses identified in the System of Records Notice for USDA/FSA-2, Farm Records File (Automated). Providing the requested information is voluntary. However, failure to furnish the requested information will result in a determination of ineligibility for program benefits.

Paperwork Reduction Act (PRA) Statement: This information collection is exempted from the Paperwork Reduction Act as specified in 7 U.S.C. 9091(c)(2)(B)

Public Burden Statement: For CFAP 2.0 and QLA only, public reporting burden for this collection is estimated to average 30 minutes per response, including reviewing instructions, gathering and maintaining the data needed, completing (providing the information), and reviewing the collection of information. You are not required to respond to the collection, or USDA may not conduct or sponsor a collection of information unless it displays a valid OMB control number. The provisions of criminal and civil fraud, privacy, and other statutes may be applicable to the information provided. **RETURN THIS COMPLETED FORM TO YOUR COUNTY FSA OFFICE.**

In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, gender identity (including gender expression), sexual orientation, disability, age, marital status, family/parental status, income derived from a public assistance program, public housing, or reprisal or retaliation for prior civil rights activity in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotape, American Sign Language, etc.) should contact the responsible Agency or USDA's TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339. Additionally, program information may be made available in languages other than English.

To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD-3027, found online at <https://www.usda.gov/complaints> or by mail at: USDA, Civil Rights, 1400 Independence Avenue, SW Washington, D.C. 20250-9410, (2) fax: (202) 690-7442, or (3) email: usda.nondiscrimination@usda.gov. USDA is an equal opportunity provider, employer, and contractor.

A. ☐ Less than (or equal to) \$900,000								
B. ☐ More than \$900,000								
PART B – CONSENT TO DISCLOSURE OF TAX INFORMATION								
Pursuant to 26 U.S.C. §6103, I hereby authorize the Internal Revenue Service (IRS) to review the following items of "return information" (as defined in 26 U.S.C. §6103(b)(2)) from the returns (as specified below) of the individual or legal entity identified in Item 2 for the taxable years indicated in Item 4: <table style="width: 100%;"> <tr> <td style="width: 50%;">Form 1040 and 1040NR filers: farm income or loss; adjusted gross income</td> <td style="width: 50%;">Form 1120, 1120A, 1120C filers: charitable contributions, taxable income</td> </tr> <tr> <td>Form 1041 filers: farm income or loss, charitable contributions, income distribution deductions, exemptions, adjusted total income; total income</td> <td>Form 1120S filers: ordinary business income</td> </tr> <tr> <td>Form 1065 filers: guaranteed payments to partners, ordinary business income</td> <td>Form 990T: unrelated business taxable income</td> </tr> </table> I understand the IRS will review these items of return information in order to perform calculations, the results of which I authorize to be disclosed to officers and employees of the United States Department of Agriculture (USDA) for use in determining the individual's or legal entity's eligibility for specified payments for various commodity and conservation programs. The calculations performed by the IRS use a methodology prescribed by the USDA. In addition, I am aware that the USDA may use the information received for compliance purposes related to this eligibility determination, including referrals to the Department of Justice. Specifically, the IRS will disclose to the USDA the individual's or legal entity's name and TIN, and inform the USDA if, pursuant to its calculations, the average Adjusted Gross Income (AGI) is above or below eligibility requirements as prescribed by the Agricultural Act of 2014 or Agriculture Improvement Act of 2018. The IRS will also disclose to the USDA the type of return from which the information used for the calculations was obtained. If the IRS is unable to locate a return that matches the taxpayer identity information provided above, or if IRS records indicate that the specified return has not been filed, for any of the taxable years indicated, the IRS may disclose that it was unable to locate a return, or that a return was not filed, for those years, whichever is applicable. I understand the Internal Revenue Code §6103(c), limits disclosure and use of return information provided pursuant to a taxpayer's consent and holds the recipient subject to penalties, brought by private right of action, for any unauthorized access, other use, or redisclosure without the taxpayer's express permission or request. An approved Power of Attorney (Form FSA-211) on file with USDA cannot be used as evidence of signature authority when completing this form. By signing this form: - I acknowledge that I have read and reviewed all definitions and requirements on Page 2 of this form; - I certify that all information contained within this certification is true and correct; and is consistent with the tax returns filed with the IRS; - I agree to authorize CCC to obtain tax data from the IRS for AGI compliance verification purposes by filing this form; - I am aware that without this consent to disclosure, the returns and return information of the individual or legal entity identified in Item 2 are confidential and are protected by law under the Internal Revenue Code; - I certify that I am authorized under applicable state law to execute this consent on behalf of the legal entity identified in Item 2 (for legal entity only). AD-1026
 (10-30-14)

(See Page 2 for Privacy Act and Paperwork Reduction Act Statements)

U.S. DEPARTMENT OF AGRICULTURE
 Farm Service Agency

**HIGHLY ERODIBLE LAND CONSERVATION (HELC) AND
 WETLAND CONSERVATION (WC) CERTIFICATION**

Read attached AD-1026 Appendix before completing form.

PART A – BASIC INFORMATION

1. Name of Producer OKLAHOMA JUDICIAL PROCESS SERVERS LLC	2. Tax Identification Number (Last 4 digits) 8724	3. Crop Year 2022
--	--	----------------------

4. Names of affiliated persons with farming interests. Enter "None," if applicable.
 NONE

Affiliated persons with farming interests must also file an AD-1026. See Item 7 in the Appendix for a definition of an affiliated person.

5. Check one of these boxes if the statement applies; otherwise continue to Part B.

A. ☐ The producer in Part A does not have interest in land devoted to agriculture. Examples include bee keepers who place their hives on another person's land, producers of crops grown in greenhouses, and producers of aquaculture AND these producers do not own/lease any agricultural land themselves. **Note:** Do not check this box if the producer shares in a crop.

B. ☐ The producer in Part A meets all three of the following:

- does not participate in any USDA program that is subject to HELC and WC compliance except Federal Crop Insurance.
- only has interest in land devoted to agriculture which is exclusively used for perennial crops, except sugarcane, and
- has not converted a wetland after February 7, 2014.

Perennial crops include, but are not limited to, tree fruit, tree nuts, grapes, olives, native pasture and perennial forage. A producer that produces alfalfa should contact the Natural Resources Conservation Service at the nearest USDA Service Center to determine whether such production qualifies as production of a perennial crop.

Note: If either box is checked, and the producer in Part A does not participate in Farm Service Agency (FSA) or Natural Resources Conservation Service (NRCS) programs, the full tax identification number of the producer must be provided, but establishment of detailed farm records with FSA is not required. Go to Part D and sign and date.

PART B - HELC/WC COMPLIANCE QUESTIONS

Indicate YES or NO to each question.

If you are unsure of whether a HEL determination, wetland determination, or NRCS evaluation has been completed, contact your local USDA Service Center.

	YES	NO
6. During the crop year entered in Part A or the term of a requested USDA loan, did or will the producer in Part A plant or produce an agricultural commodity (including sugarcane) on land for which an HEL determination has not been made?		X

7. Has anyone performed (since December 23, 1985), or will anyone perform any activities to:

A. Create new drainage systems, conduct land leveling, filling, dredging, land clearing, or excavation that has **NOT** been evaluated by NRCS? If "YES", indicate the year(s):

B. Improve or modify an existing drainage system that has **NOT** been evaluated by NRCS? If "YES", indicate the year(s):

C. Maintain an existing drainage system that has **NOT** been evaluated by NRCS? If "YES", indicate the year(s):

Note: Maintenance is the repair, rehabilitation, or replacement of the capacity of existing drainage systems to allow for the continued use of wetlands currently in agricultural production and the continued management of other areas as they were used before December 23, 1985. This allows a person to reconstruct or maintain the capacity of the original system or install a replacement system that is more durable or will realize lower maintenance or costs.

Note: If "YES" is checked for Item 7A or 7B, then Part C must be completed to authorize NRCS to make an HELC/WC and/or certified wetland determination on the identified land. If "YES" is checked for Item 7C, NRCS does not have to conduct a certified wetland determination.

8. Check one or both boxes, if applicable; otherwise, continue to Part C or D.

N/A

A. ☐ Check this box only if the producer in Part A has FCIC reinsured crop insurance and filing this form represents the first time the producer in Part A, including any affiliated person, has been subject to HELC and WC provisions.

B. ☐ Check this box if either of the following applies to the producer and crop year entered in Part A:

- Is a tenant on a farm that is/will not be in compliance with HELC and WC provisions because the landlord refuses to allow compliance, but all other farms not associated with that landlord are in compliance. (AD-1026B, Tenant Exemption Request, must be completed).
- Is a landlord of a farm that is/will not be in compliance with HELC and WC provisions because of a violation by the tenant on that farm, but all other farms not associated with that tenant are in compliance. (AD-1026C, Landlord or Landowner Exemption Request, must be completed).

PART C – ADDITIONAL INFORMATION

9. If "YES" was checked in Item 6 or 7, provide the following information for the land to which the answer applies:

A. Farm and/or tract/field number: N/A
 If unknown, contact the Farm Service Agency at the nearest USDA Service Center.

B. Activity: N/A

C. Current land use (specify crops):

D. County:

PART D – CERTIFICATION OF COMPLIANCE

I have received and read the AD-1026 Appendix and understand and agree to the terms and conditions therein on all land in which I (or the producer in Part A if different) and any affiliated person have or will have an interest. I understand that eligibility for certain USDA program benefits is contingent upon this certification of compliance with HELC and WC provisions and I am responsible for any non-compliance. I understand and agree that this certification of compliance is considered continuous and will remain in effect unless revoked or a violation is determined. I further understand and agree that:

- all applicable payments must be refunded if a determination of ineligibility is made for a violation of HELC or WC provisions.
- NRCS may verify whether a HELC violation or WC has occurred.
- a revised Form AD-1026 must be filed if there are any operation changes or activities that may affect compliance with the HELC and WC provisions. I understand that failure to revise Form AD-1026 for such changes may result in ineligibility for certain USDA program benefits or other consequences.
- affiliated persons are also subject to compliance with HELC and WC provisions and their failure to comply or file Form AD-1026 will result in loss of eligibility for applicable benefits to any individuals or entities with whom they are considered affiliated.

Producer's Certification:

I hereby certify that the information on this form is true and correct to the best of my knowledge.

10A. Producer's Signature (By) 	10B. Title/Relationship (If Signing in Representative Capacity) MEMBER	10C. Date (MM-DD-YYYY) 09/01/2022
FOR FSA USE ONLY (for Referral to NRCS) Sign and date if NRCS determination is needed.	11A. Signature of FSA Representative	11B. Date (MM-DD-YYYY)

IMPORTANT: If you are unsure about the applicability of HELC and WC provisions to your land, contact your local USDA Service Center for details concerning the location of any highly erodible land or wetland and any restrictions applying to your land according to NRCS determinations before planting an agricultural commodity or performing any drainage or manipulation. Failure to certify and properly revise your compliance certification when applicable may: (1) affect your eligibility for USDA program benefits, including whether you qualify for reinstatement of benefits through the Good Faith process; and (2) result in other consequences.

NOTE: The following statement is made in accordance with the Privacy Act of 1974 (5 USC 552a - as amended). The authority for requesting the information identified on this form is 7 CFR Part 12, the Food Security Act of 1985 (Pub. L. 99-198), and the Agricultural Act of 2014 (Pub. L. 113-79). The information will be used to certify compliance with HELC and WC provisions and to determine producer eligibility to participate in and receive benefits under programs administered by USDA agencies. The information collected on this form may be disclosed to other Federal, State, Local government agencies, Tribal agencies, and nongovernmental entities that have been authorized access to the information by statute or regulation and/or as described in applicable Routine Uses identified in the System of Records Notice for USDA/FSA-2, Farm Records File (Automated) and USDA/FSA-14, Applicant/Borrower. Providing the requested information is voluntary. However, failure to furnish the requested information will result in a determination of producer ineligibility to participate in and receive benefits under programs administered by USDA agencies.

This information collection is exempted from the Paperwork Reduction Act as specified in the Agricultural Act of 2014 (Pub. L. 113-79, Title II, Subtitle G, Funding and Administration). The provisions of appropriate criminal and civil fraud, privacy, and other statutes may be applicable to the information provided. **RETURN THIS COMPLETED FORM AD-1026 TO YOUR COUNTY FARM SERVICE AGENCY (FSA) OFFICE.**

The U.S. Department of Agriculture (USDA) prohibits discrimination against its customers, employees, and applicants for employment on the basis of race, color, national origin, age, disability, sex, gender identity, religion, reprisal, and where applicable, political beliefs, marital status, familial or parental status, sexual orientation, or all or part of an individual's income is derived from any public assistance program, or protected genetic information in employment or in any program or activity conducted or funded by the Department. (Not all prohibited basis will apply to all programs and/or employment activities.) Persons with disabilities, who wish to file a program complaint, write to the address below or if you require alternative means of communication for program information (e.g., Braille, large print, audiotape, etc.) please contact USDA's TARGET Center at (202) 720-2600 (voice and TDD). Individuals who are deaf, hard of hearing, or have speech disabilities and wish to file either an EEO or program complaint, please contact USDA through the Federal Relay Service at (800) 877-8339 or (800) 845-6136 (in Spanish).

If you wish to file a Civil Rights program complaint of discrimination, complete the USDA Program Discrimination Complaint Form, found online at http://www.ascr.usda.gov/complaint_filing_cust.html or at any USDA office, or call (866) 632-9992 to request the form. You may also write a letter containing all of the information requested in the form. Send your completed complaint form or letter by mail to U.S. Department of Agriculture, Director, Office of Adjudication, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, by fax (202) 690-7442 or email at program.intake@usda.gov. USDA is an equal opportunity provider and employer.

This form is available electronically.

AD-1026
(10-30-14)

(See Page 2 for Privacy Act and Paperwork Reduction Act Statements)

U.S. DEPARTMENT OF AGRICULTURE
Farm Service AgencyHIGHLY ERODIBLE LAND CONSERVATION (HELC) AND
WETLAND CONSERVATION (WC) CERTIFICATION

Read attached AD-1026 Appendix before completing form.

PART A – BASIC INFORMATION

1. Name of Producer <i>Tinsley Ariana Taylor Makyla Samoshy</i>	2. Tax Identification Number (Last 4 digits) <i>FETN: 01-0448724</i>	3. Crop Year <i>2022</i>
4. Names of affiliated persons with farming interests. Enter "None," if applicable. <i>NONE</i>		

SSN: 443-88-8079

Affiliated persons with farming interests must also file an AD-1026. See Item 7 in the Appendix for a definition of an affiliated person.

5. Check one of these boxes if the statement applies; otherwise continue to Part B.

A. ☐ The producer in Part A does not have interest in land devoted to agriculture. Examples include bee keepers who place their hives on another person's land, producers of crops grown in greenhouses, and producers of aquaculture AND these producers do not own/lease any agricultural land themselves. **Note:** Do not check this box if the producer shares in a crop.

B. ☐ The producer in Part A meets all three of the following:

- does not participate in any USDA program that is subject to HELC and WC compliance except Federal Crop Insurance.
- only has interest in land devoted to agriculture which is exclusively used for perennial crops, except sugarcane, and
- has not converted a wetland after February 7, 2014.

Perennial crops include, but are not limited to, tree fruit, tree nuts, grapes, olives, native pasture and perennial forage. A producer that produces alfalfa should contact the Natural Resources Conservation Service at the nearest USDA Service Center to determine whether such production qualifies as production of a perennial crop.

Note: If either box is checked, and the producer in Part A does not participate in Farm Service Agency (FSA) or Natural Resources Conservation Service (NRCS) programs, the full tax identification number of the producer must be provided, but establishment of detailed farm records with FSA is not required. Go to Part D and sign and date.

PART B – HELC/WC COMPLIANCE QUESTIONS

Indicate YES or NO to each question. If you are unsure of whether a HELC determination, wetland determination, or NRCS evaluation has been completed, contact your local USDA Service Center.	YES	NO
6. During the crop year entered in Part A or the term of a requested USDA loan, did or will the producer in Part A plant or produce an agricultural commodity (including sugarcane) on land for which an HELC determination has not been made?		X
7. Has anyone performed (since December 23, 1985), or will anyone perform any activities to:		X
A. Create new drainage systems, conduct land leveling, filling, dredging, land clearing, or excavation that has NOT been evaluated by NRCS? If "YES", indicate the year(s): _____		X
B. Improve or modify an existing drainage system that has NOT been evaluated by NRCS? If "YES", indicate the year(s): _____		X
C. Maintain an existing drainage system that has NOT been evaluated by NRCS? If "YES", indicate the year(s): _____ Note: Maintenance is the repair, rehabilitation, or replacement of the capacity of existing drainage systems to allow for the continued use of wetlands currently in agricultural production and the continued management of other areas as they were used before December 23, 1985. This allows a person to reconstruct or maintain the capacity of the original system or install a replacement system that is more durable or will realize lower maintenance or costs.		X
Note: If "YES" is checked for Item 7A or 7B, then Part C must be completed to authorize NRCS to make an HELC/WC and/or certified wetland determination on the identified land. If "YES" is checked for Item 7C, NRCS does not have to conduct a certified wetland determination.		
8. Check one or both boxes, if applicable; otherwise, continue to Part C or D.	N/A	
A. ☐ Check this box only if the producer in Part A has FCIC reinsured crop insurance and filing this form represents the <u>first time</u> the producer in Part A, including any affiliated person, has been subject to HELC and WC provisions.		
B. ☐ Check this box if either of the following applies to the producer and crop year entered in Part A:		
• Is a tenant on a farm that is/will not be in compliance with HELC and WC provisions because the landlord refuses to allow compliance, but all other farms not associated with that landlord are in compliance. (AD-1026B, Tenant Exemption Request, must be completed).		
• Is a landlord of a farm that is/will not be in compliance with HELC and WC provisions because of a violation by the tenant on that farm, but all other farms not associated with that tenant are in compliance. (AD-1026C, Landlord or Landowner Exemption Request, must be completed).		

PART C – ADDITIONAL INFORMATION

9. If "YES" was checked in Item 6 or 7, provide the following information for the land to which the answer applies:

A. Farm and/or tract/field number: **N/A**
If unknown, contact the Farm Service Agency at the nearest USDA Service Center

B. Activity: **N/A**

C. Current land use (specify crops):

D. County:

AD-1026 (10-30-14)

Page 2 of 2

PART D – CERTIFICATION OF COMPLIANCE

I have received and read the AD-1026 Appendix and understand and agree to the terms and conditions therein on all land in which I (or the producer in Part A if different) and any affiliated person have or will have an interest. I understand that eligibility for certain USDA program benefits is contingent upon this certification of compliance with HELC and WC provisions and I am responsible for any non-compliance. I understand and agree that this certification of compliance is considered continuous and will remain in effect unless revoked or a violation is determined. I further understand and agree that:

- all applicable payments must be refunded if a determination of ineligibility is made for a violation of HELC or WC provisions.
- NRCS may verify whether a HELC violation or WC has occurred.
- a revised Form AD-1026 must be filed if there are any operation changes or activities that may affect compliance with the HELC and WC provisions. I understand that failure to revise Form AD-1026 for such changes may result in ineligibility for certain USDA program benefits or other consequences.
- affiliated persons are also subject to compliance with HELC and WC provisions and their failure to comply or file Form AD-1026 will result in loss of eligibility for applicable benefits to any individuals or entities with whom they are considered affiliated.

Producer's Certification:

I hereby certify that the information on this form is true and correct to the best of my knowledge.

10A. Producer's Signature (By) 	10B. Title/Relationship (If Signing in Representative Capacity) owner	10C. Date (MM-DD-YYYY) 08/11/2022
FOR FSA USE ONLY (for referral to NRCS) Sign and date if NRCS determination is needed.	11A. Signature of FSA Representative	11B. Date (MM-DD-YYYY)

IMPORTANT: If you are unsure about the applicability of HELC and WC provisions to your land, contact your local USDA Service Center for details concerning the location of any highly erodible land or wetland and any restrictions applying to your land according to NRCS determinations before planting an agricultural commodity or performing any drainage or manipulation. Failure to certify and properly revise your compliance certification when applicable may: (1) affect your eligibility for USDA program benefits, including whether you qualify for reinstatement of benefits through the Good Faith process; and (2) result in other consequences.

Executive Session

Conservation Reserve Program (CRP)

Additional component for FY26 CRP Cost Share Rates

EXHIBIT 2

State Committee Discussion Record

Program: Conservation Reserve Program

Date: 05/28/2026

Staff Member Presenting:

Hunter A. Cleveland

Matter for Consideration:

Establishment of additional Cost Share Rate for the Conservation Reserve Program (CRP) for FY26

State Committee Recommendation:

It is recommended that the Colorado STC accept the proposed FY26 CRP Cost Share Rate for the component listed below unless determined otherwise.

Background:

In accordance with handbook 2-CRP (Rev. 6), the Colorado STC is tasked with annually establishing the C/S rates for the CRP that will be applicable for each fiscal year.

The FY26 CRP Cost Share Rates were established by the Colorado STC during the April STC meeting. After this meeting, it was determined that the following additional CRP component is needed to address cover restoration on CRP post wildfires.

Component Code	Description	Measurement	Rate
26COCR1001	Post Fire-Mulching (Straw)	Acre	\$46.00

This rate is intended to be expressed as a “percent-of-cost not to exceed” and is all encompassing of straw purchase and application.

after the fire

Straw Mulching in the Aftermath of Wildfire

What is it? The application of straw as a protective cover over seeded or non-seeded areas to: reduce soil erosion and sedimentation; slow runoff and mobilization of ash and/or toxic debris; and aid in revegetation on bare soils from wildfire or from soil/slope disturbances caused by the wildfire fighting effort.

When is it used? Straw Mulching is used on bare and disturbed soil areas including slopes which need protection from winter rains and/or runoff and that have a high potential for erosion. In some circumstances, such as steep slopes and where wind is an issue, straw mulching requires some type of anchoring by crimping/ "punching," netting or other methods to prevent blowing, sliding or washing away. Straw mulching is not suitable in waterways areas, including channel banks where it could easily mobilize and present issues for downstream culverts, stream crossings, drains, etc. Straw mulch forms a loose layer when applied over the soil surface.

Where necessary straw can be covered with jute or decomposable plastic netting or "punched/tucked" into the soil with a shovel, spade or by equipment on excessively steep slopes or sites exposed to high winds. The mulch should cover all areas that are seeded. On larger areas where and where no seeding will be done it is generally not feasible to cover the entire area with straw. In these critical area mulch strips 10' wide placed on the contour of the slope no further than 100' apart will help protect soil, slow runoff and trap sediment.

Methods and Materials: On gentle to moderate slopes, straw mulch can be applied by hand broadcasting to a uniform depth of no more than 2 inches. On steep slopes, the straw can be spread by hand, if accessible, or can be blown onto the slope by a straw blower contractor to achieve the same degree of cover. When applied properly, approximately 30 percent of the original ground surface can be seen. The application rate per acre should be about 2 tons (or one 75 pound bale per 800 square feet). Straw should be clean rice, barley, or wheat straw.

Anchoring of straw mulch (when necessary) can be accomplished using the following methods:

Hand Punching: A spade or shovel is used to punch straw into the slope until all areas have straw standing perpendicularly to the slope and embedded at least 3-4 inches into the slope. It should be punched about 1-2 feet apart.

Roller Punching: An equipment roller equipped with straight studs not less than 6 inches long, from 4 - 6 inches wide and approximately one inch thick is rolled over the slope.

Netting: Netting is used on large, excessively steep areas which cannot be punched with a roller or by hand. Jute, wood excelsior or decomposable plastic netting is applied over a 2" layer of straw.

IMPORTANT NOTE: Mulch can be a fire hazard if installed when fire is still a danger especially in the interface of burned and unburned landscapes which happens to be where many firebreaks are located. Mulching should not be used while ground is still hot from fire and be delayed until just before the first rains.

Where to Get Help: Technical Assistance and practice details and guidelines are available from your local USDA Natural Resources Conservation Service office or your local Resource Conservation District regarding straw mulching and other erosion and sediment control treatments. www.ca.nrcs.usda.gov.

USDA is an equal opportunity provider, employer, and lender.

Executive Session

Emergency Forest Restoration Program (EFRP)

Additional components for FY26 EFRP Cost Share Rates

EXHIBIT 3

State Committee Discussion Record

Program: Emergency Forest Restoration Program

Date: 05/28/2026

Staff Member Presenting:

Hunter A. Cleveland

Matter for Consideration:

Establishment of additional Cost Share Rate for the Emergency Forest Restoration Program (EFRP) for FY26

State Committee Recommendation:

It is recommended that the Colorado STC accept the proposed FY26 EFRP Cost Share Rate for the component listed below unless determined otherwise.

Background:

In accordance with handbook 1-EFRP (Rev. 1) paragraph 66A, the Colorado STC is tasked with annually establishing the C/S rates for the EFRP that will be applicable for each fiscal year.

The FY 26 EFRP Cost Share Rates were established by the Colorado STC during the April STC meeting. During discussion it was determined that an additional Cost Share Rate for Fencing-Woven Wire was needed. The following is the proposed rate for Fencing-Woven Wire. Additionally, the Colorado STO recommends the addition of the component Multistrand Barbed/Smooth Wire, Very Difficult Terrain as was recently approved by the National Office for use in the Emergency Conservation Reserve Program (ECP).

Component Code	Description	Measurement	Rate
26COEFRP24	Woven Wire	Feet	\$8.50
26COEFRP22	Multistrand Barbed/Smooth Wire Very Difficult Terrain	Feet	\$13.88

EXHIBIT 3

Woven Wire Data

Scenario Name: Woven Wire, 96 Inches

Scenario Description: Woven Wire fencing installed for large livestock such as Bison, large ungulate herbivores, captive cervidae that are not domesticated. Because of the size and behavior differences relative to domesticated livestock, fences, handling facilities and loading facilities must be more robust to accommodate bison. Fence allows for the implementation of a grazing management under a CPS 528 Prescribed Grazing plan. Fence facilitates the movement of livestock for forage management and protection of sensitive areas. All fence components are included. Fence encloses <= 20 acres or 2640 foot linear run connection with 5-8 wire fencing. Install fence with considerations for wildlife corridors.

Before Situation: Livestock have access to forage and sensitive areas without management of intensity, duration and frequency of grazing events. Plant productivity and health is degraded. Water quality may be impaired by sediment and livestock access to water.

After Situation: Installation of the tall woven wire high tensile electric fence allows for grazing management to be implemented. Fence is installed to specifications meeting the producer's objective and livestock type. Fence is installed with wildlife friendly considerations and known wildlife corridors.

Associated Practices: Additional practices may be required to ensure effective implementation. The costs associated with these practices are not included in the current practice scenario.

Resource Concerns: The conservation practice standard provides implementation specifications to achieve the desired conservation objective(s) by addressing identified natural resource concern(s).

Feature Measure: length

Scenario Unit: Foot

Scenario Typical Size: 2,640.00

Cost Summary:

Cost Summary		
Cost Category	Total Cost	Scenario Cost/Unit
Materials	\$13,127.24	\$4.97
Equipment Installation	\$3,808.10	\$1.44
Labor	\$4,928.94	\$1.87
Mobilization	\$653.64	\$0.25
Acquisition of Technical Knowledge	\$0.00	\$0.00
Foregone Income	\$0.00	\$0.00
Risk	\$0.00	\$0.00
Total	\$22,517.92	\$8.53

Disclaimer: This information is not intended for practical implementation. Please adhere to the specific design or implementation requirements applicable to your site.

Practice Code Name: 382 - Fence

Scenario Number: 245

Scenario Name: Virtual Fence, Startup Year 1, Base Cost

Scenario Description: Utilization of a virtual fence to manage cattle distribution, frequency, and duration in accordance with the Grazing Management Plan (CPS 528). The base represents a typical cost incurred regardless of size. Must be planned in conjunction with the implementation scenario to reflect the total installation cost.

Before Situation: Grazing land is undesirable and used inefficiently.

After Situation: A virtual fence is used and improves the distribution, frequency, intensity, and duration of grazing.

Associated Practices: Additional practices may be required to ensure effective implementation. The

We hereby submit specifications and estimates for:

4 Strand Barbed/Barbless Wire.
Approx 5508' @ \$14.00/ft = \$77112.00
Teardown - Approx 56hrs @ \$225.00 = \$12600.00
Dump Fee. \$500.00
\$90212.00 approx

2 strands barbed wire / 2 strands barbless wire / 4-5' x 6' posts to 1-5-6 x 6' pressure treated line post / posts set 16' on center / 2 wood stays per section / braces where needed / all wood posts set in concrete.

WE PROPOSE hereby to furnish material and labor - complete with above specifications for the sum of:

Half down, balance to be paid in full ^{approx} dollars (\$90212.00)
 Payment to be made as follows:
upon completion

All material is guaranteed to be as specified. All work to be completed in a workman-like manner according to standard practices. Any alteration or deviation from above specifications involving extra costs will be executed only upon written orders, and will become an extra charge over and above the estimate. All agreements contingent upon strikes, accidents or delays beyond our control. Owner to carry fire, tornado and other necessary insurance. Our workers are fully covered by Workmen's Compensation Insurance.

Authorized Signature Cheri Lilly

Note: This proposal may be withdrawn by us if not accepted within 10 days

ACCEPTANCE: This agreement when signed by the buyers and the seller becomes a contract between the two parties and is not subject to cancellation. The buyers agree to furnish and be responsible for fence lines (location of fence) and grades unless specified in writing above. This contract does not include any grading, surveying, nor the removal of any fences or plants, upon default in payment in accordance to the terms and conditions stated above, the entire balance to be immediately due and payable with interest at 1 1/2% per month, 18% per annum, from date of default until paid. In the event it becomes necessary to employ an attorney or collection agency to collect this amount, or any part thereof, it is agreed by and between the parties that the buyers shall be liable for attorney's fees or collection costs plus any court costs if incurred. It is further agreed between the parties hereto that this to the property herein contracted for including any and all equipment and materials supplied or delivered to the job site and installed or utilized thereto shall remain the property of the seller until such time as this contract is fully performed and all amounts are paid. It is further agreed that ALPINE FENCING, shall have the right to perfect any mechanical or materials liens as provided by Colorado law, which they may deem necessary. In order to protect their interest herein and upon breach of this contract by the buyers, seller has the right to retake the property and enter buyer's premises in order to effectuate any right referred to herein. ALPINE FENCING is not liable for any damage to underground utility lines, cables or water lines not located by v

**Emergency Conservation Program (ECP)/
Emergency Forest Restoration Program (EFRP)**

Review of Average Market Land Value

Rio Blanco

State Committee Discussion Record

Program: Emergency Conservation Program

Date: 05/28/2026

Staff Member Presenting:

Hunter A. Cleveland

Action Requested:

Review the agricultural market land value established by the Rio Blanco COC for Rio Blanco County.

STC Recommended Action:

There is no determination required by the Colorado State Committee. This is simply a review to meet requirements established by 1-ECP (Rev. 8).

Background:

Handbook 1-ECP (Rev. 8) paragraph 179C states that ECP C/S approvals or payments **may not** exceed 50 percent of the agricultural market value of the affected land as determined by COC, unless waived by DAFP. NASS land values, land appraisals, or comparable sales from local realtors are resources from which to determine the agricultural market value of the affected land.

COC must determine applicable farmland value from NASS data or other credible resources as determined by STC. NASS land value data can be found at <https://www.nass.usda.gov>. Other credible sources may include the State university, local land taxing authority, etc.

STC is responsible for annually reviewing the agricultural market values established by COC's in each county.

The Rio Blanco COC took action on April 9th to set the agricultural market land value for Rio Blanco County as follows:

- **Rangland:** \$2,250/acre
- **Dryland Cropland:** \$2,500/acre
- **Irrigated Cropland:** \$11,550/acre

EXHIBIT 4

These rates were based on sold comps, NASS 2025 land value context, and MLS record data that is attached.

RIO BLANCO COUNTY FSA COMMITTEE
April 9th, 2026
Minutes-Regular Session Email Poll

The Rio Blanco County FSA Committee were email polled for an action between meetings on 04/09/2026 those polled are as follows:

Mary Krueger
Anthony Theos
Mike Lopez

ACTIONS BETWEEN MEETINGS

EMERGENCY CONSERVATION PROGRAM

A. Average Agriculture Market Value for land in Rio Blanco County

The Rio Blanco COC was email polled on 04/09/2026 to establish the average agricultural market value for land in Rio Blanco county. CED Shad Butler pulled data based on sold comps, NASS 2025 land value context, and MLS records. The Rio Blanco COC proposes establishing the below Average Agriculture Market Values for Rio Blanco County. Member Mike Lopez did not respond.

- Rangeland (Pasture/Grazing): \$2,250/ acre
- Dryland Cropland: \$2,500/ acre
- Irrigated Cropland: \$11,500/ acre

Good morning,

The Rio Blanco COC needs to establish the Average Agriculture Market Value for land in Rio Blanco County. I have compiled data from the Assessors site and realtor sites. Specific data seems to be hard to find. I have compiled the following based on my research. Please let me know what everyone thinks. If you want to recommend establishing the rate as listed, please reply all saying such. If you have questions or further comments, let me know!

- | | |
|--|------------------------|
| 1. Rangeland (Pasture/Grazing): Typical value ~ \$2,250 per acre based on recent sold comps. | Set at \$2,250/ acre? |
| 2. Dryland Cropland: Indicative value range ~ \$2,000-\$3,000 per acre; few direct sales. | Set at \$2,500/ acre? |
| 3. Irrigated Cropland: Working market range ~ \$8,000-\$15,000 per acre depending on water rights. | Set at \$11,500/ acre? |

Values derived from sold comps, NASS 2025 land value context, and MLS records.

Shad Butler

¹ Value of all land and buildings adjusted to include American Indian Reservation land value.² Excludes Alaska and Hawaii.

Economic Regions

Economic Regions:

Northeast:..... Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont.

Lake States:..... Michigan, Minnesota, Wisconsin.

Corn Belt:..... Illinois, Indiana, Iowa, Missouri, Ohio.

Northern Plains: Kansas, Nebraska, North Dakota, South Dakota.

Appalachian:..... Kentucky, North Carolina, Tennessee, Virginia, West Virginia.

Southeast:..... Alabama, Florida, Georgia, South Carolina.

Delta States: Arkansas, Louisiana, Mississippi.

Southern Plains: Oklahoma, Texas.

Mountain:..... Arizona, Colorado, Idaho, Montana, Nevada, New Mexico, Utah, Wyoming.

Pacific:..... California, Oregon, Washington.

Statistical Methodology

Survey Procedures: The estimates of land values in this report are based primarily on the Agricultural Land Values and Technology Use Survey, conducted from April to June. This annual survey uses a stratified random sample from the NASS list frame. A sample of approximately 28,475 operations were included.

Enumerators contacted all agricultural producers in the sample and recorded land value information for all cropland and pasture they operate. They also collect an estimated value of all land and buildings for the operator's entire farming operation and the estimated percent change from the previous year.

Survey reported data are reviewed for reasonableness and consistency by comparing with other data reported in the survey and with data reported in the previous year.

Estimating Procedures: Once the data are summarized, each Regional Field Office (RFO) conducts an analysis of the summarized indications and any other available information for their States. RFOs then set estimates for land values and submit these recommendations along with their assessment of survey and other administrative information to the Agricultural Statistics Board (ASB).

Survey data are also summarized for Regional and National levels and reviewed independently of each State's review. National targets are established by the ASB. After RFO recommendations are submitted, the ASB reviews the RFO estimates and supporting comments, and any conflicts with targeted National levels are resolved.

The Regional and United States estimates are weighted by the amount of cropland and pasture in each State, based on the most recent Census of Agriculture. For the purposes of this report, cropland pastured is defined as cropland.

Published Estimates: State averages are not published for States with limited reports to ensure confidentiality of individual operations. While the June Area Survey is the primary source of data for the estimates, supplemental survey data and potential previous year revisions are also considered, as described in the more detailed NASS Land Values Methodology and Quality Measures publication. As such, the estimates reflect an average of land values for the year.

Published Estimates: State averages are not published for States with limited reports to ensure confidentiality of individual operations. While the Agricultural Land Values and Technology Use Survey is the primary source of data for the estimates, potential previous year revisions are also considered, as described in the more detailed NASS Land Values Methodology and Quality Measure publication. As such, the estimates reflect an average of land values for the year. https://www.nass.usda.gov/Publications/Methodology_and_Data_Quality/Land_Values/08_2024/QualityMeasuresReport2024.pdf

Revision Policy: For non-census years, land values are subject to an annual revision the following year. After the 5-year Census of Agriculture is completed, land value estimates for the non-census years are subject to a final historic revision. The basis for revision must be supported by additional data that directly affect the level of the estimate.

Terms and Definitions

Farm: Any establishment from which \$1,000 or more of agricultural products were sold or would normally be sold during the year. Government payments are included in sales.

Farm real estate value: The value at which all land and buildings used for agricultural production, including dwellings, could be sold under current market conditions, if allowed to remain on the market for a reasonable amount of time.

Cropland value: The value of land used to grow field crops, vegetables, or land harvested for hay. Land that switches back and forth between cropland and pasture should be valued as cropland. Hay land, idle cropland, and cropland enrolled in government conservation programs should be valued as cropland.

Irrigated cropland value: The value of cropland that normally receives or has the potential to receive water by artificial means to supplement natural rainfall. Irrigated cropland may consist of both land that will or will not be irrigated during the current year, but still has the facilities and equipment to do so. Irrigation facilities and equipment such as wells, pumps, canals, ditches, reservoirs, lakes, tanks, ponds, rivers, streams or creeks are usually present or on nearby acres.

Non-irrigated cropland value: The value of cropland that only receives water by natural rainfall.

Pasture, grazing, and grassland value: The value of land that is normally grazed by livestock. Pasture does not need to have livestock grazing on it at the time of interview or during the current year in order to be valued as pasture or grazing land.

Information Contacts

Access to NASS Reports

For your convenience, you may access NASS reports and products the following ways:

- All reports are available electronically, at no cost, on the NASS web site: www.nass.usda.gov.
- The national specific reports are available via a free e-mail subscription. To set-up this free subscription, visit www.nass.usda.gov and click on “National” in upper right corner above “search” box to create an account and select the reports you would like to receive.
- Cornell’s Mann Library website houses NASS’s and other agency’s archived reports at <https://usda.library.cornell.edu>. All email subscriptions containing reports will be sent from <https://usda.library.cornell.edu>. To receive the reports via e-mail, you will have to go to the website and subscribe to the reports. If you need instructions to set up an account or subscribe, they are located at: <https://usda.library.cornell.edu/help>. You should whitelist notifications@usda-esmis.library.cornell.edu in your email client to avoid the emails going into spam/junk folders.

For more information on NASS surveys and reports, call the NASS Agricultural Statistics Hotline at (800) 727-9540, 7:30 a.m. to 4:00 p.m. ET, or e-mail: nass@usda.gov.

If you have specific questions you would like an expert to respond to, please visit our “Ask A Specialist” website at www.nass.usda.gov/Contact_Us/Ask_a_Specialist.

In accordance with Federal civil rights law and U.S. Department of Agriculture (USDA) civil rights regulations and policies, the USDA, its Agencies, offices, and employees, and institutions participating in or administering USDA programs are prohibited from discriminating based on race, color, national origin, religion, sex, disability, age, marital status, family/parental status, income derived from a public assistance program, political beliefs, or reprisal or retaliation for prior civil rights activity, in any program or activity conducted or funded by USDA (not all bases apply to all programs). Remedies and complaint filing deadlines vary by program or incident.

Persons with disabilities who require alternative means of communication for program information (e.g., Braille, large print, audiotope, American Sign Language, etc.) should contact the responsible Agency or USDA's TARGET Center at (202) 720-2600 (voice and TTY) or contact USDA through the Federal Relay Service at (800) 877-8339. Additionally, program information may be made available in languages other than English.

To file a program discrimination complaint, complete the USDA Program Discrimination Complaint Form, AD-3027, found online at [How to File a Program Discrimination Complaint](#) and at any USDA office or write a letter addressed to USDA and provide in the letter all of the information requested in the form. To request a copy of the complaint form, call (866) 632-9992. Submit your completed form or letter to USDA by: (1) mail: U.S. Department of Agriculture, Office of the Assistant Secretary for Civil Rights, 1400 Independence Avenue, SW, Washington, D.C. 20250-9410; (2) fax: (202) 690-7442; or (3) email: program.intake@usda.gov.

USDA is an equal opportunity provider, employer, and lender.

Executive Session

Noninsured Crop Disaster Assistance Program (NAP)

2026 NCT Review of Factors, Dates and Yields

Cucumbers

State Committee Discussion Record**Program:** Noninsured Crop Disaster Assistance Program (NAP)**Date:** 05.28.26**Staff Member Presenting:** Janae Rader, Farm Program Specialist**Matter for Consideration:** 2026 NCT record review and approval on Cucumbers (Crop Code 0132).**STC Recommended Action:** Accept the 2026 NCT data for Cucumbers as presented by STO.

Background: State Committee (STC) is to review the data used to determine the County Expected Yield (CEY) and Average Market Price (AMP). The CEY and AMP is determined using an Olympic Average of 5 most recent, consecutive crop years for which data is available.

Cucumbers are not covered by (FCIC/RMA) insurance at a 50/55 level in Colorado and is an eligible NAP crop.

There are 3 types of Cucumbers in Colorado:

- COM-Common
- ENG-English
- PKL-Pickling

Cucumbers have an established NCT record in the following contiguous states: Kansas, Nebraska, New Mexico, and Utah. No other contiguous state has an approved NCT record.

The Acreage reporting date is set at the State level. The acreage reporting deadline is July 15th of the year of harvest according to 2-CP (Rev. 16) Exhibit 6.

The application closing date is set at the State level was previously set for Cucumbers as March 15th the year of harvest.

County	Application Closing Date (all types)
Colorado	03/15
Kansas	03/15
Nebraska	03/15
New Mexico	01/31
Utah	03/15

Payment factors are set at the state level for a crop, type and intended use. The prevent plant (PP) and un-harvest (UH) factor was previously set. The PP and UH factor should be used to reflect the percentage of total production cost not incurred because planting and/or harvesting did not

EXHIBIT 5

take place. 1-NAP (Rev. 2) subparagraph 279 A STC will determine what percentage of total production cost would be expended if harvesting costs are excluded.

Factors by type:

State (PP/UH Factor)	Type	PP All Types Fh	UH All types Fh
Colorado	All	0.20	0.40
Kansas	All	0.30	0.52
Nebraska	All	0.30	0.57
New Mexico	All	0.15	0.43
Utah	All	0.20	0.40

Organic price and yield is not being requested.

Direct market price is not being requested.

A final plant date is set at the county level. The final plant date will affect coverage as planting after that date decreases coverage. Final plant date should reflect the latest date the crop, type and intended use can be planted to reasonably expect normal production.

Final plant date by type and intended use:

State (Final Plant Date)	County	COM Fh	ENG Fh	PKL Fh
Colorado	Crowley	07/15	-	-
Colorado	Fremont	07/15	-	-
Colorado	Otero	-	07/15	07/15
Colorado	Pueblo	06/30	06/30	06/30
Colorado	Weld	06/30	06/30	06/30
Kansas	Multiple	06/01	06/01	06/01
Nebraska	Multiple	07/30	07/30	07/30
New Mexico	Multiple	06/15	06/30- 08/31	06/30- 08/31
Utah	Multiple	06/15	-	06/15

A normal harvest date is set at the county level. All counties with an approved NCT record for Cucumbers in Colorado have an established harvest date of October 1. NAP coverage ends the earlier of date harvest was complete, abandonment of crop, destruction of the crop or normal harvest date. This will also determine the last day to timely file production and an application for payment. The normal harvest date should reflect the date that harvest is normally completed in the administrative county.

Normal harvest date by type and intended use:

State (Final Plant Date)	County	COM Fh	ENG Fh	PKL Fh
Colorado	Crowley	10/01	-	-
Colorado	Fremont	10/01	-	-
Colorado	Otero	-	10/01	10/01
Colorado	Pueblo	10/01	10/01	10/01
Colorado	Weld	10/01	10/01	10/01
Kansas	Multiple	08/25	08/25	08/25
Nebraska	Multiple	09/30	09/30	09/30
New Mexico	Multiple	07/01-08/01	07/20-10/15	07/20-09/20
Utah	Multiple	10/31	-	10/31

The CEY should reflect the average production potential for a crop by county, by practice and intended use. STC should ensure that the yield information is comparable with previously approved yields and justify any deviations.

The AMP must reflect the in-field harvest price, and cannot include the costs associated with transportation, packaging, etc. STC should ensure that established average market prices are comparable with established FCIC prices in the State or surrounding States and that the established average market prices are using consistent data sources and/or are comparable with previously approved average market prices in the State or in surrounding States. The process used for establishing the AMP is also applicable when establishing direct and organic market prices.

2026 STO recommended yield and price.

County	Type	IU	Ir/ Ni	UOM	CEY	Price	Organic Yield	Transitional Yield	Organic Price	Direct Market Price

See Exhibit for detailed information.

Discussion

The NASS price for cucumbers is not reflective of the price producers are receiving in Colorado. Most cucumbers in Colorado are hand-picked, and because the adverse effect wage rate (AEWR) is high and the majority of hand-harvesting labor is from H-2A workers, the actual market price in Colorado is significantly higher than the NASS reported value.

The AMS Los Angeles terminal market price was reviewed. Producers in Crowley, Otero and Pueblo commonly refer to this terminal market when setting their direct-market farm stand prices. To adjust this terminal market price back to an in-field average market price, reductions will be applied. Assuming a markup of 130% from average market price to direct market price and a marketing and transportation cost of approximately 25%. The formula used to convert the AMS Los Angeles price to an in-field price is: $(\text{AMS } \$/2.30)/1.25$. This aligns the resulting price to an infield average market price.

When available, the 25-28 lb. cart Mx pickles price was used averaging in values from the first of June, July and August.

After applying the above formula, the following in field prices were established.

	2019	2020	2021	2022	2023	2024	2025
June	720.00	909.09	1454.55	1100.00	1280.00	1600.00	1200.00
July	1818.18	1181.82	1363.64	1280.00	1600.00	1600.00	1636.36
Aug	909.09	1181.82	1454.55	1200.00	1120.00	1454.55	1363.64
Average	1149.09	1090.91	1424.24	1193.33	1333.33	1551.52	1400.00
Infield AMP	399.68	379.44	495.38	415.07	463.76	539.65	486.95

This infield average market price is similar to the NASS National price

	2019	2020	2021	2022	2023	2024	2025
AMP from AMS	399.68	379.44	495.38	415.07	463.76	539.65	486.95
NASS	376.00	368.00	388.00	440.00	418.00	400.00	-

It is noted that producers in Colorado are receiving a higher price than listed above, however it is determined that producers in Colorado are not marketing their cucumbers wholesale they are marketing them through farm stands receiving a direct market price.

STO recommends that the AMP 2019 through 2023 price be set at the higher of the AMP as determined using AMS data or NASS and that a direct market price be set at 130% of that.

In addition, the type PKL will consistently bring 5%-10% more than the COM or ENG. A reduction of 7% will be taken when setting the price for COM and ENG.

Executive Session

Noninsured Crop Disaster Assistance Program (NAP)

2025 NCT New Crop Request

San Miguel - Triticale Fg Ni

State Committee Discussion Record

Program: Noninsured Crop Disaster Assistance Program (NAP)

Date: 05.28.26

Staff Member Presenting: Janae Rader, Farm Program Specialist

Matter for Consideration: 2025 new crop request for San Miguel Triticale with the intended use of forage (Fg) and a non-irrigated (Ni) practice.

STC Recommended Action: Approve the new crop Triticale Fg Ni for San Miguel as recommended by STO.

STO recommendation:

PP Factor	UH Factor	Certified Organic Factor	Transitional Organic Factor	Final Planting Date	Normal Harvest Date	Application Closing Date
0.77	0.93			05/15	10/31	09/01 ¹

	2018	2019	2020	2021	2022	2023
COC Requested San Miguel Triticale Fg Ni	0.39	1.31	1.10	0.33	0.57	0.10

1/Different than COC recommended

Background: San Miguel county committee (COC) is requesting Triticale with the intended use of Fg and a Ni practice to be an eligible NAP crop in San Miguel County. The State Committee shall determine if the crop is an eligible NAP crop and establish NAP NCT data including: County Expected Yield (CEY), final plant date and normal harvest date. The Average Market Price (AMP), Acreage Reporting Date (ARD), prevent plant (PP) and un-harvest (UH) factors are set at the state level and are already established. The CEY is determined using an Olympic Average of 5 most recent, consecutive crop years for which data is available.

Triticale may be an eligible crop as RMA/FCIC does not cover Triticale for forage in Colorado. Crops for which individual crop insurance coverage is available are ineligible NAP crops (Par 53) Triticale for Grain (Gr) is covered by (FCIC/RMA) insurance at a 50/55 level in Colorado for the following Counties: Alamosa, Arapahoe, Conejos, Costilla, Elbert, Kiowa, Kit Carson, Larimer, Lincoln, Logan, Moffat, Morgan, Rio Grande, Phillips, Saguache, Sedgwick, Washington, Weld, Yuma. NAP is not available in those Counties. NAP may be considered an eligible NAP crop in all other Colorado Counties.

Triticale has an established NCT record in the following contiguous states: Arizona, Kansas, Nebraska, New Mexico, Oklahoma, Utah, Wyoming.

The Acreage reporting date is set at the State level. The acreage reporting deadline is November 15 of the year prior to harvest according to 2-CP (Rev. 16) Exhibit 6.

EXHIBIT 6

The application closing date (ACD) is set at the State level and was previously set for Triticale as September 1st of the year prior to harvest.

State	ACD
Colorado	09/01
Arizona	10/31
Kansas	09/01
Nebraska	09/30
New Mexico	09/30
Oklahoma	08/31
Utah	03/15
Wyoming	04/01
RMA	09/30 and 03/15

Payment factors are set at the state level for a crop, type and intended use. The prevent plant (PP) and un-harvest (UH) factor was previously set. The PP and UH factor should be used to reflect the percentage of total production cost not incurred because planting and/or harvesting did not take place. 1-NAP (Rev. 2) subparagraph 279 A STC will determine what percentage of total production cost would be expended if harvesting costs are excluded.

State	PP Factor FG	UH Factor FG
Colorado	0.77	0.93
Arizona	0.40	0.70
Kansas	0.45	0.84
Nebraska	0.60	0.85
New Mexico	0.30	0.85
Oklahoma	0.40	0.70
Utah	0.36	0.74
Wyoming	0.60	0.83

Triticale has a certified organic yield factor of 0.75 and a transitional yield factor of 0.75. The historical organic price for Fg is 144% of the AMP.

State	Organic Yield Factor	Transitional Yield Factor	Organic Historical Percent – Fg
Colorado	0.75	0.75	144
Arizona	-	-	-
Kansas	-	-	-
Nebraska	0.70	-	119
New Mexico	-	-	-
Oklahoma	-	-	-

EXHIBIT 6

State	Organic Yield Factor	Transitional Yield Factor	Organic Historical Percent – Fg
Utah	-	-	-
Wyoming	0.75	0.75	80

Direct market price is not being requested.

The final plant date is set at the county level. Final plant date will affect coverage as planting after that date decreases coverage. Final plant date should reflect the latest date the crop, type and intended use can be planted to reasonably expect normal production.

State	County	Final Plant Date - FG

A normal harvest date is set at the county level. All counties with an approved NCT record for Triticale in Colorado have an established harvest date range of 07/15-10/31. NAP coverage ends the earlier of date harvest was complete, abandonment of crop, destruction of the crop or normal harvest date. This will also determine the last day to timely file production and an application for payment. The normal harvest date should reflect the date that harvest is normally completed in the administrative county.

The CEY should reflect the average production potential for a crop by county, by practice and intended use. STC should ensure that the yield information is comparable with previously approved yields and justify any deviations.

San Miguel has an established NCT record with an irrigated practice.

	2018	2019	2020	2021	2022	2023
Triticale Fg Ir	1.98	1.85	1.35	1.03	1.34	
COC Requested Triticale Fg Ni	0.39	1.31	1.10	0.33	0.57	0.10

The AMP must reflect the in-field harvest price, and cannot include the costs associated with transportation, packaging, etc. STC should ensure that established average market prices are comparable with established FCIC prices in the State or surrounding States and that the established average market prices are using consistent data sources and/or are comparable with previously approved average market prices in the State or in surrounding States. The process used for establishing the AMP is also applicable when establishing direct and organic market prices.

Established Price \$/ton	2018	2019	2020	2021	2022	2023
Triticale Fg	155.00	228.00	221.00	236.00	244.00	

STO yield recommendation:

	2018	2019	2020	2021	2022	2023
COC Requested San Miguel Triticale Fg Ni	0.39	1.31	1.10	0.33	0.57	0.10

See Exhibit for detailed information.

Discussion:

Application closing date requested 09/30, application closing date was previously set at the state level as 09/01, if changes are made it will need to be separate action item and will affect all counties, intended uses and practices in the state.

La Plata is the only similar county with actual yields reported for a Ni practice. 15-23 average for La Plata is 0.53

COC requested yield equal to Dolores which does not have any production history. Dolores yield is similar to La Plata yield with actual production history. The only difference is in 2022 where the Dolores yield is significantly higher at 0.57 compared to 0.02.

Executive Session

Noninsured Crop Disaster Assistance Program (NAP)

2025 NCT New Crop Request

Dolores Mixfg LGG Fg Ir

State Committee Discussion Record

Program: Noninsured Crop Disaster Assistance Program (NAP)

Date: 05.28.26

Staff Member Presenting: Janae Rader, Farm Program Specialist

Matter for Consideration: 2025 new crop request Dolores Mixed Forage, Legume, Small Grain, Grass interseeded (LGG) for forage (Fg) with an irrigated (Ir) practice.

STC Recommended Action: Approve the new crop request for Dolores Mixed Forage, LGG Fg Ir with the following NCT data:

PP Factor	UH Factor	Certified Organic Factor	Transitional Organic Factor	Final Planting Date	Normal Harvest Date	Application Closing Date
0.25	0.75			07/01	10/15	12/01

Unit of Measure in tons	2018	2019	2020	2021	2022	2023
Price	150.00	228.00	168.00	202.00	206.00	215.00
Yield	1.65	1.85	1.70	1.01	1.65	1.39

Background: Dolores COC (COC) is requesting Mixed Forage (Mixfg) Legume Small Grain, Grass interseeded (LGG) with the intended use of Forage (Fg) and an irrigated (Ir) practice to be an eligible NAP crop in Dolores County. The State Committee (STC) shall determine if the crop is an eligible NAP crop and establish NAP NCT data including County Expected Yield (CEY), Average Market Price (AMP), final planting date and normal harvest date. The CEY and AMP is determined by using an Olympic Average of 5 most recent, consecutive crop year for which data is available. The AMP will be a single price for the entire state where the CEY, final planting date and normal harvest date are set specific to each County.

STC should determine if Mixfg LGG Fg Ir is an eligible crop in Dolores County:

- Mixed Forage-LGG is not covered by (FCIC/RMA) insurance at a 50/55 level in Colorado and is an eligible NAP crop.
- STC should determine if this crop is experimental 1-NAP CO Par 53 A states that if a crop has not been successfully produced in 3 crop years in the APH base period in the applicable county or at least one surrounding county with similar farming practices it is considered experimental. Experimental crops are not eligible for NAP. No production was provided for Mixfg-LGG however, multiple production records are on file for irrigated Alfalfa, Mixed Forage AGM, Oats, Triticale, Grass ORG and Grass SUD in Dolores County.

EXHIBIT 7

Mixed Forage LGG Fg has an established NCT record in all contiguous states: Kansas, Nebraska, Oklahoma, Utah and Wyoming as well as 3 Colorado counties: Alamosa, La Plata and Washington.

The Acreage reporting date is set at the State level. The acreage reporting deadline is July 15th the year of harvest according to 2-CP (Rev. 16) Exhibit 6.

The application closing date is set at the State level and is previously set for Mixed Forage as December 1 the year prior to harvest.

Payment factors are set at the state level for a crop, type and intended use. The prevent plant (PP) and un-harvest (UH) factor was previously set. Perennial crops without a defined planting period will have a prevented planting payment factor of zero. The PP and UH factor should be used to reflect the percentage of total production cost not incurred because planting and/or harvesting did not take place. 1-NAP (Rev. 2) subparagraph 279A STC will determine what percentage of total production cost would be expended if harvesting costs are excluded.

LGG-Legume/Small Grain/Grass

State (LGG)	PP Factor Fg	UH Factor Fg
Colorado	0.25	0.75

Organic price and yield is not being requested.

Direct market price is not being requested.

The final plant date is set at the county level. Final plant date will affect coverage as planting after that date decreases coverage. The final plant date should reflect the latest date the crop, type and intended use can be planted to reasonably expect normal production. LGG is a combination of perennial and annual crops. A final plant date should be set.

A normal harvest date is set at the county level. All counties with an approved NCT record for Mixed Forage in Colorado have an established harvest date ranging from September 30 to October 31. NAP coverage ends the earlier of date harvest was complete, abandonment of crop, destruction of the crop or normal harvest date. This will also determine the last day to timely file production and an application for payment. The normal harvest date should reflect the date that harvest is normally completed in the administrative county.

SUBJECT: 2025 NAP NCT request Mixed FG LGG **DATE:** July 18, 2024

TO: STO-Committee, Janae Radar NAP Specialist
Colorado State FSA Committee
Kent Peppler, SED

FROM: Kacey Riedel County Executive Director *Kacey Riedel*
on behalf of the Dolores/San Miguel County Committee

The Dolores/San Miguel COC recommends adding NAP coverage for irrigated Mixed Forage LGG for forage for crop year 2025 for Dolores County. According to 1-NAP (Rev.1) CO Amend. 1, crops will not be eligible for NAP if they are considered experimental. The crop would need to be successfully produced in three crop years in the actual production history base period in the county or at least one surrounding county with similar farming practice. This crop is covered under NAP in La Plata County for irrigated in 2024. An SDA CCC-860 producer is requesting/planting the crop for the 2024 crop year. Per NAP Notice 227 the COC is requesting the STC expand coverage to Montezuma County as it is an approved NAP crop in the state for irrigated practice.

The Dolores/San Miguel COC recommends an **irrigated yield of 1.58 ton/acre** at a **price of \$192/ton**. The Dolores COC determined La Plata County 2024 NCT data adequately reflects farming practices, yields, and prices for the area.

CC: Samuel Montoya, District Director

Dolores/San Miguel County Committee Meeting – July 18, 2024

Meeting Place: Dolores/San Miguel County FSA Office
408 Main Street
Dove Creek CO, 81324

Time: 9:30 A.M.

Members Present: Joshua Bridge, Chairperson
Maragret Lestina, Vice Chairperson
Anita Fernandez, Member

Staff Present: Kacey Riedel, County Executive Director
Jackie Nielson, Program Technician
Crystal Jarmon, Program Technician

Guest: Bill Waschke

- d. **3 NCT Data Updates/Crop Requests** 1-NAP (Rev. 2) Amend. 18 Page 1- Establishing Reporting Deadlines and Other Applicable Dates STC will establish, no later than 120 calendar days before the application closing date for the crop, & CO Amend. 4 **Adding Crops to the NCT** per Par. 275 of 1-NAP (Rev. 2) Amend. 18

- i. **2024 Crop Table for NAP purposes (SDA Producer)-** Per NAP Notices 221, 218, 232 CM-849
NAP Notice 227-

2 Reviewing NAP Policy for Basic Coverage Initiated From CCC-860

A Crops

For a crop without an existing NCT approval in the county, STC's may expand coverage for the same crop combination in additional counties within the State, if the crop was previously approved in another county in the State and STC determines it is a viable crop for the area.

Any crop not already approved by STC for at least 1 county in the State cannot be approved after the application closing date.

Note: This applies only to crops for which basic (50-55) NAP coverage was initiated using CCC-860.

1. Mixed FG LGG for FG IR and non-IR- on neighboring county NCT/NAP approved crop (La Plata County has similar farming practices. Montezuma is also requesting the crop.) therefore the crop is not experimental in **San Miguel** County. SDA Producer has crop for 2024. COC requesting crop be added to NCT for NAP purposes.
- ii. **2025 Crop Table for NAP purposes**
 1. Mixed FG LGG for FG IR and non-IR- on neighboring county NCT/NAP approved crop (La Plata County has similar farming practices. Montezuma is also requesting the crop) therefore the crop is not experimental in **Dolores** County. COC requesting crop be added to NCT for NAP purposes.

Comments:	Only Counties with an APH Yield reported since 2015 will be listed on the table above.														

23 Pricing - Used AMS - \$12 per ton for transportation based on CSU Custom Rates.

Brome 315 BRM/BRR/SMO- estimate 325/ton good/premium (130 per bale avg ≈800 lbs=325/ton)-12 for transportation =313 rounded to the nearest \$5

Orchard 265 ORG estimate 275/ton good/premium 275-12=263 rounded to the nearest \$5

Sudan 155 SUD - estimate 170 avg good/premium all size (127, 154, 175, 127,220=avg 169 - 12 transporation =157 rounded to the nearest \$5

Timothy 275 - TIM = estimate avg bale 3x3 at 800lbs - 105/bale = 262.5/ton and 125/bale=312.5 ton - avg of those 262.5 and 312.5=287.5/ton minus \$12.00 ton transportation = 275

All other hay types 205: Used Grass - avg Good NW 3x4 200 good/premium NE 230, 3x3 225 - avg of 218 minus 12/ton transporation = 206 rounded to the nearest \$5

23 - No BCM yield in CO, no type of Grass production reported for Bent used NASS % Change - 14% decrease from prior year. (22-.69, 23-.59)

BCM Bermuda Common

Bent	BCM					2.24	1.85	1.26	0.98	0.69	0.59				
------	-----	--	--	--	--	------	------	------	------	------	------	--	--	--	--

23 Yield - all but Mesa used NASS % decrease of all other hay 14%. Mesa 0.38 APH only county with BRM production - Historical avg 15-23 for mesa is 1.12 similar to the 2022 NCT yield used. NASS CO decreased 14% from prior year (22-1.85, 23 1.60) Other types of grass in Mesa increased from 2022 to 2023. Mesa will use the same yield as 2022 1.05. Delta NAG decreased 25% (NAG 22 0.44, 23 0.33) - Used the NASS decrease from prior year of 14% (22-.54, 23-0.46). El Paso does not have any type of grass production history - decreased 14% same as NASS CO all other hay (22-.68, 23-.58) Moffat does not have any yield reported for 23 used NASS CO decrease 14% (22-.79, 23-.68), Montezuma doesn't have any yield reported - used NASS % change 14% decrease from prior year (22-1.05, 23-.90) Sedgwick - Doesn't have any yield reported for 2023 used NASS % Change 14% decrease from prior year (22-.98, 23-.84)

Alfalfa 3x3 Fair/Good/Premium										-	247.00				
Grass 3x4 and Large Good/Premium										245.00	230.00				
Grass 3x3 - Good/Premium										-	252.50				
Grass-Brome 3x3- Good/Premium	by bale used avg 900lb/bale									311.11	288.89				
Grass-Orchard 3x3 Good/Premium	reported both by ton and by bale used avg 900lb/bale									271.11	275.00				
Grass-Sudan 3x3 Good /Premium										180.00	175.00				
Grass-Timothy 3x3 Good/Premium	reported both by ton and by bale used avg 900lb/bale									270.00	277.78				
	242.95														

23 Price 225.00 between historical NCT % of NASS at 88% (NASS CO 252: 252*.88=221.76) and AMS Simple avg of all Alfalfa/Grass types 242.95 minus \$12/ton for transportation (242.95-12=230.95) AGM will use RMA Forage price when published.

23 Yield AGM - used actual production yield if available (Archuleta, Bent, Chaffee, Coneejos, Costilla, Custer, Delta, Dolores, Eagle, Elbert, Fremont, Garfield, La Plata, Larimer, Las Animas, Mesa, Montrose, Morgan, Otero, Pitkin, Pueblo, Rio Grande, Routt, Saguache, San Miguel, Weld) -Exception Crowley and Montezuma - Crowley Used simple Avg of historical yield 15-23, 22 and 23 yield of 1.68 and 6.10 is unrealistic when prior years did not exceed 1.88 - used 2.33, Montezuma used simple avg of prior year yield of 1.17 and simple avg of actual production 15-23 of 0.11 = 0.64. More representative of actual potential in the county as highest yield reported was 0.32, 22 and 23 was both uh with zero production in Montezuma - NASS all other hay decreased 13% from 1.85 to 1.60 and Alf/Alfalfa Mix increased 17% from 2.90 to 3.40 used prior years yield if no actual prd data was available based on NASS similar to no change between the 2 forages for Colorado

Executive Session

Noninsured Crop Disaster Assistance Program (NAP)

2025 NCT New Crop Request

Rio Blanco Mixfg GMA Fg Ir

and

Rio Blanco Mixfg GMA Fg Ni

State Committee Discussion Record

Program: Noninsured Crop Disaster Assistance Program (NAP)

Date: 05.28.26

Staff Member Presenting: Janae Rader, Farm Program Specialist

Matter for Consideration: 2025 new crop request Rio Blanco Mixed Forage, Grass Mix Alfalfa (GMA) for forage with an irrigated and non-irrigated practice.

STC Recommended Action: Approve the new crop request for Rio Blanco Mixed Forage GMA Fg with both an Ir and Ni practice as recommended by STO.

PP Factor	UH Factor	Certified Organic Factor	Transitional Organic Factor	Final Planting Date	Normal Harvest Date	Application Closing Date
-	0.75			-	10/15	12/01

Unit of Measure in tons	2018	2019	2020	2021	2022	2023
Price	150.00	228.00	221.00	236.00	244.00	225.00
Mixfg GMA Fg Ir	0.67	0.46	0.90	0.895	0.85	0.70
Mixfg GMA Fg Ni	0.17	0.1	0.1	0.34	0.1	0.35

STO recommended yield is different that requested by COC.

Background: Rio Blanco COC is requesting Mixed Forage (Mixfg) Grass Mix Alfalfa (GMA) with the intended use of forage (Fg) for both irrigated (Ir) and non-irrigated (Ni) practices. The State Committee (STC) shall determine if the crop is an eligible NAP crop and establish NAP NCT data including County Expected Yield (CEY), final planting date and normal harvest date. The CEY is determined by using an Olympic Average of 5 most recent, consecutive crop year for which data is available. The AMP will be a single price for the entire state and has been previously set for 2025 at \$228.33 per ton and 2026 at 229.67. The CEY, final planting date and normal harvest date are set specific to each County.

Mixed Forage is not covered by (FCIC/RMA) insurance at a 50/55 level in Colorado and may be an eligible NAP crop.

The crop is not experimental as alfalfa, and grass have both been successfully grown in Rio Blanco County for more than 3 years.

There are 13 types of Mixed Forage in Colorado.

Perennial

AGM-Alfalfa Grass Mixture

GMA-Grass Mix-Below 25% Alfalfa
 IGS-2 or More Interseeded Grass Mix
 LEG-2 or More Legumes Interseeded
 LGM-Legume/Grass Mixture
 NSG-Native Grass Interseeded

Annual
 ASG-Alfalfa Small Grain Interseeded
 ICG-2 or More Interseeded Coarse Grains
 LGG-Legume/Small Grain/Grass
 LSG-Legume/Small Grain
 MSG-2 or More Interseeded Small Grains
 OTP-Hay Oats and Peas
 SSG-Grass/Small Grain Interseeding

Mixed Forage has an established NCT record in all contiguous states: Kansas, Nebraska, New Mexico, Oklahoma, Utah and Wyoming.

The Acreage reporting date is set at the State level. The acreage reporting deadline is July 15th the year of harvest according to 2-CP (Rev. 16) Exhibit 6.

The application closing date is set at the State level and is previously set for Mixed Forage as December 1st the year prior to harvest.

County	Application Closing Date All Types
Colorado	12/01
Kansas	12/01
Nebraska	11/15
New Mexico	12/01-01/31
Oklahoma	08/31-11/30
Utah	12/01-03/15
Wyoming	12/01
RMA	-

Payment factors are set at the state level for a crop, type and intended use. The prevent plant (PP) and un-harvest (UH) factor was previously set. A prevented planting payment factor of zero will be set if the crop does not have a defined planting period and final planting date. The PP and UH factor should be used to reflect the percentage of total production cost not incurred because planting and/or harvesting did not take place. 1-NAP (Rev. 2) subparagraph 279 A STC will determine what percentage of total production cost would be expended if harvesting costs are excluded.

Perennial

AGM-Alfalfa Grass Mixture

State (AGM)	PP Factor Fg	UH Factor Fg
Colorado	0	0.75
Kansas	0.46	0.75
Nebraska	0	0.80
New Mexico	0	0.74
Oklahoma	0.40	0.70
Utah	0	0.75
Wyoming	0	0.80

GMA-Grass Mix-Below 25% Alfalfa

State (GMA)	PP Factor Fg	UH Factor Fg
Colorado	0	0.75
Kansas	-	-
Nebraska	0	0.80
New Mexico	0	0.74
Oklahoma	0	0.60
Utah	0	0.75
Wyoming	0	0.80

LGM-Legume/Grass Mixture

State (LGM)	PP Factor Fg	UH Factor Fg
Colorado	0	0.75
Kansas	-	-
Nebraska	0	0.80
New Mexico	-	-
Oklahoma	0.40	0.70
Utah	0	0.75
Wyoming	0.30	0.80

Organic price and yield is not being requested for any of the Mixed Forage types.

Direct market price is not being requested.

The final plant date is set at the county level. Final plant date will affect coverage as planting after that date decreases coverage. The final plant date should reflect the latest date the crop, type and intended use can be planted to reasonably expect normal production. A final plant date is not set for perennial crops, as perennial crops are not covered under NAP until they are established.

The following types contain all perennial mixes and will not have a final plant date

AGM-Alfalfa Grass Mixture

GMA-Grass Mix-Below 25% Alfalfa

IGS-2 or More Interseeded Grass Mix

LEG-2 or More Legumes Interseeded

LGM-Legume/Grass Mixture

NSG-Native Grass Interseeded

A normal harvest date is set at the county level. All counties with an approved NCT record for Mixed Forage in Colorado have an established harvest date ranging from September 30 to October 31. NAP coverage ends the earlier of date harvest was complete, abandonment of crop, destruction of the crop or normal harvest date. This will also determine the last day to timely file production and an application for payment. The normal harvest date should reflect the date that harvest is normally completed in the administrative county.

Normal harvest date - perennial types: AGM, GMA, IGS, LEG, LGM, NSG

The CEY should reflect the average production potential for a crop by county, by practice and intended use. STC should ensure that the yield information is comparable with previously approved yields and justify any deviations.

The AMP must reflect the in-field harvest price, and cannot include the costs associated with transportation, packaging, etc. STC should ensure that established average market prices are comparable with established FCIC prices in the State or surrounding States and that the established average market prices are using consistent data sources and/or are comparable with previously approved average market prices in the State or in surrounding States. The process used for establishing the AMP is also applicable when establishing direct and organic market prices.

RIO BLANCO COUNTY FSA COMMITTEE
November 25th, 2025
Minutes-Executive Session Email Poll

The Rio Blanco County FSA Committee was emailed an item for action between meetings on 11/25/2025 those polled are as follows:

Mary Krueger	Chair
Todd Shults	Vice-Chair
Anthony Theos	Regular Member

ACTIONS BETWEEN MEETINGS

NON-INSURED DISASTER ASSISTANCE PROGRAM

B. New Crop Request

The Rio Blanco COC reviewed crop information for Grass Mix Alfalfa, reviewing previous years acreage reports. COC also noted that the crop has been produced for commercial sale and personal use in NW Colorado for several years. CED, Shad Butler, provided data from Routt and Mesa county for COC to review. The Rio Blanco COC agreed that Rio Blanco has diverse growing conditions across the county. Due to these growing conditions COC agreed that we fall somewhere in between Mesa and Routt County growing conditions for both NI and IRR and boasts similar yields. Rio Blanco County does not have any yield data as of yet since the crops were previously reported as Alfalfa Grass Mix. Until actual county production reports are provided, surrounding county data is believed to be the best source to establish the crop record. Grass Mix Alfalfa is not an experimental crop and producers are unable to obtain traditional RMA insurance for the crop. The sales closing date has passed for 2025 but socially disadvantaged and beginning farmer producers may still be eligible to obtain coverage for 2025. (Reference 1-NAP, Rev. 2, Par. 53, 275)

26 Price will be RMA price when it is published

23 Yield - For counties with actual production used actual yield (Bent, Dolores, Elbert, Garfield, Logan, Moffat, Montezuma, Routt). Counties without 23 production but has an actual yield recorded 15-23 the simple avg of all yields rounded to nearest tenths. Counties with no historical production increased 17% same as NASS increase - (didn't use actual production % increase 728% as it resulted in yields higher than any historical NCT yield and not reflective of crop conditions - the anomalie would be Bent at 1.2, Custer a 2.98 and Elbert at 1.30 t/a with no 2022 production accounted for. Exception any actual yield under 1. t/a rounded up to nearest tenth (Dolores .1, Garfield .5, Montezuma .1, Routt .8)

Comments:	Only Counties with an APH Yield reported since 2015 will be listed on the table above.														

23 Pricing - Used AMS - \$12 per ton for transportation based on CSU Custom Rates.

Brome 315 BRM/BRR/SMO- estimate 325/ton good/premium (130 per bale avg ≈800 lbs=325/ton)-12 for transportation =313 rounded to the nearest \$5

Orchard 265 ORG estimate 275/ton good/premium 275-12=263 rounded to the nearest \$5

Sudan 155 SUD - estimate 170 avg good/premium all size (127, 154, 175, 127,220=avg 169 - 12 transporation =157 rounded to the nearest \$5

Timothy 275 - TIM = estimate avg bale 3x3 at 800lbs - 105/bale = 262.5/ton and 125/bale=312.5 ton - avg of those 262.5 and 312.5=287.5/ton minus \$12.00 ton transportation = 275

All other hay types 205: Used Grass - avg Good NW 3x4 200 good/premium NE 230, 3x3 225 - avg of 218 minus 12/ton transporation = 206 rounded to the nearest \$5

23 - No BCM yield in CO, no type of Grass production reported for Bent used NASS % Change - 14% decrease from prior year. (22-.69, 23-.59)

BCM Bermuda Common

Bent	BCM					2.24	1.85	1.26	0.98	0.69	0.59				
------	-----	--	--	--	--	------	------	------	------	------	------	--	--	--	--

23 Yield - all but Mesa used NASS % decrease of all other hay 14%. Mesa 0.38 APH only county with BRM production - Historical avg 15-23 for mesa is 1.12 similar to the 2022 NCT yield used. NASS CO decreased 14% from prior year (22-1.85, 23 1.60) Other types of grass in Mesa increased from 2022 to 2023. Mesa will use the same yield as 2022 1.05. Delta NAG decreased 25% (NAG 22 0.44, 23 0.33) - Used the NASS decrease from prior year of 14% (22-.54, 23-0.46). El Paso does not have any type of grass production history - decreased 14% same as NASS CO all other hay (22-.68, 23-.58) Moffat does not have any yield reported for 23 used NASS CO decrease 14% (22-.79, 23-.68), Montezuma doesn't have any yield reported - used NASS % change 14% decrease from prior year (22-1.05, 23-.90) Sedgwick - Doesn't have any yield reported for 2023 used NASS % Change 14% decrease from prior year (22-.98, 23-.84)

Executive Session

Otero – COC action items and Minutes

**Otero/Crowley County Actions for State Committee Meeting – May 28, 2026****Executive Session Minutes**

Meeting Place: Teams

Members Present: STC Members

Staff Present: Dara Belew, Otero County Executive Director

7. Otero COC Actions Needed.**a. Supplemental Disaster Program (SDRP)**

1. The State Committee reviewed and approved the following CCC-526, SDRP Stage 1 Applications listed in the table below. The list of applications and producers are for are producers that have PRF or Annual Forage listed on the application. With PRF and Annual Forage, the applications had to be reviewed to ensure that units on the application are not covering grazing, as crops intended for grazing are excluded from SDRP Stage 1. The applications that have been reviewed, grazing does not show for RMA or FSA for the units on the applications for the producers listed. Therefore, per 1-SDRP Par. 66 C the program eligibility requirements have been met and determined that the information on the FSA-526 SDRP Stage 1 Applications. The state committee made the determination to approve the following applications. (*Ref: 1-SDRP Par. 66 C*)

SDRP 1 Applications with PRF and/or Annual Forage

SDRP 1			
Year	County	Producer	Qualifying Disaster Event
2024	Otero	Berg, Leif	Excessive Heat, Excessive Wind
2024	Crowley	Markus, Ricky	Excessive Heat, Excessive Wind
2024	Crowley	Markus, Garrett	Excessive Heat, Excessive Wind
2024	Crowley	Lewis, Keith	Excessive Heat, Excessive Wind
2024	Otero	Schlegel, Marvin	Excessive Heat, Excessive Wind
2023	Crowley	Markus, Ricky	Qualifying Drought
2023	Crowley	Markus, Garrett	Qualifying Drought
2023	Crowley	Lewis, Keith	Qualifying Drought

2. The State Committee reviewed the following CCC-504, SDRP Stage 2 Applications listed in the table below, which were approved by the CED on their behalf of the COC between meetings. These applications have been reviewed, and the program eligibility requirements have been met and determined that the information on the CCC-504 SDRP Stage 2 Application is reasonable and accurate. (*Ref: 1-SDRP Par 4, Exhibit 1 & Redelegations of Authority effective February 11, 2026*)

SDRP 2 Applications Reviewed and Approved as of 5/15/2026

d. Payment Eligibility
1. Actively Engaged

Policy 6-PL Par. 141 Actively Engaged in Farming Rule

For a person or legal entity to be considered actively engaged in farming, all the requirements must be met.

- Significant “left-hand” contributions are made to the farming operation of 1 or a combination of the following:
 - Capital
 - Equipment
 - Land
- Significant “right hand” contributions are made to the farming operation of 1 or a combination of the following:
 - Active personal labor
 - Active management
- A claimed share of the profits or losses from the farming operation that is commensurate with contributions to the farming operation.
- Contributions that are at risk

The STC reviewed the following actively engaged determinations made in-between meetings by County Executive Director. The actively engaged determinations were approved for the individual or entity based on the policy listed above. (*Ref: 6-PL Par. 141 & Redelegations of Authority effective February 11, 2026*)

	Payment Eligibility/ Actively Engaged

e. Non-Insured Crop Disaster Assistance Program (NAP)

1. Actual Production History (APHs)

The State Committee reviewed the following CCC-452, Actual Production History (APH) and Approved Yield Records for Crop Year 2025, which were approved by the CED on their behalf between meetings. The list is producers below, the CCC-452 has been signed by the producer certifying the production for the APH year is complete and accurate and the approved yield has been reviewed. (*Ref: 1-NAP Rev. 2 Amend. 1 Par. 400 & Redelegations of Authority effective February 11, 2026*)

2. 2025 Production

The State Committee reviewed the following submitted 2025 production records. All producers, including producers of hand-harvested crops, are required to provide acceptable and verifiable production records for production that is harvested. The producers and production listed in the table

EXHIBIT 9

Otero/Crowley County Actions STC Meeting Minutes – May 28, 2026

below provided production records that are considered acceptable records. (Ref: I-NAP Rev. 2 Par. 601 A and Par. 601 B & Redelegations of Authority effective February 11, 2026)
